2-13/025.00 Executed Court Orders For State Prisoners

Superior Court Orders (involving State inmates) that are completed will be stamped with the "executed" stamp. This stamp will let statewide transportation know that the court has completed the process with the involved inmate and that he/she can be transported back to the original State facility. The Deputy making the notification on the stamp will also enter the inmate’s name and identification number in the space provided.
