

## **5-08/050.20 - Aero Bureau Responsibility**

The Aero Bureau Watch Commander shall be responsible for the scheduling, notification, reporting and recording of flights and flight requests. He shall also make the following determinations:

- Practicality of the flight based on such factors as weather, terrain, performance, economy, distance, etc.;
  - Priority of the flight request;
  - Type of aircraft best suited for the flight;
  - Most suitable method for coordination with ground forces, when ground support is required; and
  - Amount of aircraft and support equipment required.
-
