

## 5-06/070.30 - CBRN Coordination Requirements

These action items are to be used as guidelines by units responding to incidents involving the potential use of chemical, biological, radiological, or nuclear weapons.

- Exact location of incident;
  - CBRN indicators;
  - Wind direction and weather conditions;
  - Plume direction;
  - Number of victims;
  - Orientation of victims (direction headed, position, pattern);
  - Types of injuries;
  - Safe access routes;
  - Containment posts (crime scene, but stay uphill, upwind, upstream, and avoid low lying areas);
  - Traffic control points;
  - Command post;
  - Staging area(s);
  - Obtain witness statements from safe distance; and
  - **Protect against secondary devices/attacks.**
-
