2-10/010.03 - Office of Technology Planning

The Office of Technology Planning (OTP) serves as a clearinghouse and advisory group for all Department information technology (IT) projects. OTP is an integral component of the Department's information technology governance process.

The Chief Technology Officer oversees all the functions of the OTP which is comprised of the following offices:

- Chief Data Office (CDO)
- Project Management Office (PMO)
- System Architecture Office (SAO)

Each office is an integral piece of the OTP to provide customer service to Department business units.
