5-06/050.35 - Reports and Logs

If circumstances warrant, the first search and rescue unit at the scene of a mountain search shall complete a Search and Rescue Circumstance form (SH-R-220). This form shall be utilized as a work report and need not be included in the case file.

For any extensive search and rescue operation or one that involves a juvenile victim, a special log may be maintained at the discretion of the station/unit watch commander.

Whenever the victim of a search resides outside of the county, two copies of the completed form SH-R-220 will be forwarded to Fiscal Services.
