2-04/010.11 - Safety Management Unit

The Safety Management Unit ensures the Department maintains compliance with Cal/OSHA, ADA and other State and Federal regulations. The Unit greatly enhances our ability to control risks and reduce losses pertaining to property damage, worker accident frequency rates, Workers' Compensation, and costs associated with contractor projects that have been halted due to safety issues. Additionally, the Department's Wellness Program is part of the Safety Management Unit and is responsible for promoting wellness programs Department-wide.
