Watch Commander's Responsibilities

Inspect the item(s) submitted and determine if replacement is necessary.

- If no replacement is necessary, return the item(s) to the employee along with an explanation;
- If the damage is considered unintentional or the item has become unserviceable due to normal wear and replacement is necessary, approve the Uniform and Equipment Replacement Request form (SH-AD-588) and direct the employee to take the original form with the item to Central Supply/Logistics for replacement; or
- If the damage was intentional or the item became unserviceable as the result of negligence, follow the same procedures described for stolen or lost property.

If the item submitted for replacement is a Department-issued concealed ballistic vest, the following conditions qualify for Department replacement:

- Poor fit due to weight loss or gain;
- The ballistic material is exposed due to wear or abrasion in the protective envelope;
- Obvious damage, rendering the vest panels unusable or unsafe;
- Bunching, gathering, or heavy creases in the ballistic panels; and/or
- Discoloration of the ballistic material.

After inspection, and if replacement is recommended, the employee shall bring the vest or memorandum if their vest is being held as evidence, and the approved Uniform and Equipment Replacement Request form to Central Supply/Logistics. All ballistic vest fittings shall be conducted with Class A trousers.

Special Notes

- The age of the vest alone is not sufficient reason for replacement;
- Outer cloth covers will not be replaced by the Department. Replacement of the outer cloth cover due to normal wear, neglect, or loss shall be at the employee's expense; and
- To replace damaged member-owned personal property, see MPP section 3-03/060.20, Replacing Employee's Damaged Personal Property.

Unit Commander's Responsibilities

The unit commander's signature is required on any Uniform and Equipment Replacement Request form for stolen and lost items (includes intentionally damaged and unserviceable due to negligence).

The Unit Commander, upon verifying the loss or damage, shall direct a memorandum to Personnel Administration requesting that the items be loaned to the member. A copy of the member's memorandum detailing the circumstances of the loss or damage shall be attached.

Upon presentation of the foregoing, Personnel Administration shall issue the member loan identification items, with the exception of the flat badge.

Flat badges shall not be loaned out. Members shall use their uniform badge as identification until their replacement identification items are ready.

Members shall return any on-loan identification items to Personnel Administration upon notification that their replacement identification items are ready.

The Unit Commander shall determine the degree of responsibility of the member for the theft, loss or damage.

The Unit Commander shall direct a memorandum to Personnel Administration indicating whether or not the loss or damage was due to negligence for inclusion in the member's personnel folder.

If the Unit Commander determines that the member was negligent and/or that the loss/damage could have been prevented had the member exercised reasonable judgement and precaution, the Unit Commander may recommend appropriate remedial or disciplinary action in accordance with existing Department guidelines.

The recommendation shall include a statement that, in cases of negligence, the member shall be held accountable for the repair/replacement costs. Consideration should be given to any previous incidents of negligence by the employee.

The Unit Commander shall direct the member to Personnel Administration to reimburse the Department for the replacement items. Personnel Administration shall issue receipts for payment authorizing replacement of the items. A refusal to reimburse the Department for repair/replacement costs caused by the member's negligence may result in civil action against the member.

When such reported items are found or recovered, the normal entry shall be made in the Property Control Ledger and, unless the items are required as evidence in a case, they shall be turned over to Personnel Administration as soon as possible and a receipt obtained. If such items are required as evidence a memorandum concerning their recovery shall be sent to Personnel Administration as soon as possible. When evidentiary use is concluded the items, or a memorandum reporting their disposition, shall be forwarded to Personnel Administration for inclusion in the badge file.

When reported items have been paid for by the member and the items are later recovered and are in good condition the employee shall be reimbursed by Fiscal Administration.

(County Code, Title 5, Chapter 5.80.60, provides the authority for the County to reimburse employees for damage of over \$5.00 to their private property when damage occurs in the line-of-duty and the employee is without fault). Claims are filed, investigated, and approved by the employee's unit or unit commander and forwarded to Fiscal Administration, Attention: General Accounting, within five working days for reimbursement or replacement.

The Department cannot approve claims in excess of \$1,000. Such claims will be forwarded to the CEO, Risk Management, for review and approval.

- Assault by another person;
- Attack by an animal;

NOTE 2: Current value for either personal prosthesis or hard goods (cameras, tools, etc.) shall be based on current replacement cost.

When clothing is damaged, reimbursement will not be considered for a complete suit unless both the jacket and trousers are damaged.

Reimbursement will not be considered for:

- Damages sustained while commuting to and from work, or while the employee is off-duty; or
- Damages sustained if the purpose of the trip is to undergo medical examination or treatment, to participate in a civil service examination, or to pursue employee relations matters on the employee's own behalf.

Motorcycles, "off-road" sports vehicles and similar recreation sports vehicles are specifically excluded under this program.

The amount of reimbursement will be based on the lowest repair/replacement estimate, provided it does not exceed the current fair market value of the vehicle, less \$5.00. If the lowest estimate exceeds the current fair market value, the amount of reimbursement will be based on the current fair market value, less the salvage value and \$5.00.

Any partial or total compensation from other sources, including insurance, received prior to the filing of a claim, will be deducted from the County's reimbursement.

If an employee receives compensation from outside sources after being reimbursed by the County, the employee shall pay the County an amount up to the reimbursement received from the County.
