County of Los Angeles Sheriff's Department Keadquarters 4700 Ramona Boulevard Monterey Park, California 91734-2169

April 1, 1996

Allan Field Assistant District Attorney Norwalk Superior Court 12720 Norwalk Boulevard Norwalk, California 90650

Dear Mr. Field:

It has come to my attention that defendant Michael P. Evans is to appear in your court under case number A123456. Mr. Evans was arrested in the city of Norwalk on March 15, 1996, for possession of stolen property which was taken in a residential burglary. The house was unoccupied at the time of the entry and no one was injured in the incident. The property stolen in the burglary was valued at \$500, and was recovered.

After the arrest, the defendant provided investigators with the information about people who were committing armed robberies in the station area.

Based on the information provided by Mr. Evans, surveillance was conducted on the named suspects. Mr. Sal Martinez was arrested while attempting to commit an armed robbery at the 7-Eleven Store on Telegraph Road.

It is requested that consideration be given by placing Mr. Evans on probation or a minimum sentence in County Jail. Thank you for your assistance in this matter.

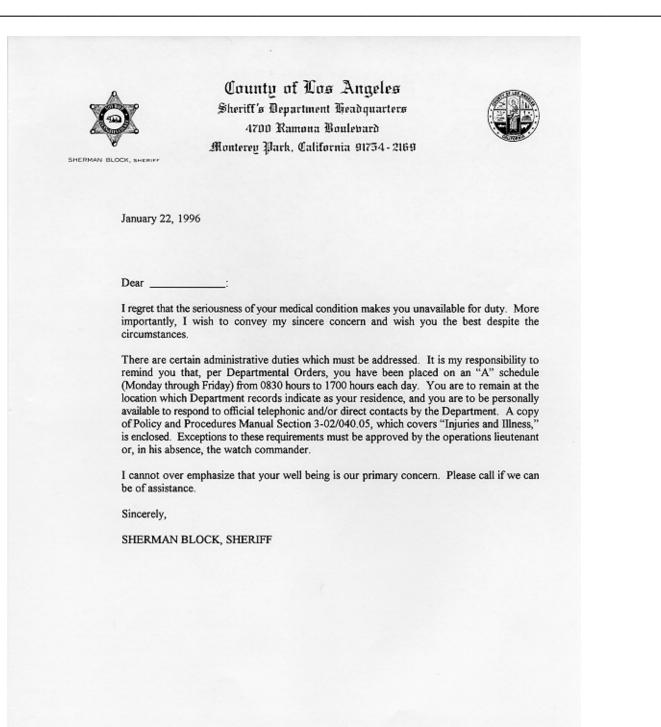

Sincerely,

SHERMAN BLOCK, SHERIFF

Marvin J. Dixon, Captain Norwalk Sheriff's Station

• • 7-02/020.00 - Emergency Operations Call Identifiers

The following designations will be used by personnel, units and equipment activated for an emergency operation.

Command Post

During emergency operations, the focal point for command and communications shall be referred to as the "Command Post."

<u>Personnel</u>

All command personnel will use their normal call identifiers. This will vary only during major preplanned operations during which call identifiers may be used to define specific lines of authority and responsibility to various elements or functions of the operation.

Platoon Operations

Platoon call identifiers will be in the 700 series. The station designator will be incorporated in the 700 number, depending on the origin of the platoon or platoon commander. The last two digits indicate station/unit number (701 thru 718). However, Century Station and Marina del Rey Station will use the first two digits of the station's call numbers. (e.g., 721-Century Station, 727-Marina del Rey Station). Refer to Emergency Operations Procedure (EOP) 3-7, "Platoon Organization and Table of Equipment."

Preplanned Operations

Personnel planning upcoming operations may develop a series of call identifiers such as color designators which serve to identify elements of the operation.

Training

The 400 series is reserved for training exercises. Any unit involved in a training exercise using radio transmissions shall use the 400 series to avoid accidental responses by operational units.

Coordination

The Sheriff's Communication Center watch commander shall be advised of any Department mobilization, preplanned event, training operation, or any other operation using specialized call identifiers which might impact the Department's communication system in any manner.
