

Chapter 9 - Miscellaneous Administrative Procedures

• 3-09/000.00 - Miscellaneous Administrative Procedures

This chapter contains administrative procedures which are not sufficiently detailed to warrant a separate chapter.

• 3-09/004.00 - Limited English Proficiency and Language Assistance Plan

It is the policy of the Los Angeles County Sheriff's Department to provide accurate and effective communication with members of the public regardless of their level of English proficiency. The Department shall strive to eliminate or reduce, to the maximum extent practicable, limited English proficiency (LEP) as a barrier to accessing assistance or utilization of Department programs and services.

Limited English proficient individuals are defined as persons who do not speak English as their primary language and who have a limited ability to read, write, speak, or understand English. LEP individuals may be competent in English for certain types of communication (e.g., speaking or understanding) but may still be LEP for other purposes (e.g., reading or writing).

Department members shall take reasonable steps to ensure effective and accurate communication with a LEP individual when providing assistance or Department programs and services. Personnel will use qualified bilingual persons as translators and interpreters as set forth in this policy. A "qualified bilingual person" as used in this plan is a qualified County interpreter (MPP 3-02/180.00, Bilingual Bonus), including employees or persons available through the civilian volunteer program or persons available through the Sheriff's Information Bureau bilingual services program who have passed the Los Angeles County fluency examination for the language involved. Immigration authorities shall not be used as interpreters for law enforcement matters relating to individuals in Department custody, even if otherwise qualified. Language assistance should be provided at a time and place that avoids the effective denial of assistance, service, or rights to the LEP person.

The Department shall prioritize the translation of vital forms including Public Complaint forms, Inmate Complaint forms, Miranda Rights cards, Inmate Services forms, and Order to Disperse cards.

The Department shall take reasonable steps to translate the LASD.org website into multiple languages, reflective of the communities served.

Desk Operations

Dispatch personnel who receive emergency calls for service from LEP individuals shall utilize the 24-hour, telephone-based Language Line Solutions translation service on the 9-1-1 emergency phone system unless the desk personnel are qualified bilingual person(s) for the language involved, or are self-identified as proficient in the relevant language. Department personnel capable of in-language communication should be dispatched as the primary responder or assisting unit for scenes involving LEP persons whenever possible.

To communicate with LEP individuals in the field, Department members should, as follows:

1. First, engage in direct in-language communication (i.e. without interpretation or translation between English and the non-English language) with the individual if the member is: a) a qualified bilingual person in the relevant non-English language; or b) is self-identified as proficient in the relevant non-English language. Each station shall maintain separate lists of members who are either qualified bilingual or self-identified as proficient in a non-English language.
2. If the member is unable to engage in direct in-language communication, he/she shall obtain interpretation assistance of a Department member who is qualified as bilingual or self-identified as bilingual in the relevant non-English language.
3. If unable to engage in either of the above, and for the limited purpose of obtaining preliminary information in the field, a Department member may use bilingual family, friends, or bystanders for interpreting in very informal, non-confrontational contexts. If follow-up information or an investigation is needed, within a reasonable amount of time, the Department member or supervisor should contact the LEP individual using a qualified bilingual member, self-identified bilingual members, or Language Line Solutions to confirm the preliminary information collected and to obtain additional information.

Department members should be aware that using bilingual family, friends, or bystanders to interpret could result in a breach of confidentiality, a conflict of interest, or an inadequate interpretation. Department members should avoid using persons biased for or against one of the parties and minor children under the age of 12 to assist in interpretation unless there is no available alternative. Department members should also avoid using a family member as an interpreter in a matter involving domestic violence absent exigent circumstances.

4. If the above options are unavailable, use the non-emergency number for Language Line Solutions services, (800) 523-1786, which can be accessed from any telephone. Give the station a specific 6-digit ID number. (For further information, refer to the Desk Manual.)

Exceptions

In the following circumstances, interpretation must be provided through telephonic language assistance or a qualified/self-identified bilingual Department member:

- An LEP person requests the assistance of an interpreter;
- A Department member intends to make an arrest that is based solely on information from an LEP person and the Department member is not confident that the interpretation provided by a family member, friend, or bystander is reliable and/or accurate;
- Department members are requesting consent to search from an LEP person and where the only authority for the search rests on the consent;
- Department personnel are conducting custodial interviews or interrogations; or
- Department members are conducting pre-planned, coordinated follow-up interviews with known LEP persons after a first report has been completed. In conducting pre-planned field investigations or canvassing, Department members should make efforts to anticipate the need for language interpretation and be prepared to obtain language assistance through telephonic language assistance or a

qualified/self-identified bilingual Department member.

Exigent Circumstances

In exigent circumstances, Department members are to use the most reliable temporary option available, including bystanders. Examples of exigency may include but are not limited to: medical emergencies; situations in which the life or safety of civilians are threatened; the immediate need to obtain descriptive information on a suspect; the need to obtain identifying information of an injured person; the need to avoid delay that will create a Terry Stop violation.

Once the exigency has passed and within a reasonable amount of time, Department members or supervisors shall obtain language assistance consistent with this plan. The use of a temporary interpreter, the exigent circumstances that necessitated such use, and the steps made for follow-up interpretation shall be memorialized in the incident report.

Personnel Complaints

Any LEP individual who wishes to file a complaint about an employee shall be provided with a complaint form and informational materials in the appropriate non-English language and/or be provided appropriate translation and interpretation services from a qualified bilingual person in order to file a complaint.

Each station shall have a sign displayed in the front lobby printed in English and other prevalent languages for that Department station service area as determined by the unit commander, containing the Department's public complaint phone number. In the event a LEP individual indicates they cannot read the posted information, Department members shall make reasonable efforts to provide appropriate language services from a qualified bilingual person.

Station Facilities

Each station, in the respective booking/detention areas, shall prominently display signage, printed in English as well as the prevalent spoken language(s) for that Department station service area as determined by the unit commander, detailing information regarding access to the Bail Commissioner, the Public Defender's Office, information on minor childcare, and the prisoner's right to complete three phone calls. In the event a LEP individual indicates they cannot read the posted information, Department personnel will make reasonable efforts to provide appropriate language services.

Custody Facilities

To maintain consistency and uniformity, each facility shall post both the English and Spanish versions of the Custody Services Division Inmate Rules and Regulations as listed in Custody Division Manual section 7-33/000.00, "Inmate Rules and Regulations." For those inmates who are unable to read English or Spanish, provisions shall be made for the jail staff to verbally instruct them or provide them with material, in an understandable form, regarding jail rules and disciplinary procedures and penalties.

Community Engagement and Outreach

Providing meaningful access to LEP individuals should also be considered in existing and future outreach and education initiatives within the Department. Department personnel should take steps to assess whether LEP

individuals may be part of an LASD organized community forum and should, to the extent practicable, ensure information about the forum or programs are sufficiently relayed in the appropriate language.

It may be necessary to translate press releases particularly where the newsworthy event involves a large number of LEP individuals or if translation of the press release may garner useful information to the public.

LEP Data Collection and Analysis

The use of a qualified bilingual person, self-identified LASD bilingual personnel, a civilian, or the Language Line Solutions service shall be memorialized in the incident report. To facilitate follow-up, contact information for civilians who provide language assistance should be included in the incident report.

• **3-09/010.00 - Range Operations**

The Weapons Training Unit Lieutenant is the Department Rangemaster. The Rangemaster has the functional supervision over all training sessions at all Department ranges to enforce all safety regulations and to ensure that the training conforms to the quality standards of the Weapons Training Unit.

The Rangemaster is authorized to establish, change, or abolish shooting courses, qualifications, and regulations.

At any Department range, the Rangemaster, or their designee, is authorized to:

- Post and enforce safety regulations and orders;
- Inspect any armed personnel's firearm, whether the firearm is Department issued or personally owned;
- Make recommendations to ensure that the condition of firearms of Department personnel conform to regulations;
- Prohibit the use of unsafe firearms or ammunition; and
- Issue, repair and maintain inventory control of all Department weapons and munitions, including tear gas.

Unauthorized firearms, including rifles, shotguns, and select-fire weapons, are not permitted on any Department range without the Rangemaster's or range supervisor's approval. Rifles, shotguns, select-fire ("machine gun") weapons, tear gas grenades, flash bang grenades, and pyrotechnics are not permitted in mobile ranges at any time.

• **3-09/020.00 - Incentive Shooting Pay**

All personnel through the rank of Division Chief who wish to qualify for shooting pay may do so as many times as they feel necessary during the normal shooting period.

For incentive shooting pay purposes, any authorized service weapon may be used. Handguns modified for competition are specifically not permitted.

Incentive pay for the various ratings is outlined in the most current Salary Ordinance for unrepresented employees and in the most current MOU for represented employees.

Rating Score

Distinguished Expert	See Below
Expert	275-300
Sharpshooter	260-274
Marksman	240-259

During any consecutive four-month period, a shooter may achieve a distinguished expert rating by completing four qualification relays with a minimum average score of 290 points (four highest scores within a consecutive four-month period must total at least 1160 points).

• **3-09/030.00 - Ammunition Allotment - Rescinded**

Rescinded. Refer to section 3-09/030.15, Annual Duty Ammunition Exchange.

• **3-09/030.05 - Ammunition Record Cards (SH-AD-496) - Rescinded**

Rescinded

• **3-09/030.10 - Training Ammunition**

Ammunition required for any training conducted by the Weapons Training Unit shall be supplied by the Weapons Training Unit.

Units that are training with any Department unit other than the Weapons Training Unit, or attending training conducted by another police agency or private entity, shall be responsible for purchasing their own ammunition.

Ammunition shall be purchased from an approved vendor. Units purchasing ammunition shall coordinate the purchase through the Biscailuz Center Armory.

Ammunition for qualification at a Department mobile range will be provided by the Weapons Training Unit at the Biscailuz Center Armory with an approved Departmental Supply Requisition.

Ammunition supplied for a mobile range shall only be used for qualifications. Practice shooting shall not be conducted at any mobile range. The Department's mobile ranges are for qualification use only.

• **3-09/030.15 - Annual Duty Ammunition Exchange**

Annually, between January through March armed personnel may exchange their previously issued duty ammunition for an equal amount of new duty ammunition as specified by the Weapons Training Unit. Ammunition will only be exchanged on a one-for-one basis. This ammunition exchange shall occur at a mobile range.

Mobile range operators shall exchange ammunition for any Department member regardless of the Department member's unit of assignment.

In addition, armed personnel who were issued an additional two magazines (maximum of five magazines) may exchange two magazines worth of ammunition at the Biscailuz Center Armory.

Ammunition exchange will only be conducted for one authorized on-duty handgun. Additional duty ammunition shall be purchased at the Department member's expense.

Ammunition for back-up and off-duty handguns will not be exchanged. Department members will be responsible for replacing this ammunition at their own expense.

Refer to the Weapons Training Unit intranet site for additional information regarding ammunition exchange.

• **3-09/030.20 - Qualification/Shooting Pay Incentive Record**

It shall be the shooter's responsibility to ensure that the Qualification/Shooting Pay Incentive Record is properly completed, according to the instructions posted at the ranges. Failure to complete this form properly will cause the information to be rejected when it reaches data processing. This will result in the qualification/incentive pay score not being recorded properly.

• **3-09/040.00 - Mileage Reports - County Vehicles**

Mileage shall be reported via the Semi-annual Vehicle Inventory Report (see section 3-06/145.00).

• **3-09/050.00 - Mileage Certification - Private Vehicles**

An employee who meets certain established criteria when driving a privately owned vehicle on County business may submit a Certification for Mileage Reimbursement (SHâ€™ADâ€™111), in triplicate, to his Division Chief or Division Director, through channels.

Unit Commander approval of the certification for mileage reimbursement shall be made only if the following established criteria applies:

- The employee is required to travel away from the office in order to perform his job assignment;
 - A County vehicle is not available for the employee's use; and
-

- Public transportation is not available or would be an unreasonable burden on the employee.

Exceptions to these requirements will be handled on an individual basis when sufficient justification exists.

A certification for mileage Reimbursement must be prepared for the following classifications of mileage permittees:

- New-not previously a permittee;
- Inter-Department transfer-if a permittee at previous Department;
- Intra-Department transfer-if a permittee at previous Unit;
- Name change; and
- Temporary-for a specified time due to unusual job assignment or duty.

The Unit Commander shall ensure the accuracy and completeness of the certification and, upon his approval, submit all such requests, in triplicate, to his Division Chief or Division Director for review and final Department approval.

Upon Chief or Division Director approval, the original and two copies of the certification shall be forwarded to Personnel Administration, Attn: Payroll Section, for processing.

Division-approved certifications must reach Personnel Administration, Payroll Section, prior to the date that the first monthly mileage claim is submitted by the employee. An employee shall not receive any payment for use of a privately owned vehicle unless he is a permittee and in no event for a time more than 60 days prior to the certification required as per Los Angeles County Code section 5.40.260.

Personnel Administration, Payroll Section, will retain the original certification and return two receipted copies to the initiating Unit.

Mileage claims for permittees shall adhere to procedure in section 3-05/020.00.

• **3-09/050.05 - Bureau/Unit Responsibility**

Each Bureau/Unit shall establish a certification for mileage reimbursement file, which will include a copy of approved certifications returned from Personnel Administration.

The second copy of the approved certification shall be filed in the employee's Unit personnel folder.

A current certification for mileage reimbursement list shall be maintained of all certified mileage permittees within the Bureau/Unit. This list shall be used to verify the employee's certification status before submitting a mileage claim. A copy of this list shall also accompany the approved mileage claims when submitting to Personnel Administration, Payroll Section.

Unit Commanders shall annually review mileage driven by subordinates to determine the need for continuing each certification under their command. Should the Unit Commander determine that a given certification is no longer required based on the established criteria, he shall request a cancellation by submitting a certification, through channels, to Personnel Administration, Payroll Section, for processing.

Injury compensation benefits apply to County mileage permittee drivers on their way to and from work. Since it is assumed that there will be exceptions to the ruling (e.g., where the employee does not go directly from work to home but rather detours for personal reasons unrelated to his work), as much information as possible regarding any unusual circumstances surrounding an incident involving an injury should be included in the required reports.

• **3-09/060.00 - Daily Fuel Inventory**

At Department facilities having underground storage tanks (UST) for fueling operations, a daily reading of the fuel supply levels and dispenser totals shall be made. The reading shall be recorded on the Tank Inventory Data form (SH-R-450).

Personnel at each Department facility with USTs shall be responsible for collecting and recording a minimum of 20 days of data per month. When the last entry is made on the last day of the month, the completed form shall be signed by the person compiling the information and forwarded, no later than the fifth day of the following month, to Facilities Administration, South Region, Bldg. N, Rm. 2, 11515 S. Colima Rd., Whittier, 90604.

Personnel shall refer to the copy of the Regulations and Protocols for Facilities with Underground Storage Tanks and Fueling Operations Manual located in their site's operations office for comprehensive fueling operations instructions.

• **3-09/070.00 - Vehicle Collision/Incident Reporting and Investigation - Department and Permittee Vehicles**

These procedures shall apply to all Department employees involved in a collision/incident while operating a Department vehicle or a permittee vehicle on Department business.

It is the intent of this policy that employee drivers/operators who are the cause of preventable traffic collisions because of inattention be subject to corrective action and/or training rather than traditional disciplinary sanctions. Refer to sections 3-09/070.45, Corrective Action and 3-01/090.10, Operation of Vehicles.

An incident is an occurrence which involves the following:

- Property damage and/or personal injuries to other persons without damage to a Department/permittee vehicle;
- Occurrences in which the parties to an incident allege that the collision was caused by some act of a Department/permittee's vehicle (i.e., the Department/permittee is a non-contact party) which did not become engaged in the collision;
- Policy and traffic violations within the scope of the intent of this policy deemed precursory to collisions and their aftermath.

All collisions/incidents involving Department/permittee vehicles on duty that result in any property damage or injury shall be reported on the County of Los Angeles Report of Vehicle Accident or Incident form SH-AD-665.

Station, unit, and bureau commanders shall be responsible for the investigation of on-duty traffic collisions involving their personnel when no injuries are sustained by the involved parties and the collision is not Code-3 or pursuit related. This shall include Department vehicles and all permittee vehicles being operated on official business.

NOTE: When any injuries (including complaint of pain) are reported, substantial property damage occurs, or when the collision is the result of a pursuit or Code-3 Operation, refer to Volume 5, Chapter 5.

NOTE: When minor damage is sustained only to the Department vehicle in an off-the-road incident and the incident does not involve property damage, other vehicles, or people, a CHP-555 and/or an outside agency's report is not required. However, an investigation shall be conducted by the supervisor of the concerned unit and form SH-AD-665 and an SH-R-257 shall be completed.

The purpose of this supervisor's investigation is to enhance and aid the Department's vehicle driver management program. The investigation and reports required herein are in addition to any other reports currently required for traffic collisions that occur in contract cities, CHP reports in unincorporated areas, and other agency's reports for collisions occurring in municipalities.

The following procedures shall only be for administrative review by the Department or the County.

Captains/Directors shall review all reported collisions and assess the incidents for responsibilities. After evaluation, they may take appropriate corrective action for preventable traffic collisions caused by inattention and carelessness rather than reckless behavior (refer to section 3-01/090.10, Operation of Vehicles). Disciplinary action within the scope of authority of a Captain/Director may be imposed for policy violations not directly related to the operation of vehicles/traffic collisions due to inattention. A Captain/Director may also recommend disciplinary action to Division Chiefs or Division Director or recommend further review for policy violations not directly related to the operation of vehicles/traffic collisions due to inattention. Division Chiefs or Division Director may request Internal Affairs Bureau and/or the Traffic Services Detail to complete an investigation in appropriate cases.

NOTE: When the Traffic Collision Response Team is handling the collision investigation, refer to Volume 5, Chapter 5.

• 3-09/070.05 - Driver's Responsibilities

Drivers of Department vehicles and drivers of permittee vehicles, while on Department business and involved in any collision/incident which results in any property damage or bodily injury, shall:

- Remain at the scene until a police report is made by the proper jurisdictional agency;
- Promptly notify a supervisor of the incident;
- Promptly prepare the required Department forms for reporting such collision or damages; and
- Follow procedures outlined in the Miscellaneous Administrative Procedures chapter.

Citizens should not be delayed any more than is necessary to exchange the required information.

The driver shall be responsible for completing one or more of the following forms:

- Report of Vehicle Accident (SH-AD-665) - complete both sides, including diagram, and sign. The address and telephone number of the employee's Unit of Assignment shall be used in completion of all forms pertaining to the collision/incident; and

NOTE: Employees shall not indicate their home address or home telephone number.

- Incident Report (SH-R-49) is also necessary under the following circumstances:
 - When there is another crime connected with the traffic collision, but not a part of the collision itself; and
 - When a traffic collision results in an arrest for a crime other than "Driving Under the Influence," the arrest information shall be contained in a separate report under the same URN. DUI arrests shall be reported on an SH-R-221, Complaint Report Driving Under the Influence.

If a Department/Permittee vehicle is involved in a collision within the Sheriff's jurisdiction, the investigating Unit shall complete the Traffic Collision Report (CHP-555). If the collision occurs in another jurisdiction or is being investigated by the California Highway Patrol, a copy of the collision report shall be requested and a notation that the report will be forthcoming shall be included in the narrative of form SH-AD-665.

A Deputy involved in an on-duty traffic collision, while driving a Department vehicle, must notify his private automobile insurance carrier in writing within 30 days of the incident. This notification, made under penalty of perjury, shall state whether or not he was operating the vehicle in the performance of his duty during the hours of his employment.

NOTE: Mileage permittees are covered by the County for third party liability when driving their personal vehicles on duty to conduct County business. Mileage permittees shall be provided a one-page instruction sheet entitled "Information and Instructions for Permittee Drivers" and a notice of insurance coverage card, to be kept in their vehicle. The notice of insurance coverage shall be shown to third parties as proof of insurance when a permittee is involved in a traffic collision while driving his personal vehicle on duty to conduct County business.

• 3-09/070.10 - Supervisor's Report and Responsibilities

In all cases, collisions in which members are involved shall be investigated by a supervisor. The supervisor shall respond to the scene of a collision involving a Department/permittee vehicle.

With respect to any collision involving a Department/permittee vehicle, the Field Sergeant or immediate supervisor shall do the following:

- Provide medical assistance to Department members and non-Department members involved in the collision, if not already provided;
- Locate and interview all potential witnesses, including Department personnel, medical staff, chaplains, and any other civilians who may have been present, and document their statements, including those who could have witnessed but claim not to have witnessed the incident. All interviews of non-Department witnesses shall be recorded on audio or videotape;
- Photograph and/or video record the scene;
- Determine if the collision was recorded and secure any such recordings of the incident whenever able to

do so;

- Ensure that Department members involved in and/or witnessed the collision prepare required reports in a timely manner;
- Review first reports;
- In cases where a recording has been secured, if the supervisor determines after their initial review of the video and the incident reports that there is evidence of apparent misconduct or it appears that a Department member failed to make proper notifications of the collision, the supervisor should consult with the watch commander or supervising lieutenant before proceeding further;
- After first reports and separate supplemental reports have been reviewed by the supervisor and where there is no such evidence of apparent misconduct or a failure to properly notify, afford Department members an opportunity to review the recording of the collision to facilitate recollection of additional details;
- Complete side one of the "Supervisor's Report of Damage to County Vehicle or Permittee's Vehicle" (SH-R-257);
- Interview the attending physician or other qualified medical personnel when a Department member or non-Department member is taken to a medical facility for examination as to the extent and nature of the injuries, or lack thereof, and whether the injuries are consistent with the collision;
- If the Department member or non-Department member is admitted to a medical facility or requires further medical treatment, it is the supervisor's responsibility to follow up with medical staff to ascertain if the injury was more serious than initially believed and make any necessary notifications in a timely manner;
- Photograph and/or record the Department members' injuries, if appropriate.

A comprehensive memo shall be prepared by the supervisor and submitted to the watch commander or operations lieutenant with the Supervisor's Report stating an opinion as to the cause of the collision. The use or non-use of factory-installed safety belts shall be addressed in both the SH-R-257 and the comprehensive memo.

NOTE: A Supervisor's Report (SH-R-257) shall not be included in the vehicle collision file when an incident occurs relating to a pursuit or traffic stop and the following conditions apply:

- There is no damage to Department or permittee vehicle;
- There is no injury to Department personnel;
- Any property damage or injury to other persons, including suspects, is solely the result of actions by the driver of the suspect vehicle.

The supervisor shall obtain the operator's previous driving record from the involved employee's PRMS Profile Report and shall enter the driving record on the SH-R-257 in the area titled "Operator's Previous Record of Preventable Incidents Last 36 Months." The supervisor shall determine the level and number of points accrued for all previous preventable traffic collisions occurring within the previous 36 months and note that information in the spaces provided. If no previous driving record exists, "None" should be indicated.

When station vehicles are involved and the collision occurs in the station's area, a supervisor from that station shall be responsible for the investigation and submit the Supervisor's Report and comprehensive memo to the watch commander or operations lieutenant.

When the collision occurs in another station's area, a supervisor assigned to that area will be responsible for

the investigation and forwarding the Supervisor's Report and comprehensive memo to the concerned unit commander for final disposition.

When a Department member not assigned to patrol is involved in an on-duty collision, a unit supervisor from the nearest station area shall cause an investigation of the collision to be made and forward the Supervisor's Report and comprehensive memo to the member's unit commander for final disposition.

Compliance with this section for on-duty collisions involving members assigned to the Los Angeles Civic Center, which occur in the Los Angeles Civic Center area, shall be the responsibility of a supervisor from the member's unit of assignment.

In the event that the collision/incident involves death, any injury to any of the involved parties, substantial property damage, any unusual collision which could result in high-loss litigation or at the discretion of the unit commander, the supervisor shall immediately notify the Traffic Services Detail, Risk Management Bureau. If notification is to be made during other-than-normal business hours, Sheriff's Headquarters Bureau shall be notified (for further information refer to Volume 5, Chapter 5).

When a supervisor does not respond to a minor collision involving a Department/permittee vehicle, then the unit's watch sergeant/operation sergeant shall prepare the Supervisor's Report and comprehensive memo based on the circumstances related in the vehicle collision reports.

The report or memorandum shall include the reason for the supervisor not responding to the collision.

The supervisor shall ensure that the vehicle operator completes his vehicle incident report before going off shift.

• 3-09/070.15 - Duties of Station/Facility Sergeants/Traffic Sergeants

Station Patrol Sergeants and/or Traffic Sergeants shall be responsible for reviewing the following forms for completeness, including signatures and diagrams:

- SH-R-49
- SH-R-257
- CHP-555
- SH-AD-665

NOTE: The Sergeant shall date and sign form SH-AD-665 and, if a CHP-555, Traffic Collision Report, is not submitted, ensure that form SH-AD-665 contains all necessary information.

Additionally, the person reviewing the incident shall obtain a copy of traffic collision reports from other agencies when they are reporting the collision.

Copies of forms, SH-R-49, CHP-555, and SH-AD-665 shall be forwarded to the Watch Commander or Operations Lieutenant and the Traffic Services Detail with the SH-R-257 and the supervisor's comprehensive memo.

• 3-09/070.20 - Duties of the Watch Commander/Operations Lieutenant

When there is an injury or complaint of injury, a death or any property damage, the watch commander/operations lieutenant shall be responsible for making an immediate notification to the Traffic Services Detail, Risk Management Bureau. This notification shall include, but not be limited to, the following:

- Location of the collision;
- Date and time of the collision;
- The name and employee number of the deputy responsible for the initial report;
- The name and employee number of the supervisor at the scene;
- Number, nature, and severity of all injuries suffered;
- Number of parties involved;
- A brief synopsis of the events.

All collisions/incidents above shall be documented on the appropriate collision report forms and the Supervisor's Report (SH-R-257) within five working days of the occurrence. It shall be the responsibility of the watch commander/operations lieutenant to review all reports, contents note the comprehensive memorandum prepared by the supervisor, indicating whether or not the watch commander/operations lieutenant agrees with the supervisor's opinion as to the cause of the collision, and then make his/her own recommendation as to whether the collision was preventable or non-preventable. If the watch commander/operations lieutenant recommends that the collision be classed as preventable, then he/she shall recommend the point level to be assigned to the collision. The watch commander/operations lieutenant shall ensure that all reports are forwarded to the unit commander on a timely basis.

Collisions determined to be preventable shall be entered into the PDE tracking system by the involved employee's unit of assignment within five working days of the incident.

If it appears that violations of the MPP have occurred that either reach the level of intentional or reckless behavior or involve violations other than those relating to the cause of the collision, the watch commander/operations lieutenant shall immediately notify the unit commander of the circumstances to determine if an administrative investigation should be initiated. An administrative investigation may be conducted in addition to the traffic collision investigation.

If it appears that the collision occurred because of a mechanical defect in a Department vehicle, the watch commander/operations lieutenant shall impound the vehicle. Fleet Management Unit of Communication and Fleet Management Bureau will be requested to evaluate the vehicle and the apparent defective parts and form an opinion as to whether or not the mechanical defect could have been the cause of the collision.

NOTE: If the traffic collision/incident involves a mileage permittee, the watch commander/operations lieutenant shall verify that the employee is, in fact, a permittee and was driving his/her personal vehicle on duty to conduct County business.

• 3-09/070.25 - Classifications of Damage to Department/Permittee Vehicles

For purposes of this section, a "collision" is defined as the unintentional striking or contact of any other object, e.g., another vehicle, stationary object, roadway dip, etc., with a Department/Permittee vehicle which results in damage, injury, or death.

Defensive driving is defined as those techniques and concepts which emphasize awareness, control and the use of proper evasive action to avoid or prevent a collision/incident. Defensive driving practices shall always be employed, and an operator shall avail himself of every reasonable means to avoid a collision/incident.

NOTE: When the collision/incident is handled by the Traffic Collision Response Team, no assessment shall be done until the collision/incident is reviewed by the Commander's Executive Risk Review Committee.

An assessment shall be made by the watch commander/operations lieutenant after reviewing all reports, and a preliminary finding shall be determined for one of the following:

- Preventable - a collision/incident or work damage that occurred while the Department/permittee vehicle was being used while engaged in County business and such collision or work damage could have been prevented by the employee. The decision as to preventability of a collision or work damage shall be based on whether or not the employee was driving defensively or using the vehicle in a reasonable manner and could have avoided the collision or work damage regardless of any legal rights (such as right-of-way at intersections) to which he/she may have been entitled pursuant to the Vehicle Code. The fact that the other driver may have committed a Vehicle Code violation is not of itself cause to justify a classification of non-preventable;

If a collision/incident or work damage resulted from a violation of the California Vehicle Code or Department policy on the part of the employee, the collision or work damage shall be classified as preventable;

NOTE: Refer to sections 3-09/070.45, Corrective Action and 3-01/090.10, Operation of Vehicles for policy and procedures related to initiating corrective action for preventable collisions.

- Non-preventable - a collision/incident or work damage that occurred while the Department/permittee vehicle was being driven defensively or used in a reasonable, prudent manner and the employee had no opportunity to avoid the collision or work damage;

The classification of non-preventable shall not be used when the employee commits any violation of defensive driving practices, Vehicle Code sections, or Departmental policies;

- Work Damage - when damage occurred to the vehicle through causes other than a collision/ incident, vandalism is unknown or when damage occurred because of the requirements of the employee's work assignment;

The classification of work damage shall not be used for any incident involving a collision or incident with another vehicle, object, roadway dip, etc.

- Vandalism - when damage occurred to the vehicle through an intentional act of any person, whether the vehicle is attended or unattended, e.g., prisoners kicking out windows, missiles hurled at vehicle, etc.

The classification of vandalism shall not be used for any incident involving a collision/incident;

- Unknown - when damage occurred to the vehicle wherein responsibility and/or cause cannot be determined and the event cannot be classified in one of the above categories. Every effort shall be made to determine the cause of a collision before using this classification.
-

• 3-09/070.30 - Duties and Responsibilities of the Captain/Director

In collisions/incidents involving a Department/permittee vehicle, the distribution of County of Los Angeles Report of Vehicle Accident or Incident form (SH-AD-665) shall be made within 48 hours (two working days). The proper distribution of the form is as follows:

P.O. Box 116

- One copy:
 - Communications and Fleet Management Bureau
Fleet Operations Section
1277 North Eastern Avenue
Los Angeles, CA 90063

The investigating unit shall compile a vehicle collision file which shall include the following:

- County of Los Angeles Report of Vehicle Accident or Incident (SH-AD-665);
- Incident Report, (SH-R-49);
- Supervisor's Report of Incident or Damage to County Property or Permittee's Vehicle (SH-R-257);
- Supervisor 's comprehensive memorandum (SH-AD-32A); and
- Police agency's traffic collision report or the CHP-555.

NOTE: Certain incidents that are the result of a pursuit or traffic stop may be exempt from the Supervisor's Report of Incident or Damage to County Property or Permittee's Vehicle, (SH-R-257) (see section 3-09/070.10).

It is the intent of this policy that employee drivers/operators, who are the cause of preventable traffic collisions because of inattention and carelessness rather than reckless or intentional behavior, be subject to corrective action and/or training rather than traditional disciplinary sanctions. Refer to section 3-09/070.45, Corrective Action, and section 3-01/090.10, Operation of Vehicles.

Captains and directors shall review the complete vehicle collision file and determine the applicable classification and the appropriate action to be taken as described in sections 3-09/070.45, Corrective Action, and 3-01/090.10, Operation of Vehicles. Should the captain or director determine that violations of the policy occurred that reach the level of intentional or reckless behavior or involve violations other than those relating to the cause of the collision, the driver shall be eligible for disciplinary action, and the captain or director should process the incident as with any other administrative investigation.

Should it be determined that any proposed discipline exceeds the captain's or director's authority, a recommendation for the appropriate disciplinary action shall be reported on a memorandum and directed to the concerned division chief or division director, setting forth the facts developed in the investigation as well as any other facts relevant to the recommended discipline.

Recommendations for disciplinary action shall not appear on the Supervisor's Report of Incident or Damage to County Property or Permittee's Vehicle (SH-R-257). If the captain or director is recommending disciplinary action independent of the traffic collision, that recommendation shall be sent, along with the complete vehicle file, to the area commander for review.

The captain or director shall be responsible for the following upon termination of the process:

- Upon determination of the final disposition (preventable, non-preventable, work damage, vandalism, or unknown), a copy of the completed Supervisor's Report of Incident or Damage to County Property or Permittee's Vehicle (SH-R-257) shall be forwarded to the Fleet Operations Section of the Communications and Fleet Management Bureau, and the Discovery Unit, Risk Management Bureau, so the appropriate point assignment can be made and the corrective action to be taken can be noted;
- Captains and directors are responsible for conducting appropriate follow-up to ensure when an employee has reached an action-level calling for corrective action (training, job reassignment, or transfer), the employee is assigned the corrective action, and the employee actually completed the required assignment; and
- Notification to the member involved in the collision of the findings and the action to be taken.

Certain collisions/incidents shall be reviewed by the commander's Executive Risk Review Committee (see Volume 5, Chapter 5).

• **3-09/070.35 - Divisional Duties and Responsibilities**

A concerned Division Executive (Chief, Division Director, or designated Commander) shall review all traffic collision/incident reports and sign the SH-AD 257 in the appropriate location indicating concurrence, if the Executive agrees with the Unit Commander's assessment with the recommended corrective action and point assignment.

If the incident should warrant disciplinary action, the Division Chief or Division Director is responsible for

reviewing the Unit Commander's recommendation and concurring with, modifying, or returning the file to the Unit Commander or Director for further investigation. If the disciplinary action recommended exceeds the Captain's or Director's authority, the Division Chief or Division Director shall be responsible for assessing the discipline to be imposed.

On final determination by the Division Chief or Division Director, discipline, if any, shall be administered as outlined in the Personnel chapter.

Division Headquarters shall be responsible for returning a finalized copy of the SH-R-257 to the originating Captain/Director.

• **3-09/070.40 - Mechanical Damage/Defect (Non-Collision) to Department Vehicles**

Mechanical damage or defect is defined as any damage/defect to any part of the vehicle that renders it unusable, exclusive of defective routine maintenance items. The term "unusable" would apply to any defect which could affect the safe operation of the vehicle or cause further damage to it due to continued operation, e.g., overheated engine, defective transmission, etc.

When an employee determines that a Department vehicle has mechanical damage/defects, whether it occurs during operation or is discovered prior to operation, he shall, in addition to completing a Driver's Vehicle Condition Report (DS20-MD91), submit an SH-AD-32A detailing how the damage/defect occurred or was discovered.

Defective routine maintenance items require submission of Form DS20-MD91 only. Examples of routine maintenance items are fan belts, hoses, batteries, etc., which have deteriorated due to normal wear.

A supervisor shall review the memorandum and, if appropriate, inspect the vehicle. If the vehicle is assigned to patrol, he should consult with the mechanic assigned to the Unit/Station to fully assess the damage or defect. Vehicles assigned to other Units can be taken to either a Station mechanic or to the Internal Services Department's automotive shops.

The supervisor shall then complete a Supervisor's Report of Damage to County Vehicle or Permittee's Vehicle (SH-R-257). The terminology "mechanical damage" shall be used to describe the damage/defect and the report shall indicate a conclusion as to whether it was the result of "negligent" or "non-negligent" handling, operation or procedure. The completed report shall be submitted to the Watch Commander/Operations Lieutenant.

The Watch Commander/Operations Lieutenant, following review of the supervisor's report, shall indicate in the conclusion portion of the report that the damage was either "negligent mechanical damage" or "non-negligent mechanical damage." This finding must be hand-written or typed under the conclusion category of the Watch Commander's/Operations Lieutenant's review, as there is no corresponding check-off category listed.

When the finding is "negligent mechanical damage," the Watch Commander/Operations Lieutenant shall cause an immediate investigation to be conducted to determine the extent to which abuse or negligence was a factor and the identity of the person responsible.

• 3-09/070.45 - Corrective Action

Department member is responsible for the care and condition of any vehicle assigned to him/her (see Policy and Ethics chapter). Willful negligence or abuse of County property shall be grounds for disciplinary action and where responsibility can be determined, captains/directors shall proceed as with any other disciplinary matter.

If the traffic collision or vehicle incident was non-preventable and no corrective action or disciplinary action was taken, such information shall appear in the final disposition section of the SH-R-257.

The following provisions pertain to those actions which constitute violations described in section 3-01/090.10 Operation of Vehicles. Conduct relating to a collision or vehicle incident, but not described in section 3-01/090.10, should be addressed by other relevant policy or applicable laws.

Purpose

The intent of this section is to provide a means to differentiate between inattentive preventable collisions or vehicle incidents and those resulting from recklessness. Additionally, this plan will tailor the Department's response to the specific conduct of the employee.

If the collision or vehicle incident was "preventable," it will be classified into the appropriate category as described below:

Level One

- Collision:
 - While maneuvering speed of 10 miles per hour or less prior to any braking;
 - With no disregard for safety;
 - With no visible injuries or complaint of pain;
- Incident not involving a collision or work damage:
 - Use of communication devices in violation of policy (distracted driving);
 - Violation of seatbelt use policy;
 - General Vehicle Code violations.

NOTE: Collisions involving distracted driving, multiple general Vehicle Code violations, and violations pertaining to seatbelt use are subject to discipline per the Guidelines for Discipline Manual.

Level Two

- Collision:
 - While operating speed above 10 miles per hour prior to any braking and in essential compliance with the Vehicle Code;
 - With no disregard for safety;
 - With no life-threatening injury;

- County vehicle is repairable.

Level Three

- All preventable collisions or vehicle incidents not classifiable as Level One or Level Two.

Use of Levels as a Basis for Driving Record

Point System

A preventable traffic collision or vehicle incident shall be categorized by a Level, and a prescribed number of “points” shall be assigned to the driver’s history. The points accumulated for each individual preventable traffic collision or vehicle incident shall be maintained for a revolving 36-month period and accrued as of the date the traffic collision(s) occurred. When 36 months have elapsed from the date of the specific traffic collision or vehicle incident, the points for that specific collision or vehicle incident will be deleted from the individual’s driver’s history.

Level One Collision or Incident 1 point

Level Two Collision 2 points

Level Three Collision 3 points or 4 points (notable disregard for safety and life-threatening injury)

When three points are accumulated within a 24-month period, the driver shall attend the **mandatory** Alternative to Discipline Driving Class.

NOTE: This training will not expunge existing points.

When an employee is involved in three preventable collisions or vehicle incidents or accumulates five points in any 36-month period, he or she will be assigned to a non-driving position and prohibited from driving a county-owned vehicle (except in exigent circumstances) for six months. This assignment shall be based on the needs of the unit. The employee shall also attend the **mandatory** Alternative to Discipline Driving Class.

NOTE: If a change in the driver’s unit of assignment is needed to comply with the provisions of this section, the unit of assignment will be determined by the needs within the concerned Division. If the employee has a Patrol Retention Bonus, it shall not be affected. The employee shall be allowed to return to the former unit of assignment after this period.

The accumulation of seven or more points, or four preventable collisions or vehicle incidents within a 36-month period, shall result in a transfer to a different unit and an assignment to a non-driving position and prohibition from driving a county-owned vehicle (except in exigent circumstances) for one year. The location of this assignment shall be based on the needs of the Department. The employee shall be allowed to return to the former assignment after this period. In addition, the employee shall also attend the **mandatory** Alternative to Discipline Driving Class.

When an employee is assigned to non-driving duties due to preventable collisions, the employee’s unit commander shall notify the Risk Management Bureau captain via memorandum which shall include the name

of the employee, employee number, and effective dates of the non-driving assignment. The employee's unit of assignment shall also be responsible for inputting the information into the Department's Preliminary Data Entry (PDE) database component of the Personnel Performance Index (PPI). Risk Management Bureau personnel shall be responsible for updating the employee's Personnel Performance Index "Special Conditions" section with the effective dates of the non-driving assignment.

NOTE: An employee with five consecutive years at the same assignment with no previous preventable collisions, who later rises to this level of points or number of collisions or vehicle incidents at that unit of assignment, shall not be subject to transfer but shall be placed in a non-driving position for one year.

Elimination of One Point - Traffic Collision Point Reduction Class

Completion of the designated voluntary, off-duty, one-day approved "Traffic Collision Point Reduction Class" may be used to exempt one point. This class shall not be used for this purpose more than once in any 36-consecutive month period. Employee time and costs for this class are the employee's responsibility.

NOTE: "Traffic Collision Point Reduction Class" credit(s) may not be retroactively applied to prevent the imposition of an administrative action once that action level has been reached. Points are accrued as of the date the collision or vehicle incident occurred and shall remain on the employee's record for a period of 36-consecutive months unless removed by successful completion of the "Traffic Collision Point Reduction Class."

Elimination of One Point – EMERGENCY VEHICLE OPERATIONS CENTER TRAINING

Completion of the designated Emergency Vehicle Operation Center's **voluntary** "Alternative Driving" course or the "S.T.A.R. Program" may be used to exempt one Level 1 point. These classes shall not be used for this purpose more than once in any three-year period.

NOTE: The "Alternative Driving" course or the "S.T.A.R. Program" credit may not be retroactively applied to prevent the imposition of an administrative action once that action-level has been reached. Points are accrued as of the date the collision or vehicle incident occurred and shall remain on the employee's record for a period of 36-consecutive months unless removed by successful completion of the "Alternative Driving" course or the "S.T.A.R. Program."

Department Safe Driver Awards

It shall be the responsibility of every captain/director to develop a strategy to acknowledge those employees who maintain a driving record free from preventable traffic collisions or who consistently demonstrate the principles of defensive driving.

Report Processing

Each unit shall send a copy of the complete traffic investigation file, including records of the employee's current point/time period status, via their division headquarters to Risk Management Bureau - Discovery Unit.

Unit Commander Responsibilities

Captains and directors are responsible for conducting appropriate follow-up to ensure that, when an employee has reached an action-level calling for corrective action, (training, job reassignment, or transfer), the designated corrective action is taken.

Refer to section 3-09/070.30 for additional information.

- **3-09/070.50 - Others Involved**

Remedial measures may be recommended for employees other than the driver of the vehicle when it is found that an accident is the result of some act or the omission of some act on the part of such County employee. Where responsibility is found to be that of an employee, not the driver, recommendations for retraining or recommendation and/or imposition of discipline may be as determined by the Unit Commander or as a result of the review process described in these sections.

- **3-09/070.55 - Emergency Vehicle Collision Notation on Driver's Records**

Occasionally, the Department of Motor Vehicles will enter on a Deputy's driving record the fact that the Deputy was involved in a traffic collision while operating an emergency vehicle on duty. The Division of Driver's Licenses, DMV, Sacramento, will correctly code this entry if the Unit Commander will provide them with the Deputy's name, driver's license number, date of the collision and the collision report number.

This code will indicate to the employee's insurance carrier that the collision occurred while the Deputy was driving an emergency vehicle on duty.

When an employee becomes aware that this code has been erroneously noted on his driving record, the employee shall advise his Unit Commander. The Unit Commander shall then provide DMV with the correct information.

Units should address correspondence to the following address and state that the Deputy was on duty in an authorized emergency vehicle:

Department of Motor Vehicles
Financial Responsibility
P.O. Box 942884
M/S J237
Sacramento, California 94284-0884
(916) 657-6677

- **3-09/080.00 - Announcements**

Messages dealing with subject matter contained in any existing manual or order should not be released without notifying the Risk Management Bureau, Field Operations Support Services Unit, which has responsibility for coordinating and publishing policy and procedure instructions for the Department.

Messages originated and approved by the following shall be sent via JDIC:

- Sheriff
- Undersheriff
- Assistant Sheriffs
- Division Chiefs
- Area Commanders
- Unit Commanders
- Directors

All announcements shall have the name of the originating unit directly below the word "Announcement" in order that readers may know the identity of the issuing unit. The Sheriff's name and the initials of the person sending the announcement shall appear at the end of all Sheriff's Department announcements. All announcements will be kept electronically for a period of two years.

• **3-09/080.05 - Unit Commander's Responsibility**

Unit Commanders shall ensure that concerned personnel, including timekeepers, manual coordinators and training officers review a copy of pertinent announcements.

• **3-09/090.00 - Release of Official Information**

Except under specific circumstances, Incident Reports, arrest reports and investigator files, defined as public records under Section 6250 of the Government Code, are exempt from disclosure. Those specific exceptions are defined in the 1982 amendment to Section 6254(f) of the Government Code.

The purpose of the amendment is to clarify the rights of the public to access non-sensitive law enforcement records. The revised section addresses this issue by classifying those persons requesting record information as victims and/or the general public (including the media).

Although legislation governing the release of crime and arrest information does not differentiate between adult and juvenile subjects, refer to the Juvenile chapter of this manual for Department policy on the release of information concerning juveniles.

Public records are defined under Section 6250 of the Government Code as any recordation containing information relating to the conduct of the public's business prepared, owned, used or retained by any local agency, regardless of physical form or characteristics. For the purpose of this manual section, the term "information" shall include any material that is maintained in the normal course of business in written, photographic or electronically recorded form.

This section does not apply to the dissemination of criminal record information. For dissemination of such information, refer to section 3-09/110.00 of this chapter.

• **3-09/090.05 - Release of Information to Victims of Crimes**

The following information shall be released, upon request, to a victim or the authorized agent of a victim, including insurance carriers, when a loss or injury is the result of an incident caused by arson, burglary, fire, explosion, larceny, robbery, vandalism, vehicle theft or a crime of violence:

- Name and address of persons involved in the incident, except confidential informants;
- Descriptions of any property involved;
- Date, time and location of the incident;
- Diagrams;
- Statements of parties involved in the incident; and
- Statements of all witnesses, except confidential informants.

Requested information may be provided verbally or the requestor may purchase a copy of the report.

See section 3-09/090.30 for exceptions.

• **3-09/090.10 - Release of Information to the General Public and the Media**

Upon request, the following information shall be released to the general public, including the media:

- Arrestee information - name, current charge, occupation, and physical description;
- Circumstances of arrest - time and date of arrest, time and date of booking, location of arrest, and factual circumstances surrounding the arrest;
- Booking information - amount of bail, time and manner of release, location where individual is held, and all charges (including, but not limited to, warrants, parole, and probation holds);
- Calls for service or requests for assistance - time, substance, location, and nature of response (provided that such information regarding crimes, alleged or committed, or any other incident is documented);
- Victim's identification - name and age. However, the identification of victims of 220, 261, 261.5, 262, 264, 273a, 273d, 286, 287 (formerly Penal Code section 288a), 289, 422.6, 422.7, 422.75, or 646.9 PC, shall not be disclosed;
- Victim and/or witness identification - name, age, telephone number, and street address shall not be disclosed to any arrested person or to any person who may be a defendant in the alleged offense;
- Factual circumstances surrounding a crime or incident such as any injuries, weapons, or property involved; and
- Pursuant to a 1999 U.S. Supreme Court decision, no address of any crime victim shall be disclosed by a law enforcement agency as public information and an arrestee's home address shall not be released. Persons who claim a privilege to the information under a qualified exemption to the Public Information Act shall be referred to the Records and Identification Bureau - Correspondence Unit.

Photographs of persons arrested, commonly known as "mug shots," may be released to a member of the general public, including the media, at the discretion of the Sheriff or his designee. Once a copy is furnished to one member of the general public, a copy must be made available to all who make a request. Requests for photographs of persons arrested should be referred to the Sheriff's Information Bureau, Media Liaison.

INFORMATION REQUESTS

Most information requests will come from the public calling to inquire about a friend or relative who has been arrested. In these instances, releasing the charges, bail, and court date verbally is permissible.

Questions arise when entities (such as a defense attorney's firm) request that we provide them with daily lists of arrestees. We will provide these lists to them; however, we are not required to prepare the lists in any particular format for the convenience of the requestor.

The requestor must separately request the information from each station in writing. They will need to submit a new request for each day's records, and must pay the actual costs associated with the duplication of records prior to receiving the information. The station jailer will review the gate book and provide the requested information on a continuation sheet, ensuring that the exceptions above do not apply. If there is any doubt, the jailer should check with the detective assigned to handle the case in question and confirm whether or not the information may be released. If the detective is not available, the information should not be disclosed.

The Inmate Information Center webpage can be accessed by the public to search for individual inmate information.

INFORMATION REQUESTS - ON-GOING

For entities requesting on-going, long-term access to booking logs, requests need to be forwarded to the Risk Management Bureau, Discovery Unit - Public Records Act staff. Requestors will be required to submit a formal request, a Declaration - Public Records Act form, furnish identification, and acknowledge charges that will be incurred.

The reasonableness of any request for information shall be evaluated by the person receiving the request. Reasonable requests for information routinely developed, maintained, and available during the normal course of Department operations shall be honored. Requests for information that require an inordinate amount of time or expense devoted to research, compilation, or computer programming should be referred to Records and Identification Bureau. Any questions regarding the reasonableness of a request for information shall be directed to the Records and Identification Bureau Records Manager.

NOTE: Pursuant to Welfare and Institutions Code (WIC) section 5328, information shall not be disclosed to the general public, including the news media, on any action when a person is taken into custody for a 72-hour (5150 WIC) detention and when no crime was involved.

In circumstances where both a crime and 5150 WIC are alleged, information about 5150 WIC activity shall be confidential. Information pertaining to criminal activity may be subject to disclosure after information regarding 5150 WIC activity is deleted. See section 3-09/090.30 for exceptions to the release of information.

• 3-09/090.15 - Release of Information to Other Law Enforcement or Government Agencies

Authorized government agents and Department personnel requesting information from official records shall

submit a written request to the Records and Identification Bureau (RIB) or Station desk officer. Department personnel shall submit their request using a form provided by RIB and authorized government agents will submit a signed request on their agency's letterhead.

• **3-09/090.20 - Release of Information Under Special Circumstances**

Diplomatic or consular officers' requests for information which would not otherwise be released shall be referred to the International Liaison Section, Sheriff's Headquarters Bureau, who shall be responsible for the degree of discretion exercised in each instance.

Authorized representatives of the State Board of Education and the County Superintendent of Schools, as well as the individual board members or superintendent, may inspect the record of any school teacher, instructor or school employee involved in any sex offense enumerated in sections 290 and 291 of the Penal Code and any narcotic offenses enumerated in section 11591 of the Health and Safety Code.

Psychiatrists may inspect the record of a suspect provided they present a letter to the Department indicating that they have been appointed by a competent court to make an examination of the suspect.

An individual, upon request, and properly identified by fingerprints, may see his own arrest history at Records and Identification Bureau.

See section 3-09/090.30 for exceptions.

• **3-09/090.25 - Release of Traffic Collision Reports**

An authorized purchaser shall be given a complete copy of the traffic collision report and all accompanying supplemental reports covering the traffic collision, as outlined in the Traffic chapter of this manual.

See section 3-09/090.30 for exceptions.

• **3-09/090.30 - Exceptions to the Release of Information**

Pursuant to Government Code section 6254, information shall not be released in the following circumstances:

- When disclosure of such information would endanger the successful completion of an investigation or a related investigation;
- When disclosure of such information would endanger the safety of a person involved in an investigation; and
- When disclosure of that portion of an investigation reflects the analysis of conclusions of the investigating officer.

Section 1798.24 of the California Civil Code mandates that information contained in Department of Motor Vehicle files shall not be released except to properly identified members of the following:

- Enforcement officers of federal, state, County and municipal policing agencies;

• **3-09/090.35 - Authority to Release Information**

The Unit Commander or Watch Commander of the investigative Unit shall be responsible for the degree of discretion exercised when the information requested concerns a case that is still active or is related to another active investigation. The person requesting the information shall be referred to the detective or Unit responsible for the investigation. When an initial request is made for information and the employee is uncertain as to whether the information may be disclosed, the request shall be directed to the Watch Sergeant or, if appropriate, to the Unit responsible for the investigation.

In the event that a question still exists regarding the disclosure of any specific information, or when a case is closed and records are no longer available, a referral shall be made to the Records Manager of Records and Identification Bureau, who shall have final authority to approve or disapprove a request for information.

• **3-09/090.40 - Procedure for Release of Information**

Requests made in person by the general public or the media (see Note) for specific information shall be in writing by completing the Release of Information Request (SH-R-394). Records and Identification Bureau uses form (RIB/Info. Sys. 5/94).

Units receiving correspondence (mail or JDIC message) requesting information concerning a criminal case shall be guided by the preceding subsections and, when applicable, by the following procedures:

- Requests for information concerning active cases shall be forwarded to the Unit or detective responsible for the case; and
- Requests for information concerning closed or active cases shall be forwarded to Records and Identification Bureau when such cases are not available from the concerned Station or Unit.

When more than one crime is involved and authorization is received from the investigating detective or Unit conducting the investigation for the sale of a requested report, all references to any other crime classification shall be deleted from the sale copy.

The release of information may be in verbal form. In the event excessive time would be necessary to verbalize the information, then the report itself may be made available for purchase.

NOTE: This section does not apply to press releases. For press release procedures, refer to the Policy and Ethics chapter, Miscellaneous Line Procedures and the Case Assignment and Reporting Volume of this manual. Department press board information shall continue to be available.

• **3-09/090.45 - Collection of Fees for Sale of Reports or Documents**

Fees shall be collected for each report copy sold, according to current charges determined and available through Fiscal Administration and a Department of Sheriff receipt (76M474C) issued. This fee is compensation for the time involved in searching for reports and in redacting restricted information. This fee shall apply even if the purchaser brings in his own paper and copying machine.

The miscellaneous fees money collected shall be handled in accordance with the safeguard policy of the Department, as outlined in the Fiscal chapter.

Law enforcement officers, as listed under section 3-09/090.15, may obtain full and complete copies of this Department's official reports at no charge when such reports are required for official business, or as deemed appropriate by the RIB Records Manager.

• **3-09/100.00 - Criminal History Information on All Personnel with Access to Criminal History Systems**

California Code of Regulations section 707(b) requires criminal history information be obtained on all individuals who have access to automated criminal history systems. This includes, but is not limited to, maintenance and vendor personnel of all automated systems, e.g., Internal Services Department employees.

The Director of Personnel Administration shall be responsible for approving all personnel for hire as it relates to criminal history information. He shall also ensure the maintenance of a file reflecting the results of this process.

• **3-09/110.00 - Dissemination of Criminal Record Information**

Pursuant to Title 11, Chapter 1, of the California Code of Regulations, the procedure for disseminating criminal record information is outlined in the subsections which follow.

• **3-09/110.05 - Criminal Record Information**

Criminal record information is defined as "records and data compiled by criminal justice agencies for purposes of identifying criminal offenders and of maintaining as to each such offender a summary of arrests, pretrial proceedings, the nature and disposition of criminal charges, sentencing, incarceration, rehabilitation and release. Such information shall be restricted to that which is recorded as the result of an arrest, detention or other initiation of criminal proceedings or of any consequent proceedings related thereto."

There are three criminal record histories which shall be regulated by the following subsections. These records include:

- The yellow RAP sheet produced by the Department of Justice (DOJ) from manual records;
- The Automated Criminal History Transcript printed on IBM paper by the DOJ in Sacramento and mailed to criminal justice agencies; and
- The Automated Criminal History Summary which is obtained via JDIC from the DOJ.

Local criminal history contained in the CCHRS (Consolidated Criminal History Reporting System) shall be treated with the same security as the above.

Units with specific parolee questions should telephone the CDCR Help Desk at (916) 324-7789.

All inquiries regarding the control and dissemination of criminal records information shall be referred to the Records and Identification Bureau Commander.

- Only active law enforcement officers and authorized civilian criminal justice personnel, acting within the scope of their duties, are allowed to disseminate or receive criminal records information;
 - Accessing a computer system for information in order to obtain money, property or services with false or fraudulent intent, representations or promises, is a felony; and
 - Knowingly releasing criminal records information to unauthorized personnel, such as friends, acquaintances or retired law enforcement officers, is a misdemeanor.
-

• **3-09/110.15 - Release of Criminal Records Information (RAP Sheets)**

Persons Authorized to Release Information

The Unit Commander shall designate which employees at his Unit (sworn or civilian) are authorized to release criminal record information. He shall:

- Compile and maintain an up-to-date list of authorized employees; and
- Supervise the dissemination of information by maintaining complete audit records.

Persons Authorized to Receive Information

Criminal record information may be released, on a need-to-know basis, only to persons or agencies authorized by court order, statute or decisional law to receive such information. The California Department of Justice (DOJ) listing of authorized agencies shall be referred to for releasing criminal record information. Persons may obtain special authorization from the courts to receive criminal record information. In such instances, the burden of establishing eligibility lies with the person requesting the information.

Information shall only be given to authorized persons or agencies over the telephone under the following circumstances:

- The identity of the caller can be verified; and
- The information is not readily obtainable via other means or an emergent situation exists.

Pursuant to Labor Code section 432.7, personnel of this Department shall not notify a governmental agency (other than a law enforcement agency or a school) of the arrest or detention of its employee which has not resulted in a conviction (see Chapter 1 of the Case Assignment and Reporting Volume).

With respect to the arrest of a law enforcement or school employee, the procedures and guidelines established in the Case Assignment and Reporting Volume regarding arrest of such employee shall be followed.

• **3-09/110.17 - Release of Criminal History Information to Contract Cities**

Authorized contract cities may obtain "local" criminal history information from the Records and Identification Bureau (RIB).

A contract city may request a criminal history record check to complete a pre-employment background profile on a prospective employee. The city's formal letter of request should specify the record check is part of the pre-employment process. A contract city shall submit a written request for criminal history information to the RIB, Applicant Processing Unit.

The following procedures shall be applied when a contract city requests criminal history information:

1. Departmental personnel shall determine whether or not the individual agency requesting the information is recognized as an "authorized agency" by the Department of Justice (DOJ). This may be accomplished by contacting RIB.
2. If the letter of request is submitted to the station and the city is verified as being an "authorized agency," the letter is to be accepted and forwarded to RIB, Applicant Processing Unit. RIB will maintain a list of individuals authorized by their contract city to receive criminal history information. Each contract city will

be responsible for providing our Department with a list of authorized personnel. In the absence of an authorized representative, criminal history information will be forwarded to the city's personnel director.

3. Once RIB receives a request for criminal history information and verifies the requesting city as an "authorized agency," a "local" records check will be initiated. A "local" records check consists of a search for both arrest records and arrest warrants for a period of no more than 10 years only in information systems maintained by the Sheriff's Department.

A "local" records check consists of a search for both arrest records and arrest warrants for a period of no more than 10 years only in information systems maintained by the Sheriff's Department.

Only Conviction Information will be released

According to section 432.7 of the Labor Code, law enforcement agencies are prohibited from disclosing, with intent to affect a person's employment, any information pertaining to an arrest which did not result in a conviction. Exceptions may be made under the following circumstances:

- Applicants seeking employment as peace officers or positions within a law enforcement agency with access to criminal offender information;
- Applicants seeking employment with a health facility as defined in section 1250 of the Health and Safety Code, and who would have regular contact with patients are not protected under the provisions of section 432.7 of the Labor Code. Arrest information on any crime referenced under section 290(a) of the Penal Code, regardless of whether it resulted in conviction, may be disclosed; and/or
- Applicants seeking positions which afford access to drugs are not protected under the provisions of section 432.7 of the Labor Code. Any arrest for offenses referenced in section 11590 of the Health and Safety Code could be disclosed regardless of whether the arrest resulted in conviction.

Requesting State Department of Justice (DOJ) Record Checks

The Sheriff's Department is capable of providing only local criminal history record information, not State DOJ criminal history summaries. If the contract city wishes a DOJ record check, it may apply directly to DOJ.

Fingerprint-based Record Checks

If the contract city requires their employee(s) to do LiveScan fingerprinting for a records check, the employee(s) may come directly to RIB, Public Services Unit (PSU). The employee is to bring their signed LiveScan form that describes what needs to be done and the cost associated with that type of fingerprint procedure. PSU personnel will do the LiveScan fingerprinting and automatically submit the fingerprints electronically to DOJ.

Any person wanting a manual fingerprint card rolled shall be provided a listing of authorized fingerprinting locations. The cost of rolling manual fingerprint cards is determined by each location.

Billing Procedure

Contract cities requesting a "local" records check will be billed by the Fiscal Services Bureau, which determines the cost for processing requests for criminal history information. RIB will submit a memorandum

(SH-AD 32A) to the Fiscal Services Bureau, indicating a records check was completed and returned pursuant to the city's request. This will initiate the billing process. A copy of the city's request for the records check shall be attached to the memorandum (SH-AD 32A).

Costs

The current cost for processing criminal history information inquiries is \$35.00 for a LASD records search.

• **3-09/110.20 - Audit Trails**

Each Unit shall keep a record of each release of California Department of Justice RAP sheets or information derived therefrom. The record shall be retained and available for inspection for a period of not less than three years from the date of release.

This record shall contain the date of release, name of requesting agency (and name of requesting person, if possible), name of receiving agency (and name of receiving person, if possible), information given and how the information was transmitted.

The requirement for recording each release need not apply to routine in-house procedures if the location of any specific DOJ RAP sheet is easily determinable through other records such as case assignment records, arrest registers or other formal standard procedures. If a DOJ RAP sheet is included as part of a document package (such as a Incident, probation pre-sentence report, etc.) and a record of the disposition or location of those documents is maintained, that record will suffice as a record of the release of the DOJ RAP sheet.

When an employee of this Department or outside agency utilizes a Department JDIC terminal or direct access terminal to request criminal record information from DOJ, National Crime Information Center (NCIC) or another state via the National Law Enforcement Telecommunications System (NLETS), the request shall contain the employee's last name and Unit of assignment. The Automated Justice Information System (AJIS) arresting agency code shall be used to indicate the employee's Unit of assignment. To support the audit function, the request shall include one of the following:

- A truncated Uniform Report Number (URN) with the request results from an investigation associated with a specific Incident Report. The truncated URN shall consist of the reporting year, sequential number and the first two digits of the Unit designation number or location element (Station identifier);
- The purpose of the investigation (i.e., burglary, 211 PC, etc.) when the request is not associated with a specific Incident Report. The purpose shall be included when a manual RAP sheet is requested from DOJ;
- The word "booked" or "bkg" when the request results from an occasion wherein a subject is booked and an URN is not issued;
- The word "Pawn" when a request is associated with information obtained from a pawn slip; and
- The letters "SH-R-368" (Criminal Record Release Transmittal) and indicate the arresting agency code and the last name of the person receiving or requesting the information.

When an employee of this Department releases RAP sheet information, a Criminal Record Release Transmittal (SH-R-368) shall be completed. If the information is given by phone, then the releasee must complete the card. The form will have a printed notification advising that it is unlawful to disseminate RAP

sheet information except to authorized agencies or persons.

When a meeting between representatives of the Department and representatives from other agencies is held and RAP sheet information is disseminated, a list shall be compiled naming the person and agency receiving information. This list shall be attached to the SH-R-368 and filed with it.

- **3-09/110.25 - Juvenile Records**

These procedures do not alter existing statutory or decisional law or court policy regarding the release of juvenile offender records (see the Juveniles chapter).

- **3-09/110.30 - Criminal Offenders Review of Own Record**

A person may review his criminal record for the purpose of challenge or correction in conformity with Penal Code sections 11120 through 11127.

- **3-09/110.35 - Protection of Reports**

Unit Commanders shall take reasonable steps to protect criminal records, including RAP sheets, printed electronic data and computer access terminals, from unauthorized access. Units not operating around the clock shall maintain printed records in located cabinets and sufficient physical security to prevent unauthorized access to computer generated data.

- **3-09/110.40 - Reproduction/Destruction of Criminal Record Information**

Criminal record information shall be reproduced only within the physical facilities of the Unit, with the authorization from and under the supervision of the Unit's designated criminal records security officer.

When RAP sheets/criminal record data are destroyed, the destruction shall be carried out to the extent that the identity of the subject can no longer be ascertained. When RAP sheet information/criminal record data is destroyed outside of the authorized agency, a person designated by the agency shall witness the destruction.

Prior to release or reassignment of any electronic storage media containing criminal record information to any non-criminal justice purpose, the criminal record information shall be completely erased from the media.

Printouts of criminal record information obtained through system development, test or maintenance shall be destroyed at the completion of the function or purpose for which the printout was obtained.

- **3-09/110.45 - Training**

Personnel authorized to release criminal history information from RAP sheets or computer sources shall

participate in one of the following:

- Attend California DOJ approved training sessions in the proper use and control of RAP sheets and electronically produced criminal records, held at a central location or at the Unit; or
 - Familiarize themselves with DOJ training materials in the proper use and control of RAP sheets and electronically produced criminal records.
-

• **3-09/120.00 - Sealing and Destroying of Arrest Records - Factually Innocent Subjects Only**

Penal Code section 851.8 allows an adult who has been detained or arrested by this Department, and who is factually innocent, to petition to have all records of that arrest sealed and destroyed. The provisions of 851.8 PC shall not apply to any offense classified as an infraction.

These procedures shall apply to subjects wrongly arrested for warrants regardless of the charge on the warrant.

Petitions must be filed within two years from the date of the arrest or two years from the date of filing of the accusatory pleading, whichever is the later date. Any time restrictions on filing may be waived without prejudice upon showing good cause by the petitioner.

In circumstances where a person has been detained or arrested and it is reasonable to assume that the person is factually innocent, the handling or investigating Deputy shall inform the person of the petition process and assist with its preparation. The Station detective/Unit Lieutenant shall ensure that the investigating Deputy issues said person a Certificate of Release (SH-AD-516 Rev. 4/71).

If an arrestee bonds out or is released O.R. prior to the investigating officer's determination that he is factually innocent, the Deputy is required to follow due diligence (Due diligence is defined as two attempts) in attempting to locate the arrestee to offer assistance in completing a Petition to Seal and Destroy Arrest Records (form BCID 8270).

Unit Commanders are responsible for establishing a detective Unit log which lists all persons filing a petition (form BCID 8270).

Petitioners shall be advised to apply at the Unit that initiated their detention/arrest and this original handling Unit shall provide a Petition to Seal and Destroy Arrest Records (BCID 8270). If the case records are no longer available at the Unit, the Records and Identification Bureau will provide them to the Unit upon request so that the investigating officer can make his decision.

The petitioner, with assistance as required, shall complete the top part of the Petition to Seal and Destroy Arrest Records (BCID 8270), which must include a print of his right thumb. The petitioner shall then be advised of the process time involved (60 days) and the method of notification of the action taken on the petition.

Copies of the petition (BCID 8270) shall be distributed as follows:

- 1 - Petitioner,
- 1 - Deputy district attorney having jurisdiction over the offense,
- 1 - Station detective/Unit Lieutenant,
- 1 - Investigating Deputy,
- 1 - Detective Unit log.

It is the responsibility of the investigating officer or the supervisor of the investigating Unit, in concurrence with the Deputy District Attorney, to determine if the petitioner is factually innocent. Any case for which there was a finding of factual innocence shall not be admissible as evidence in any future action.

The investigating Deputy shall evaluate the petitioner's request and, in concurrence with the Deputy District Attorney, within 60 days from the date of the petition, shall determine if the petitioner is "Found Factually Innocent" or "Denied Petition." If not acted upon within 60 days, the petition is deemed denied by the Department.

NOTE: Upon the Department denying the request, the petitioner has the right to petition the municipal court which would have had jurisdiction, per section 851.8(b) P.C.

The investigating officer shall complete the bottom half of the BCID 8270, indicating a finding of factual innocence or denial of the petition. Copies shall be distributed as follows:

- 1 - Petitioner,
- 1 - Department of Justice,
- 1 - Deputy District Attorney,
- 1 - Station detective/Unit Lieutenant,
- 1 - Detective Unit log,
- 1 - Records and Identification Bureau.

When the petitioner is found factually innocent, the investigating officer shall prepare a Declaration of Factual Innocence (BCID 8271), indicating that the subject is exonerated. Copies of BCID 8271 shall be distributed as follows:

- 1 - Petitioner,
- 1 - Station detective/Unit Lieutenant,
- 1 - Investigating Deputy,
- 1 - Detective Unit log,
- 1 - Records and Identification Bureau.

In addition, the investigating Deputy, along with the Department of Justice, shall request the destruction of any and all records of the arrest which were given to any local, state, federal agency or to any other person or entity.

The Station detective/Unit Lieutenant is responsible for ensuring the following records are noted for a three-year retention from the date of the incident/arrest of the petitioner, with destruction thereafter:

- Form BCID 8270
- Form BCID 8271
- Investigator's related records

Records and Identification Bureau shall be responsible for noting "Exonerated" and sealing all Department records of that incident of the factually innocent petitioner's detention/arrest for three years from the date of the incident/arrest, and thereafter destroy their records and the BCID 8270. No records shall be destroyed if the arrestee or a codefendant has filed a civil action against the Deputy or this Department until the civil action has been resolved.

In those cases where the petitioner is not the sole suspect or subject, all references to the petitioner as a suspect/subject shall be redacted and the concerned report shall be maintained as indicated by existing policies.

• **3-09/130.00 - Release of DPSS Information**

If the applicant or recipient is deceased, DPSS may release all of the information enumerated above, as well as the individual's telephone number.

responsibility, which includes all of Los Angeles County. Should the request require expertise not available at the Sheriff's Information Bureau 24-Hour Operations Center, the SIB on-duty sergeant will contact the appropriate unit for assistance.

• **3-09/220.00 - Funerals and Honor Guard Requests**

General

The emotional nature of a funeral service, particularly when associated with the law enforcement profession, demands the utmost compassion and sensitivity on behalf of Department personnel. The welfare of the bereaved family is of primary concern. While the Department is interested in assisting the family during this difficult period and can provide many helpful services, it must also recognize the private and very personal nature of a funeral service. It is, therefore, important that in a desire to help, the Department does not unwittingly impose its services on the family.

A packet, "Guidelines for Sheriff's Department Employee Funerals: Operations Commander's Checklist," is available through the Disability Management and Compliance Unit. This packet provides the Operations Commander with guidelines that are flexible, but is also designed to ensure that all phases of planning and organization have been considered. The packet also lists, in detail, the various levels of honor guard services available for funerals.

Departmental

It is within the scope and responsibility of the Disability Management and Compliance Unit to assist the family of a deceased member of this Department with funeral arrangements; however, the Unit Commander shall have overall responsibility for providing and coordinating the logistical and operational aspects of the funeral services desired. When it is determined that a uniformed funeral is desired or appropriate, the Unit Commander shall notify the Unit Commanders of the Training Bureau and Sheriff's Headquarters Bureau. Notifications shall also be made to the Disability Management and Compliance Unit and the concerned Division Chief or Division Director for coordination with Department executives.

The Division to which the deceased employee was assigned will be responsible for the overall operation of the funeral services. The Division Chief, Division Director, or Area Commander shall brief the Sheriff and major executives the day before the funeral services.

The Unit Commander of the Unit to which the employee was assigned is responsible for planning and coordinating every phase of the operation. He shall:

Assign a Lieutenant to act as the Operations Commander;

Ensure that all phases of planning and organizing the funeral have been considered; and

Ensure that his Area Commander and Division Chief or Division Director are continually briefed on the plans.

The Unit's Division Chief or Division Director will assist in the necessary coordination with other Divisions or Units as required by the size and complexity of the Department's involvement.

The Training Bureau, upon request, will provide the honor guard. The Sheriff's Headquarters Bureau will assist the Unit Commander with the coordination and notification of Department executives and the various logistical concerns regarding their attendance and/or participation in the services. They will also coordinate with any other departments/agencies that may be involved. The Disability Management and Compliance Unit will provide the critical liaison between the family and the Department and provide the Unit Commander with the necessary guidance in meeting the family's needs. Disability Management and Compliance Unit shall, therefore, maintain a close working relationship with the Unit Commander.

Professional Staff Members

The responsibility for planning and coordinating funeral services for professional staff members will essentially follow the same guidelines as those of sworn members. Military funerals are not provided by the Department for professional staff members. However, if the employee was a member of the United States military, that branch of the service will be responsible for providing a military contingent. This Department will provide honorary pallbearers at military funerals only if requested to do so.

Retired Members

The planning and coordination of funeral services for retired members of the department who, at the time of their death were members of the Sheriff's Relief Association, shall be the responsibility of Sheriff's Relief Association personnel. Representatives of the Disability Management and Compliance Unit will assist, as needed.

• **3-09/220.05 - Logistical Planning - Uniformed Ceremonies for Funerals**

In planning a funeral for a deceased member of this Department wherein a uniformed ceremony is desired or appropriate, it can be anticipated that large numbers of personnel, including ranking members of this Department and other law enforcement agencies, will attend, particularly if the death was duty related. Certain logistical and operational concerns, therefore, must be addressed. The following guidelines should not be considered all-inclusive, but are designed to provide Unit Commanders with some insight and assistance in their planning efforts.

- After determining funeral location(s), parking and traffic control must be established. If the Sheriff or other ranking executives are attending or participating in the services, their ingress/egress should be prearranged;
- The Sheriff/ranking officer of this Department should be briefed by the Sheriff's Headquarters Bureau or Disability Management and Compliance Unit regarding family concerns and wishes. Information concerning other officials or dignitaries attending should also be discussed;
- Seating for Department executives attending/participating in the service should be prearranged and reserved. This would, most appropriately, be near the front section of the church or funeral home and in proximity to, or behind, the honor guards;
- Following the services, an appropriate location should be designated for the Sheriff/ranking officer and party to await the procession of the casket to the funeral hearse;
- The procession (cortege) should normally consist of the motorcycle reserve escort or one radio car, the hearse, family limousine, Sheriff/ranking officer's vehicle and police vehicles, followed by the rest of the procession;
- If the cemetery is some distance from the funeral home or church, consideration of the size and speed of the procession is important. Delays and inconvenience to private citizens should be minimized wherever

possible. This is a legitimate operational concern and can be accomplished through explicit instructions to the escort vehicles or by placing an Deputy in the funeral hearse;

- An appropriate location for the Sheriff/ranking officer to stand during the grave side ceremony should be designated and made known to the executives;
- An appropriate area for media representatives shall be designated and manned by Sheriff's Headquarters Bureau personnel;
- In the event of a rifle honor guard, the family members should be reminded of the volley of shots so not to frighten them unnecessarily;
- Prior to the services, the Disability Management and Compliance Unit shall ascertain who is to receive the American flag on behalf of the family at the conclusion of the grave side ceremony;
- Department personnel attending the funeral in uniform shall wear the Class A Uniform, long-sleeved shirt, tie and no cover. Additional uniform accessories, e.g., jackets, rain gear, etc., may be specified as appropriate;
- When particularly large funeral services/processions are expected, the Special Enforcement Bureau, Emergency Operations Bureau, etc., may provide assistance in the overall planning effort; and
- The subsection on "Patriotic Courtesy" in the Policy and Ethics chapter should be consulted for proper courtesy and demeanor during the funeral service.

Although other Department personnel may be utilized to handle funeral arrangements, the Unit Commander is ultimately responsible for the planning and coordinating effort, remembering that the family's desires and requests are the Department's first concern and priority.

• **3-09/220.10 - Honor Guards, Funeral Services**

The Training Bureau will be responsible for providing personnel for the majority of honor guard functions; however, the Operations Commander may use personnel from the Unit of assignment when such utilization would be more expedient, the Unit would like to participate in this function, or the family requests Unit participation. Additional services for consideration include honorary pallbearers, color guard, flag detail, rifle detail, bugler or "honorary" representatives of the Department. The Unit Commander with the assistance of the Disability Management and Compliance Unit, will make the final determination on the level of services requested and provided.

• **3-09/220.15 - Honor Guards, Other Miscellaneous Functions**

Written Requests

The Training Bureau shall have the responsibility to coordinate all requests for honor guards.

Whenever a person or an organization makes an inquiry or request relative to obtaining a Department honor guard for such functions as parades, flag raising ceremonies, etc. the requesting person or organization shall be advised to submit a written letter of request to the Sheriff. The written request shall be made 30 days prior to the date of the function and shall contain the following information:

- Name of the organization;
- Nature of the function;
- Date, time and approximate length of the function;
- Location; and
- Name, address and telephone number of the person making the request.

The Training Bureau, upon receiving such a request, shall prepare an original and two copies of the Public Appearance on Behalf of the Sheriff form (SH-AD-177) and forward the forms and requesting letter to the appropriate Assistant Sheriff(s) for approval.

Upon approval, the request will be forwarded to the Division Director, Administrative and Training Division, who shall retain one copy of the SH-AD-177 for file and return the original and remaining copy of the form together with the requesting letter to the Training Bureau.

The Training Bureau shall contact the requesting party for confirmation, obtain any other information that may be desired and assign the necessary personnel for the honor guard as requested.

Upon completion of the honor guard assignment, the Training Bureau shall complete the SH-AD-177 (Summary of Appearance Section), and retain the original with the requesting letter for file.

• **3-09/240.00 - Adopt-A-Deputy Program**

The "Adopt-A-Deputy" program fulfills an existing need for a favorable person-to-person contact between members of this Department and the public. It is designed to generate a feeling of friendship and understanding and to create meaningful rapport between school children and members of the Department based on an informal, friendly relationship with an individual "adopted" Deputy Sheriff.

The program shall be implemented on request of those public schools at the elementary and junior high school level located within the unincorporated areas of Los Angeles County.

In the event a contract city requests the establishment of a program within their school system, the requesting city shall be advised that Department contract city personnel will be used.

Independent (non-contract) cities requesting the program through the Sheriff's Department shall be courteously advised to contact their local municipal police department for information concerning the possible availability of similar programs through their own police department.

• **3-09/240.05 - Personnel Qualifications**

 - Competent in public speaking;
 - Good general knowledge of law enforcement;

The assigned Deputy will meet with the principal or his representative, who will usually arrange a staff meeting so that the "adopted" Deputy will be able to confer with the teachers to explain and develop a program for the school. At the first opportunity, the Deputy will be taken into each classroom and introduced to the students. When student enrollment does not permit introduction to individual classes, an assembly may be utilized for this purpose.

The "adopted" Deputy should visit his school as often as time permits, but no less than twice a month. The visits may vary in length; but, be of sufficient time to gain maximum benefits. The Deputy should visit as many classrooms as possible during each visit. As time allows, the Deputy should stop by the school during his regular tour of duty to converse with the students.

One person shall be assigned to coordinate the "Adopt-A-Deputy" programs, select personnel and act as liaison between the Station and the participating schools. When necessary, a Deputy may be assigned to more than one school.

• **3-09/240.15 - Sample Format**
