4-16/045.00 MOTOR VEHICLES - RECOVERED			For line procedures, see volume 5, chapter 1. SVS requires agencies recovering another agency's reported stolen to send a "locate message" to the reporting agency as well as make an impound entry into SVS. It is mandatory that only the originating (ORI) agency clears their SVS stolen entry as recovered. If the recovered vehicle is missing component parts (engine, transmission, etc.), that fact must be noted in the locate message so the ORI may re-enter the parts into SVS as stolen when they clear the vehicle as "recovered." Local reporting agencies, upon our notification of recovery, will generally enter the stolen parts; however, out-of-state agencies and those not in this immediate area may request that we enter the stolen parts for them.
Recovered vehicle released to owner in "as is" condition	CHP-180 URN 73	Station/unit detective I	If vehicle was Sheriff's stolen, use same URN as for the stolen. Clear SVS and NCIC. Assignment is to the station/unit holding the stolen report. Trucks, trailers, and construction equipment will be assigned to station/unit detective bureau. In those cases involving the need for expertise or resources beyond those of the handling station/unit, TRAP will be notified and referral made to that unit. If outside agency's stolen, assignment is to recovering station/unit. Send summary message of form CHP 180 via JDIC if recovery is of another station/unit or agency's stolen.
