

2-08/020.05 Audio Recording

Audio recordings of inmates in secured areas designated and marked as attorney rooms are prohibited except by court order or emergent circumstances (e.g., cell extraction of uncooperative inmate, medical emergency, etc.).

Audio recordings in satellite lockup areas of attorney/client communications are prohibited absent a court order.

All requests for investigative recording operations within a secured area of a court facility must be approved by the Bureau Unit Commander prior to any recording taking place.

Contemplated changes to this policy shall include consultation with County Counsel.
