PURPOSE OF ORDER:

The purpose of this order is to establish scheduling procedures for personnel at Pitchess Detention Center (PDC) South Facility.

SCOPE OF ORDER:

This order applies to all personnel assigned to, and working at PDC South Facility.

ORDER:

Incoming personnel shall be assigned to a shift and regular days off (RDO) based on the needs of the facility, as determined by scheduling personnel. It shall be the primary responsibility of scheduling personnel to ensure staffing needs remain the first priority and that daily staffing objectives are met.

The following types of schedules are utilized at PDC South Facility:

- 5/2 - One (1) week consisting of five (5) eight (8) hour work days with two (2) RDOs
- 4/3 - One (1) week consisting of three (3) eight (8) hour work days, one (1) sixteen (16) hour (county double) shift, and three (3) RDOs
- 4/10 - One (1) week consisting of four (4) ten (10) hour work days with three (3) RDOs
- 9/80 – Two (2) weeks consisting of nine (9) work days totaling eighty (80) hours

The majority of personnel on all three shifts are on a 4/3 schedule, which provides most employees with three

days off in a row. Alternative schedules may be utilized with the approval of the unit commander. A scheduling cycle is a monthly schedule that runs from the first Sunday of the month up to and including the Saturday before the first Sunday of the following month. Cycle changes occur the first Sunday of every other month (a two month cycle).

SHIFT CHANGES

Personnel may request a shift change if they have successfully completed custody training and are not on an "improvement needed" or mentorship status. Personnel requesting a shift change shall submit an email to scheduling personnel. This email shall include the employee's name, current shift, facility seniority date, and the desired shift(s) (first and second choice may be requested).

The employee shall be placed, in numerical order, on a shift transfer request list based on the date of the email and rank of the employee. It shall be the responsibility of scheduling personnel to maintain and update the shift transfer request list. Updates to this list shall be made every time a request is received.

In situations where two (2) or more employees send shift change request emails on the same date, the employee with the highest facility seniority date shall be listed first. If they have the same facility seniority dates, the employee with the highest Department seniority date shall be placed on the list first. If they have the same Department seniority dates, they shall be placed on the list in alphabetical order by their last name.

If an employee submits a request for a shift transfer indicating a first and second choice, should the opportunity arise for the employee to transfer to their second choice, unless otherwise specified by the employee, the employee will remain on the list (by date of email) to await a transfer to their first choice of shift. When it is determined that shift movement is necessary, the first employee on the list who requested the concerned shift (regardless of whether or not it is their first or second choice), shall be transferred.

If an employee is offered the opportunity to transfer shifts and they decline the offer at that time, that employee will be moved to the bottom of the shift transfer request list with their same shift choice(s) and a new email date reflecting the date the employee was offered the shift change.

Once the scheduling has started the process of making shift changes in preparation for a cycle (or mid-month) change, additions or deletions from the shift transfer request list will not be considered. These requests will be added/deleted after the new cycle schedule has been completed.

It shall be the individual employee's responsibility to monitor their placement on the shift transfer request list. It shall also be the employee's responsibility to notify scheduling if they no longer desire a shift transfer. Any deletion requests must be received prior to the beginning of the process of any shift movement.

If a shift is understaffed, and there are no volunteers to transfer to that shift, the employee who last transferred to the shift that is overstaffed shall be transferred to the understaffed shift. Scheduling shall ensure the employee is returned back to their original shift before any other shift transfers for that shift are made.

ABSENCE REQUESTS

If personnel need to take a day off of work and would like to request time off, they can submit a request using form 76A8F-SH-R-96, "Absence Request Prior Approval," up to two (2) months ahead of time.

SPECIALITY ASSIGNMENTS

Personnel interested in working specialized assignments (e.g., PDC ranch field crew, laundry, inmate processing area [IPA], kitchen, yard, inmate services, etc.) shall submit an email to the concerned supervisor as well as the PDC South Facility scheduling sergeant.

When it is determined there is an opening in a specialized assignment, the supervisor overseeing that assignment will select the employee best suited for the position.

SCOPE OF ORDER:

This order applies to all personnel assigned to and/or working at Pitchess Detention Center (PDC) South Facility.

ORDER:

HIRING OF PERSONNEL FOR OVERTIME

The scheduling sergeant shall be responsible for hiring all pre-scheduled overtime.

The following criteria shall be adhered to for the hiring of overtime for deputy and custody assistant personnel:

- The employee with the least total number of overtime hours worked at the unit for the current month shall be hired first.
- If two or more employees have the same amount of overtime hours worked at the unit for the current month and previous month combined (in instances of last-minute involuntary hiring), the secondary determining factor shall be Department seniority.
- The hiring of personnel shall be in line with the provisions set forth by the Department Manual of Policy and Procedures (MPP) section 3-02/010.16. Any exceptions to this policy shall be at the discretion of the on-duty watch commander and shall be authorized by the affected Division chief.

Personnel may sign up and make themselves available to be hired for overtime shifts in the Scheduling Management System (SMS). Prior to being hired for any overtime shifts, personnel are responsible for cancelling any positions that will conflict with personal issues or that will create any overtime violations as outlined in MPP section 3-02/010.16.

CANCELLING OF OVERTIME

Personnel shall not give away a voluntary overtime position they have been hired for. If personnel are unable to work the voluntary overtime shift, they shall immediately notify the scheduling sergeant, on-duty watch commander, or the on-duty watch sergeant. • • 3-02-025 Film Security Overtime

PURPOSE OF ORDER:

The purpose of this order is to establish procedures regarding overtime for private entity contracts (i.e., film security).

SCOPE OF ORDER:

This order applies to all personnel assigned to and working at Pitchess Detention Center (PDC) South Facility.

ORDER:

The PDC South Facility movie job coordinator is responsible for facilitating tours of the PDC property to private entities scouting for potential filming locations. Department policy requires any work related to private entity contracts be on overtime. All overtime worked in this capacity will be recorded in the Scheduling Management System (SMS) at the time it is worked to ensure all future overtime hired at South Facility is in accordance with Department policy.

The South Facility movie job coordinator will communicate the requirements of all movie contracts to the South Facility scheduling sergeant. Information provided shall include filming date(s), time(s), location(s), any special requirements and the number/classification of personnel required to fulfill the contract. South Facility scheduling personnel will notify all eligible personnel of the upcoming movie job overtime via email.

Personnel desiring to work the overtime shall sign up in SMS and note "Film Security" in the comments. Due to the long hours and unpredictability of filming, personnel assigned to line positions should be on a regular day off (RDO) to avoid scheduling violations. Personnel may not adjust off to work film security overtime unless they are on a "flex" schedule. Except for the South Facility movie job coordinator, personnel working in a supervisory capacity (i.e., providing supervision of line personnel) may not adjust off to work film security overtime unless authorized by the unit commander.

The South Facility movie job coordinator, having special knowledge of the contract details and legal requirements pertaining to filming, may be scheduled to work the date(s) and time(s) required for filming on overtime. When necessary, the South Facility movie job coordinator's schedule may be modified to avoid timekeeping violations. Exceptions may be made based on facility staffing requirements, complexity of the contract, or other circumstances.

In some instances, South Facility personnel may have limited knowledge regarding the facility where filming is taking place (e.g., PDC East Facility, Fire Camp, etc.). In these cases, one individual who is assigned to the facility where filming is taking place may be hired to work film security overtime. Exceptions may be made (e.g., specialized knowledge or skillset, size/complexity of movie shoot, etc.) at the discretion of the unit commander.

In all other cases, film security overtime will be hired by South Facility scheduling personnel using SMS in accordance with Department policy. If South Facility scheduling personnel are unable to hire enough deputies or custody assistants to fulfill the contract, outside personnel or sergeants may be hired to work film security overtime. If the contract requires that a sergeant be hired, all policies pertaining to overtime hiring shall be followed.

- Investigation
- "Improvement Needed" reflected on performance evaluation

SUPERVISOR RESPONSIBILITIES

Upon receiving a request for an unexpected absence without prior approval, the on-duty supervisor shall:

- If the employee is listed on the roster the handling supervisor shall read to the employee, the "Unauthorized Absence Admonition" which admonishes the employee that the absence will be deemed "unauthorized."  - The scheduling/training sergeant shall remove the UA from the employee's time sheet and add the employee's desired time off

Absence Tracking Roster

Each handling supervisor, shall be provided a regularly updated roster of employees who are considered excessively absent or tardy, based on the criteria outlined herein and an analysis of their time records. It shall be the responsibility of the scheduling/training sergeant to update this roster.

PURPOSE OF ORDER:

The purpose of this order **is to** establish the operational procedures and guidelines necessary to ensure strict adherence to the Custody Operations Division Training Plan and provides a quality training program for all personnel assigned to **Pitchess Detention Center (PDC)** South Facility. Though resources and time are limited, training shall be considered a priority of this unit.

SCOPE OF ORDER:

This order applies to all personnel assigned to, **and working at PDC** South Facility.

ORDER:

The training goal of the **PDC** South Facility shall be to maximize the efficiency of the unit. **Specifically, to strive by striving** toward maintaining peak officer safety and inmate security. **South Facility** training shall be in

compliance with all local, state, federal laws, rules and regulations. **South Facility** training shall promote an understanding and compliance with Departmental and Divisional procedures.

This order contains the South Facility training program. To ensure an effective training program, training assignments, responsibilities and collateral duties for unit personnel are identified. The training section, under the guidance of the unit commander, shall be composed of a training lieutenant, training sergeant, and a training deputy.

TRAINING OFFICER/TRAINEE STANDARDS OF CONDUCT

It is the policy of the Department that all Sheriff's personnel newly assigned to a custody facility shall be treated with the consideration and respect that is afforded to all peace officers. The purpose, therefore, of this directive is to ensure that all South Facility trainees are provided with a positive training environment by those currently assigned to the unit.

All personnel are expected to establish a work environment wherein no hazing or discourtesy shall occur. Moreover, all conditions of the Training Officer-Trainee Relationship Agreement (**Attachment A**) shall be followed.

To assist the unit in enforcing this mandate, the Training Officer/Trainee Relationship Agreement will be briefed by the training sergeant to every trainee/training officer partnership and signed by all parties present.

All personnel assigned to the South Facility will treat trainees with respect and courtesy. Any failure to comply with this directive shall be investigated, documented and appropriately corrected.

NEWLY ASSIGNED EMPLOYEE – ORIENTATION

Each newly assigned employee shall be given an orientation session and a tour of the facility.

TRAINING PROGRAM STRUCTURE

Each trainee will be assigned to a qualified training officer. He/she will be selected from a list of personnel provided by the shift supervisors who have exhibited the ability to instruct and follow a designated training program. During the training period, the trainee will be exposed to a variety of specific subjects and situations which will be evaluated and recorded on provided checklists. Guidance and counseling sessions shall be conducted during the course of training between the line supervisor and the trainee.

The purpose of the training program is to teach Department and Facility rules, regulations, procedures, and generic information. The proper methods and techniques used to perform duties in a custody environment will be demonstrated and shall be a significant part of the training.

Trainees shall be required to successfully complete the training program by demonstrating proficiency in their ability to perform required tasks, and to have knowledge of the information required to perform competently in all areas of a custody environment.

The training program is twelve weeks in duration. The first week of training involves familiarization and acclimation to the custody environment. Weeks two through eleven (**2-11**) cover the operation of the South

Facility, incident identification and report writing. Week twelve (12) concludes the training period with a final review of all material.

The training checklist identifies skill and knowledge areas a new employee must become familiar with to competently function in a custody environment. The training officer's primary task will be to explain, demonstrate and review each skill or training point of knowledge with the trainee. As the trainee demonstrates a competent level for each skill or training point, the checklist will be initialed and dated by the training officer and by the trainee. The trainee shall demonstrate competent performance in each point on the checklist in order to successfully complete the orientation training program.

At the end of weeks four (4) and eight (8), training officers shall complete a comprehensive performance and training evaluation of their assigned trainees. A conference between the line supervisor, training officer and the trainee will be held after the evaluation is completed. Early identification of weakness or deficiencies in the trainee's performance is necessary to allow enough time to make corrections. This is also an excellent time to identify the trainee's strong points.

If a problem should exist with the trainee's performance, remedial action will be initiated by the training officer. After exhausting all possible resources and courses of action, any additional problems will be remanded to the next higher level through the training staff chain of command. Throughout the remediation process the line supervisor and the training sergeant shall be kept apprised of the problems, courses of action and results.

A final interview between the training sergeant, training officer and trainee is held after the training officer recommends the trainee's release from training. All paperwork related to training is forwarded to the scheduling/training office and is placed in the trainee's training file.

After successfully completing the training program, the unit commander will acknowledge such achievement by requesting a memorandum be placed into the individual's personnel file.

The training program is designed to be completed in twelve (12) weeks. Some personnel may experience training difficulties or personal problems. An extension of the training schedule may be authorized by the training sergeant, with the approval of the training lieutenant. The length of extension shall be commensurate with the problem(s) encountered and the remedial action plan that is prepared.

IN-SERVICE TRAINING

The watch briefings offer an opportunity to provide a significant amount of in-service training time. During each briefing, unless pre-empted by exigencies, training material should be presented and discussion should take place. When this occurs, the topics and participants who are present shall be documented by the briefing sergeant.

RECURRENT BRIEFINGS

Since the Department mandates that specific material be re-briefed at frequent intervals, a recurrent briefing file shall be maintained. The specific briefing information that has been identified by the Department Manual of Policy and Procedures (MPP) and the training sergeant shall be indexed and re-briefed at regular intervals.

The recurrent briefing file shall be maintained by the training sergeant. The training sergeant will distribute the material to be briefed to each shift.

Each shift sergeant shall adequately document when the briefing has been read and discussed. Each shift sergeant shall ensure that the personnel on his/her shift are made aware of the recurrent briefing material and understand the information provided.

STANDARDIZED TRAINING FOR CORRECTIONS (S.T.C.) AND INTENSIFIED FORMATTED TRAINING (I.F.T.)

S.T.C. training is coordinated and presented by the Custody Division training staff. The training is designed to enhance the capabilities and skills of unit personnel. It is extremely important that members of this facility provide input into the S.T.C. curriculum. This will enhance future S.T.C. classes, ultimately ~~providing~~ **creating** the environment for more efficient learning by those taking the instruction. I.F.T will be handled by the training sergeant and assisted by line supervisors.

The training sergeant shall continuously monitor and evaluate ~~this unit's~~ **South Facility's** training needs. This assessment shall be documented and provided to the Division and PDC training staff for consideration and possible inclusion into ~~their~~ future **training** programs. The training lieutenant shall be kept informed on all aspects of the training requirements.

The training sergeant shall be responsible for ensuring that the mandates of S.T.C. training are ~~complied with~~ **met** and that employees ~~requiring~~ **in need of** S.T.C. training are scheduled to attend. They shall provide the necessary information relative to training dates, times, location and equipment required. The unit training staff will post an S.T.C. schedule no later than six working days before the scheduled class.

FIREARMS QUALIFICATION

The training sergeant has the collateral responsibility for monitoring and ~~recording~~ **documenting** unit personnel firearm qualification scores in accordance with Departmental regulations.

He/she shall ensure that ~~appropriate~~ adequate on-duty ~~scheduling~~ **time** is provided to enable personnel to meet Departmental **firearms qualification** mandates.

When remedial training is required, it shall be the responsibility of the training sergeant to ensure that the involved personnel are scheduled and comply with firearm proficiency requirements.

Failure to comply with the established Departmental guidelines may result in disciplinary action. When appropriate, the training lieutenant shall initiate and ensure the completion of appropriate Departmental disciplinary procedures.

EMERGENCY PROCEDURES EXERCISE

It shall be the responsibility of the training sergeant to set up, coordinate and facilitate emergency procedures exercises. Critiques of the exercise should be written by the watch commander and maintained by the training unit.

An attempt shall be made to conduct an emergency procedures drill at least once each month.

At least one (1) major fire drill shall be conducted every six (6) months. This mandated drill shall involve LA County Fire Department personnel in accordance with Custody Division Manual (CDM) section 3-14/050.00.

The shift sergeant shall conduct a debriefing exercise with unit personnel involved in emergency procedure training exercises. At the conclusion of the debriefing, the assigned watch commander shall record document all training problems noted in the exercise. He/she shall submit them in memorandum form (SH-AD-32A) to the training sergeant, outlining training deficiencies observed and plans for improvement.

Any deficiency noted during the training exercise shall be addressed through additional appropriate training. A plan of action shall be developed by the training sergeant and, when it is approved upon approval by the training lieutenant, it shall be implemented as soon as possible.

SHIFT ASSIGNMENTS AND TRANSFERS

Shift assignments of personnel are based on unit needs. Newly assigned personnel may be required to transfer to another shift in order to facilitate shift transfer requests made by personnel with more unit seniority. Newly assigned personnel who desire a shift change, after having completed training, may submit a shift transfer request to the scheduling sergeant (for sworn personnel) or the operations sergeant (for civilian personnel).

VACATIONS

Newly hired employees shall complete one (1) year of County service before they become eligible to use vacation leave time. No payment of vacation hours shall be made to an employee who separates from County service before completing his/her first year (TK-01/011.60 Vacation Leave and Grants).

Revision Date: 04-22-19

Review Date: 04-22-21

Reference: The Department of Transportation's (DOT) rule, 49 CFR Part 40

PURPOSE OF ORDER:

The purpose of this order is to establish procedures regarding compliance with the Federal Department of Transportation (DOT) rules on drug and alcohol testing for commercial drivers.

SCOPE OF ORDER:

This order applies to all members assigned to, and working at Pitchess Detention Center (PDC) South Facility who are required to have a California Class A commercial driver license when performing their duties.

ORDER:

Department policy mandates that each employee, within the scope of this order, receive a copy of the County DOT policy, and DOT alcohol and drug handbook, before any alcohol and controlled substance testing takes place. Each covered employee shall be required to sign a statement certifying receipt of the County DOT policy and the DOT handbook. The PDC ranch field lieutenant shall be responsible for providing the handbook and policy.

This order will address random testing, and post-accident testing. Reasonable suspicion testing will continue to be conducted according to existing Department guidelines.

POST-ACCIDENT TESTING

Post-accident testing shall be conducted after accidents involving drivers whose performance could have contributed to the accident (as determined by the issuance of a traffic citation for a moving violation) and for all accidents involving a fatality, even if the driver is not cited for a moving violation. Post-accident testing shall be administered to the Department driver as soon as practical under the above conditions. The PDC ranch field sergeant will handle the incident on regular business days, Monday-Friday, during normal business hours, 0600-1500 hours. After hours and on weekends and holidays, the incident will be handled by the PDC South Facility watch sergeant. The handling field sergeant shall follow the guidelines established for random testing described in the supervisory training handbook for compliance with the DOT rules on drug and alcohol testing for commercial drivers.

A blood alcohol test shall be administered using the "scientific method" as listed in the United States Code of Federal Regulations (CFR) Title 49 – Transportation. If the blood alcohol test is not administered within two (2) hours following the accident, the supervisor shall prepare and maintain a record stating the reasons the test was not promptly administered. If not administered within eight (8) hours following the accident, attempts to test shall cease and a record made of why the test was not administered.

If a drug test is not administered within thirty two (32) hours, the supervisor must cease attempts to administer the test and prepare and maintain a record of why the test was not administered.

Drivers who need to be tested, shall be directed to an authorized collection site listed in the supervisor's

handbook. During normal business days and hours, the testing centers listed in "Appendix A" of the handbook shall be utilized. After hours and on holidays and weekends, the testing centers listed in "Appendix B" and "C" of the handbook shall be utilized. The driver to be tested shall be given the following three forms to take with them for completion of the test:

- A Treatment Authorization Form
- A U.S. Department of Transportation Breath Alcohol Testing Form
- A Federal Drug Testing Custody and Control Form

These forms can be found in a binder in the watch sergeant's office and in the motor pool senior deputy's office.

The results of a breath or blood test for the use of alcohol, or a urine test for controlled substances conducted by the California Highway Patrol (CHP), local law enforcement or other officials having independent authority for the test, meet the DOT requirements, provided test results are obtained by the Department.

RANDOM TESTING

All random testing for PDC South Facility personnel shall be coordinated by the PDC ranch field lieutenant. Names of employees to be tested, chosen at random, will be provided to the PDC ranch field lieutenant by the captain of the Department's Risk Management Bureau (RMB), who is the Department program manager.

The PDC ranch field lieutenant shall follow the guidelines established for random testing described in the supervisory training handbook for compliance with the DOT rules on drug and alcohol testing for commercial drivers.

Drivers who need to be tested, shall be directed to an authorized collection site listed in the supervisor's handbook. During normal business days and hours, the testing centers listed in "Appendix A" of the handbook shall be utilized. After hours and on holidays and weekends, the testing centers listed in "Appendix B" and "C" of the handbook shall be utilized. The driver to be tested will be given the following three forms to take with them for completion of the test:

- A Treatment Authorization Form
- A U.S. Department of Transportation Breath Alcohol Testing Form

The actual searching, probing or opening of an employee's food item shall be conducted by personnel in possession of the item, in the presence of the supervisor requesting the search.

PURPOSE OF ORDER:

The purpose of this order is to establish procedures regarding personnel leaving the Pitchess Detention Center (PDC) property while on duty.

SCOPE OF ORDER:

This order applies to all personnel assigned to, and working at PDC South Facility.

ORDER:

There will be no "chow runs" or other personal errands made by on-duty personnel, in either County-owned or personal vehicles, unless the employee has a specific lunch period allotted during their shift. Employees may only leave PDC South Facility for lunch or personal errands, in their personal vehicle, during this specified allotted lunch period.

An allotted lunch period is a thirty (30) minute meal period exclusive of an eight (8) hour workday. For example, an eight (8) hour shift does not have an allotted lunch period if the entire shift is no more than eight (8) hours. An eight and one-half (8 ½) hour shift includes a thirty (30) minute allotted lunch period.

An eight (8) hour post position, which does not include a specific lunch period allotted within that time-frame, is defined as one whose continued presence is essential to the operation of the facility. An employee assigned to one of these positions shall remain on PDC property during his/her tour of duty.

Personnel working consecutive eight (8) hour shifts are specifically prohibited from leaving PDC during their assigned shift for any personal errands or "chow runs."

Any exceptions to this policy must be authorized by the on-duty watch commander.

Effective Date: 02-16-17

Revision Date: 08-20-19

Review Date: 08-20-21

Reference: MPP 3-01/090.25

PURPOSE OF ORDER:

The purpose of this order is to establish procedures for the use and administration of the Jack Bones Equestrian Center at Pitchess Detention Center (PDC), specifically for the purposes of incorporating recreational vehicle (RV) trailers and motorhomes into the PDC Barrack Officer Quarters (BOQ) program.

SCOPE OF ORDER:

This order applies to all PDC facilities/units and personnel wishing to participate in the PDC BOQ program.

ORDER:

In order to accommodate the large number of commuting personnel, the following procedures are in effect allowing personnel to park, and use their personal RVs at the Equestrian Center:

- All personnel must be Sheriff's Department employees.
- All personnel must be assigned to a PDC facility/unit, and maintain a residence outside the Santa Clarita Valley area.
- All personnel must work several double shifts during the month which would necessitate the use of an RV to prevent sleep deprivation caused by commute times to and from work. The determination to authorize the use of an RV in the Equestrian Center shall be based on distance of commute, time between shifts, and frequency of overtime. Frequent shifts requiring extended hours and or compressed schedules (double-single-double) may also qualify. Each request for approval shall be evaluated individually, which may include a review of present and future work schedules.

Note: Exceptions to the above conditions may be made on the basis of personal hardship, with unit commander approval. Work schedule eligibility, and RV usage, shall be verified by the PDC ranch operations sergeant periodically. Authorization to park in the Equestrian Center may be temporarily or permanently revoked at any time for non-compliance.

- Prior to parking at the Equestrian Center, all personnel shall submit an application, and obtain a parking spot number through the PDC ranch office.
- Personnel using an Equestrian Center parking spot with an available electrical "hook-up" shall also

submit a completed PDC RV long term housing contract. This contract requires personnel using these designated electrical hookups to consent to a payroll deduction fee of \$20 per month, for the use of the electrical hookup. This fee is directly deposited into the County general fund.

Note: The PDC co-generation electrical plant, which supplies electricity to all PDC facilities including the Equestrian Center, produces a set amount of electricity. The Equestrian Center, as a whole, draws an insignificant amount of power which does not affect other facilities, or the overall operation of the PDC electrical grid.

- Once personnel have been approved to use an Equestrian Center RV parking spot, they shall be issued an Equestrian Center RV pass. This pass shall be displayed in a window, or other visible location within their RV. This pass will designate if it allows parking with “hook-ups” (green) or without “hook-ups” (blue).
- All personnel using an Equestrian Center parking spot shall agree to vacate the equestrian area for any preplanned event. Notifications will be given via email from the PDC ranch office prior to these events.
- No personnel may permanently reside at the Equestrian Center.
- No personnel may store any RVs on PDC property or at the Equestrian Center.
- Failure to comply with these rules may result in the revocation of privileges to use the Equestrian Center.

Once every month, the Ranch operations sergeant shall conduct an audit of the RV Equestrian Center program to ensure compliance with the above referenced guidelines.

PURPOSE OF ORDER:

~~The purpose of this order is to establish guidelines for the operation and maintenance of the facility's security alarm system which is based on a Taut Wire Intrusion Detection System, integrated with cameras and a Computerized Control Center.~~

-

SCOPE OF ORDER:

This order applies to all personnel assigned to, and working at Pitchess Detention Center (PDC) South Facility.

-

ORDER:

THEORY OF OPERATION

There are 24 cameras located around the fence line at PDC South Facility, which work in conjunction with the taut wire (barbed wire) system. The taut wire provides both a physical barrier and intrusion sensing system. The fence is divided into 16 zones (sectors) with multiple horizontal taut wires, each connected to a sensor. The sensors and the sensors' interwiring are assembled within the sensor post, which is installed halfway between two anchor posts. Each sensor post has a cover concealing a micro switch, which is activated upon removal of the cover. The anchor post secures the ends and carries the tension loads of the taut wire. The anchor posts have breakaway tabs to prevent climbing over the posts without activating the alarm.

A multi-conductor cable, which hangs freely along the system's posts, links all the sensor posts to the control unit. Each conductor is connected to a designated zone and the interconnections are carried out in the sensor post.

An attempted intrusion, tampering with the system, cut or deflection of the taut wire will immediately triggers the alarm at the control unit.

PURPOSE OF ORDER:

The purpose of this order is to establish standard procedures for the proper use and security of the facility compound gates.

-

SCOPE OF ORDER:

This order shall apply to all personnel assigned to, and working at Pitchess Detention Center (PDC) South Facility.

ORDER:

PDC South Facility is comprised of twenty two (22) barracks, separated into seven (7) compounds by security fences and gates. The interior security gates and fences serve to separate housed inmates into manageable groups, in order to isolate problems should a disturbance occur within the facility.

The gates between compounds are commonly known as "slam" gates. These gates are designed to close and lock upon being pushed closed. The only means of opening the gates, once closed, are with the appropriate key.

All interior compound gates shall be kept in the closed and locked position at all times when not being traversed by inmates or staff. Once traversed, the gate(s) shall be immediately secured by the personnel allowing for access through it. Additionally, at no time, will personnel advise or allow inmates to open, close or hold the gates.

During times, such as the evening inmate meal, the compound gates will need to be left open for an extended period of time. During that time, designated personnel shall remain close enough to the gate to be able to immediately close the gate. This will prevent the inmates from gaining control of the gate(s) and/or to isolate a problem. Personnel should be positioned no further than 10 feet away from the open gate in order to ensure the gate can be secured immediately.

Gates shall never be locked or secured in an open position, in such a manner as to prevent the gate from being immediately shut and locked.

PURPOSE OF ORDER:

The purpose of this order is to establish guidelines and procedures for the distribution and collection of various work tools used by inmates at Pitchess Detention Center (PDC) South Facility.

-

SCOPE OF ORDER:

This order applies to all personnel assigned to, and working at PDC South Facility who supervise inmate work crews that utilize various culinary, gardening, and hand tools.

-

ORDER:

A major concern at PDC South facility is the distribution and control of tools accessible to inmates. One method to minimize the threat of tapering or the loss of tools is to inventory all tools, followed by a stringent checkout and return procedure, and completed by a thorough search of the inmates to whom tools are issued.

Culinary tools are secured in a locked cabinet located in the PDC ranch kitchen/officer's dining room (ODR) security office and the PDC South Facility kitchen/inmate dining room (IDR) security office. All tools are placed on a shadow board, with the exception of knives. Knives at the PDC ranch ODR are locked in designated slots. All culinary tools are individually marked for identification and their location inside the cabinet is similarly marked.

At the start and end of each shift, ODR and IDR security personnel shall inventory each tool and log the inventory in the security office log book. ODR and IDR security personnel shall account for the kitchen key blocks at the beginning and end of each shift. At the beginning of the shift, the PDC South Facility main control desk (David) personnel shall account for all kitchen keys.

Gardening tools are secured in a cargo container and placed on racks marked for the designated tool. The tools are individually marked for identification and signs above the racks indicate the placement of shovels, hoes, rakes, and pickaxes. Gardening tools shall be issued to "inside worker" inmates by the PDC South Facility maintenance officer and recorded on a checkout sheet which is located on a board inside the container.

Hand tools for maintenance and building shall be secured inside a cargo container and placed on shadow boards. The tools will be individually marked for identification and their location on the shadow board similarly marked. Hand tools shall be issued to "inside worker" inmates by the PDC South Facility maintenance officer and recorded on a checkout sheet located on a board inside the container.

Facilities Services Bureau (FSB) maintenance workers shall keep their tools in locked containers located in the secured, fenced-in area between Barrack 30 and Barrack 31. All tools shall be accounted for, and documented on an inventory list located in the locked containers. Any tools needed for maintenance are to be checked out and checked back in, and documented on a paper log located in the locked containers.

Any non-PDC FSB maintenance workers or independent contracted repair workers entering PDC South Facility shall be responsible for maintaining a list of tools they bring into the facility. This list shall contain a

~~documentation of all their tool inventory and be in their possession while they are inside security. Once maintenance or repair work is completed, the FSB maintenance worker or independent contracted repair worker shall be responsible for accounting for their own tools and insuring none are left behind or unsecured. PDC South David personnel allowing entry to any maintenance workers or contracted repair workers shall ensure they have a current tool inventory list in their possession at that time. Upon completion of their task, maintenance workers shall check in with South David personnel to verify all tools are accounted for.~~

~~PDC South Facility personnel working in any area where maintenance or repair work was performed, shall conduct a visual check of the area and immediately notify the watch sergeant if any missing or unsecured tools are recovered after maintenance or repair work is completed.~~

~~Tools that are removed for repair or replacement shall be documented on their respective inventory lists. The watch sergeant shall be notified immediately if a tool is missing or unaccounted for.~~

~~Any and all tools needed by an inmate work crew shall be issued by the deputy or custody assistant (CA) who supervise the work crew and the issuance of all tools shall be recorded on a checkout sheet. Once the inmates have completed their work, all tools shall be accounted for, inspected, checked in and secured.~~

PURPOSE OF ORDER:

The purpose of this order is to set forth and establish procedures for inmate safety checks and the required documentation of the check at Pitchess Detention Center (PDC) South Facility.

SCOPE OF ORDER:

This order applies to all personnel assigned to, and/or working in any capacity at PDC South Facility.

ORDER:

All inmates in our custody shall be visually checked at least once each hour to ensure their safety and welfare. Lack of proper inmate monitoring and documentation could subject the responsible personnel to disciplinary action and/or civil lawsuits.

PROCEDURES FOR CONDUCTING SAFETY CHECKS

All inmates in our custody shall be visually checked at least once each hour to ensure their safety and welfare. Department members conducting these checks The Title 15 deputy, with the help of compound personnel, shall:

- Enter each barrack in their assigned compound and look at the inmate(s) visually inspect every inmate to look for obvious signs of distress, (e.g., bleeding, trauma, visible injury, choking, difficulty breathing, discomfort, etc.) Personnel shall conduct these checks by entering the inmate housing areas and visually inspecting each inmate. Should there be any doubt regarding an inmates' condition, department members shall attempt to elicit a response from the inmate
 - In cases of inmate distress, escort victim to the PDC South Clinic for a medical exam, inmate injury report and incident report (SH-R-49)
 - If unable to elicit a response from the an inmate with signs of distress, personnel shall render the appropriate aid, and request a supervisor and medical staff shall be requested.
 - The supervisor and medical staff shall respond to the location and conduct an assessment
- Scan the bar code affixed to each rear barrack door
- Personnel conducting the safety checks shall d Document their time of each checks scan in the Uniform

Daily Activity Log books (UDAL)

All personnel assigned to each compound shall be equally responsible for ensuring all safety checks are completed on schedule and properly entered into the UDAL books.

All security checks shall be conducted with a minimum of two department members. One shall be positioned at the front doors of the barracks while the other(s) physically conducts the inmate security check.

The department member(s) **Personnel** making **conducting** the security check shall use the **"Title 15 Checks"** scanner **section on the iPod assigned to their compound** to document the walk. This shall be repeated for each barrack in the compound. The time of the walk shall be written in the UDAL. Scanning does not take the place of recording the safety check in the UDAL. After the security checks are completed for the compound, the scanner shall be docked **scans stored on the iPod shall be uploaded**. Lack of proper inmate monitoring and documentation could subject the responsible personnel to disciplinary action and/or civil lawsuits.

DOCKING UPLOADED THE SCANNERS SCANS

Currently, there are two ways to synchronize (dock) the scanners. The first method is to use the docking cradles located in the IPA, Eddie Compound Trailer or the Report Writing room:

The iPod will be synchronized, and the scans will upload when the user walks into a Wi-Fi "hotspot" (an area where there is a strong Wi-Fi signal).

The second method to synchronize the scanner by standing near a WiFi antenna positioned on the roof of the South Clinic. To verify the scanner **iPod** is synchronizing, **the Title 15 deputy shall:**

- Check the connection strength and make sure it has a signal **(a signal indicator showing up to four curved lines can be found in the upper left corner)**. Department members may also check the Title 15 dashboards located in the Watch Sergeants office to confirm compliance.
- Check the lower left corner of the "Title 15 Checks" section to verify there are no pending uploads
 - **No pending uploads is denoted by green text followed by a zero (Pending Uploads: 0)**
 - **Pending uploads is denoted by red text followed by some number (Pending Uploads: 20)**
- **If the user is in an area with a Wi-Fi signal and the pending uploads do not clear, reboot the iPod using the following steps:**
 - **Depress the power button (right hand side on top) and home button (bottom, middle on front) simultaneously until the device shuts off**
 - **Wait several seconds up to a minute and turn device back on using the power button**
 - **Check the "Title 15 Checks" section to verify if pending scans cleared**
 - **If scans did not clear, or only partially cleared, repeat the reboot process**

A complete tutorial on how to dock the scanners is located on the South Facility Intranet page, under the Procedures link.

PROBLEMS WITH SCANNER IPOD

If a Title 15 scanner ~~an iPod~~ is not in use due to equipment/network failure, department members from the respective area ~~the Title 15 deputy from the compound experiencing the problem~~ shall:

- ~~Attempt to troubleshoot using the reboot steps listed above~~
- ~~Immediately notify a sergeant if the problem is not fixed using reboot steps~~
- ~~Enter the issue and notification into the Uniform Daily Activity Log (UDAL)~~
- ~~Borrow a neighboring compound's iPod to complete the safety checks~~
- ~~Submit a request through the Title 15 Support Website via the intranet, Custody Information Portal or by using the following web address: <http://4-web-apps01/Title15//ReportProblem.aspx>~~
- ~~Return iPod to operations and exchange for an alternate iPod, if available~~

~~If there are no available scanners, department members shall still conduct security checks and properly record them in the UDAL. If the Title 15 scanner is unavailable for more than a 24 hour period, notification shall be made to the watch commander and entered into the facility log. If a Title 15 scanner ~~an iPod~~ becomes inoperable due to damage, whether accidental or intentional, a work order shall be submitted and a "Damage to County Property" SH-R-49, "Damage to County Property" report shall be written. A copy of the report shall be sent to the Correctional Innovative Technology Unit (CITU) along with the inoperable Title 15 scanner iPod. If a Title 15 scanner cannot be repaired and needs to be replaced, the respective unit commander shall write a memorandum to the division chief explaining the reason for the replacement.~~

~~If there are no available iPods, personnel shall still conduct security checks and properly record them in the UDAL.~~

PURPOSE OF ORDER:

The purposed of this order is to establish guidelines and procedures for security at the Pitchess Detention

Center (PDC) laundry facility.

=

SCOPE OF ORDER:-

This order applies to all personnel assigned to, and working at the PDC laundry facility.

=

ORDER:

The overall operation and staffing of the PDC laundry facility is under the command and control of PDC South. All other South Facility unit orders and policies apply to personnel assigned to the laundry facility.

STAFFING

The laundry facility is staffed by both custody assistants (CA) and deputies. Personnel are assigned to the laundry facility by the PDC South scheduling office.

In the event there is insufficient staffing at the laundry facility due to sick call-ins or scheduled time off, personnel from the line at PDC South Facility may be temporarily assigned to work there.

GENERAL FACILITY SECURITY

All personnel assigned to the laundry facility are responsible for the security and operation of the facility. Each employee assigned to the laundry facility shall familiarize themselves with the laundry facility unit orders, duty statements and emergency procedures.

South Facility personnel assigned to work at the laundry facility are responsible for supervising and monitoring the inmates assigned to work at the laundry facility. Personnel shall, at all times, know the location and status of each inmate assigned to their work location. Personnel will update and shall keep an accurate roster of the inmates assigned to their work location.

All incidents involving violations of "roaming" and "out of bounds," which takes place outside the walls of the laundry operation (e.g., rear dock, front dock, roadways, etc.), shall be reported to a supervisor. The supervisor will decide whether discipline is warranted.

All inmate movement between work stations, within the laundry facility and between facilities, will be coordinated through the laundry facility's main control.

VEHICLE SECURITY

Numerous county and non-Sheriff's Department vendor vehicles enter and exit the laundry facility on a daily basis. As a means to prevent the possible escape of inmates, the following procedures shall be followed:

Main Laundry

- When a non-Sheriff's Department vendor arrives at the front gate of the laundry facility, the security gate person shall alert the laundry dock security personnel and laundry senior deputy (or another on duty supervisor) that there is a vendor vehicle preparing to come through the gate
 - The supervisor will ensure there are two security personnel on the dock to receive the vehicle before it arrives at the dock, and the supervisor will inform the security gate person to allow the vehicle to enter
- There shall be at least two security personnel (deputy or GA) on the front dock if there is any vehicle being loaded or unloaded, or if there are any inmates present on the dock
 - If there is a non-Sheriff's Department vendor vehicle at the front dock, at least one (1) security person shall remain with the vehicle at all times until it is secured and driven out of the facility
 - The other security person shall monitor the general front dock activity to ensure no inmates enter the vehicle, or assist the driver
 - Inmates shall not assist non-Sheriff's Department vendors with the loading or unloading of their vehicles, nor shall inmates converse or have any other contact with non-Sheriff's Department drivers/passengers
 - If there is a need for the inmate to speak with anyone from a non-Sheriff's Department vendor, the inmate shall receive permission from security personnel, and security personnel shall be present
- All trucks and cargo containers shall be inspected by the laundry security staff prior to leaving the laundry facility
 - The trucks and containers shall be inspected for inmates and contraband at the front loading dock
- Once the truck has cleared inspection, a padlock and a **green** cargo truck seal shall be placed on the latch locking mechanism by security personnel
 - An intact green seal indicates the truck is clear to leave the facility
- Prior to letting a truck leave the facility, the security gate personnel shall inspect the cargo seal and ensure it has not been tampered with or removed
 - The truck and container shall not be allowed to proceed until the truck and container are re-inspected by laundry security personnel
- Trucks and containers, which are not fully loaded and are left at the front dock between inmate work shifts, shall be inspected and sealed with a red cargo truck seal
- When the subsequent shift arrives at the laundry facility and a new inmate crew is ready to resume loading the containers, the red seal may be removed
- When not being actively loaded, all truck cargo containers shall be secured with a padlock

Laundry Warehouse

- The warehouse security person shall remain with all delivery vehicles that are at the dock for less than two hours
- For large deliveries or pick-ups, the security person should remain with the vehicle as much as possible to ensure the inmates only assist the warehouse workers in the loading/unloading of the vehicles, and that there is no contact between the vehicle's occupants and the inmates
- A count of all the inmates shall be completed prior to any vehicle leaving the warehouse
 - This count shall be recorded

- This count can be in concert with the standard hourly counts, but the purpose of this count is to ensure all inmates are accounted for prior to any vehicle leaving the facility
- Since there is a relatively small number of inmates assigned to the warehouse, this should not delay the warehouse operations
- If at any time there is a discrepancy with the count at the warehouse or laundry facility's main control, the laundry's front gate security person and a supervisor shall be immediately notified and no vehicles shall be allowed to leave the facility
 - If the count discrepancy is not quickly resolved, the South Facility watch commander shall be immediately notified and advised of a possible escaped inmate, and that escape procedures should be put into effect
 - The laundry supervisor shall ensure that any/all vehicles which recently left the facility shall be recalled back
 - These vehicles, and those still present at the laundry facility and warehouse, shall be unloaded and searched inside and outside upon their arrival
 - The use of a vehicle search mirror shall be utilized to assist in the outside searching of these vehicles
- Deviations from this directive shall only occur with the concurrence of the laundry supervisors

SECURITY AND SAFETY CHECKS

All personnel are responsible for conducting safety and security checks of their assigned work locations throughout their shifts. If safety or security hazards are identified, personnel shall take appropriate action to ensure the security and safety of other employees and inmates. All identified safety and security issues shall immediately be reported to the supervising line deputy (senior), or sergeant. All issues will be corrected before inmates will be allowed to return to work.

The supervising line deputy will conduct a security inspection during each shift. The supervising line deputy will complete a Perimeter and Facility Security Check form and document their observations at the completion of the inspection.

Video audits will be conducted by the sergeant or supervising line deputy. One audit of a random work station will be completed each shift and recorded on the Video Audit Log.

CHEMICAL DELIVERY AND SAFETY PROCEDURES

When a chemical delivery arrives personnel shall block the roadway adjacent to the fire hydrant and pedestrian gate with cones and advise the PDC main gate operator to direct all incoming vehicles to the roadway on the south side of the laundry.

Chemicals will be received by at least one member of the management team (laundry manager, assistant laundry manager, laundry supervisor III, sergeant, or senior deputy), and one WSD employee. Personnel shall inspect the delivery truck packing slip and attached delivery documents to verify that the chemicals are delivered are chemicals used by laundry services. If unsure of the chemical being delivered, contact the chemical company.

Personnel will circle and initial next to the name of the chemical and/or product name on the delivery

paperwork.

Prior to pumping, personnel will check the chemical lines for cracks or leaks.

Also prior to pumping, personnel will take a "stick" reading on the chemical tank to ascertain the current amount of chemical in the tank, and to ensure that the delivered load will not exceed the chemical tank capacity (Check tank capacity plaque).

Personnel shall ensure the truck driver connects the hose securely to the correct chemical valve by comparing the bill of lading to the chemical plaque mounted above the valve.

GREEN:		SOUR/SOFTENER		2200 gallon capacity
RED:		ALKALI		2200 gallon capacity
BLUE:		DETERGENT		2200 gallon capacity
YELLOW:		HYDROGEN PEROXIDE		2000 gallon capacity

Personnel shall instruct the truck operator to start pumping the chemical once both groups agree the delivery hose is properly connected and connected to the correct valve.

Personnel shall go into the chemical room and monitor the tank to make sure that the chemical is pumping freely, and to monitor that the tank being filled does not overflow.

Any oddities, such as leaks, fumes, or damage to the containers, are to be reported immediately to WSD personnel.

Personnel shall take a second stick reading on the tank to ascertain the new tank level. This measurement will be used to determine how many gallons of chemical were actually delivered. Personnel shall ensure the gallons on the paperwork match the gallons on what was actually delivered, note any discrepancies on the bill of lading, and sign it. Personnel shall remain with the truck driver until the delivery is completed, and then secure the chemical delivery room door.

INMATE MEALS

Inmate meal breaks, on each shift, shall last forty five (45) minutes. The inmate meals shall be brought to the laundry facility from the ranch kitchen. All meal breaks shall be taken on the front loading dock and supervised by a minimum of four (4) security personnel and a supervisor.

AM Shift Meal: 1030 hrs — 1115 hrs

PM Shift Meal: 1700 hrs — 1745 hrs

Inmates shall not be allowed to take food to their work stations. Personnel shall ensure all food is consumed in the meal break area.

SICK/PILL CALL

- Laundry personnel transporting sick/pill call inmates to South Facility shall advise the South Facility clinic deputy that the laundry inmates are en route to the clinic
- The clinic deputy shall clear the hallway of South Facility inmates
- Laundry personnel shall scan the laundry inmates with a metal detector wand and perform a cursory search to ensure they are not taking any contraband into South Facility
- The laundry inmates shall be transported from the laundry to South Facility gate #2
- Laundry personnel shall take the inmates into South Facility and stage them in the sally port
 - They shall ensure there are no South Facility inmates in the hallway
- The laundry inmates shall be taken into the hallway.
- The clinic deputy shall ensure the laundry inmates are processed upon their arrival
- Laundry personnel shall not leave the laundry inmates unsupervised for ANY reason while inside the South Facility
- Laundry personnel shall not go into the desk area, use the restroom, use the phone, etc.
- After receiving their pill/sick call, the laundry inmates shall be transported back to the laundry facility.
- South David shall be notified of any inmates who will remain at South Facility and not be transported back to the laundry facility.

FACILITY MAINTENANCE AND CLEANING

Security personnel are responsible for maintaining a clean and functional work station. Personnel shall identify any cleaning or maintenance issues in their assigned work stations and take the appropriate corrective actions to remedy the issues.

Maintenance requests shall be coordinated through the laundry main control and documented in the Laundry Facility Log.

!

SCOPE OF ORDER:-

This order applies to all personnel assigned to, and working at PDC South Facility and PDC ranch.

!

ORDER:

A "drone incursion" is defined as the presence of an unidentified, foreign, remotely controlled drone, within visible proximity of the PDC ranch.

Documented uses of emerging drone technology shows that drones can be criminally utilized in a variety of ways that affect the security of jail facilities.

Possible criminal activities that can be accomplished using drones may include but not be limited to the following:[REDACTED TEXT]

[REDACTED TEXT]

In the event of a drone incursion, the following procedures shall be followed:

 - He shall continue to relay, over the radio, his position and his available resources.
- One of the remaining Adam units shall immediately conduct a systematic search for the drone's operator— which could be over a half-mile radius (in most cases the operator will be close enough to maintain sight of the drone):
- If the drone operator is located, the Adam unit shall notify South David of the operator's location, request assistance, and detain the suspect pending a criminal investigation (this may occur while the drone is still airborne).
- Personnel shall continually monitor the drone until it lands.
- If there is any appearance or indication of an attached explosive device, personnel shall:[REDACTED TEXT]

Documentation, tutorials and helpful documents regarding the use of the digital video camera can be found in the "Sergeant's Resource" book, located in the watch sergeant's office.

MAINTENANCE

The armory sergeant will be responsible for the routine maintenance and inspection of the video recording equipment.

The batteries shall be kept charged and checked by the watch sergeant daily. The video cameras assigned to each compound are equipped with USB charging cables that are attached to the individual cameras. The cameras shall be charged by compound personnel, by plugging the USB connection into the Intermec scanner docking station USB port.

Blank, recordable disc's and storage containers will be maintained and available at all times along with the camera.

RESPONSIBILITY

The watch sergeant shall assign a deputy or custody assistant who is trained in the use of the video camera to respond to any inmate incident that is likely to be of a significant nature.

The training sergeant is responsible for training a sufficient number of personnel on each shift in the use and maintenance of the camera equipment.

PURPOSE

Reasonable attempts shall be made to document all significant incidents on video, including, but not limited to the following:

- Inmate disturbances
- Cell extractions
- Recalcitrant inmates
- Application of restraints
- Medical removals which pose a significant risk or have the potential to become violent, except under unusual circumstances (e.g., when an inmate poses a significant risk or threat of becoming violent or resistive)
- Recording need not be continued during inmate transport via ambulance, or in an outside medical facility, or when medical treatment is administered by other agencies or departments
- Force or escape investigations
- Housing area or facility searches
- Any incident/event which may pose risk management and/or liability issues
- All Emergency Response Team (ERT) activations, except for training

TACTICAL PROCEDURES AND USE

The deputy or custody assistant assigned to the video equipment should respond, at the direction of the Watch Sergeant, to the area where the incident is reported. The sergeant shall have direct supervision of the video deputy/officer during the incident at the direction of the incident commander.

The video operator shall record any incident, area or person they are directed to by the incident commander. All taping shall be in accordance with procedures set forth in the Custody Division Manual (CDM) section 7-06/010.00 "Video Recording Procedures." Of particular importance, personnel should note:

- Recording should begin with a wide angle field of view.
- The video operator shall state the date, time, their name, rank, employee number, location, and give a factual narrative during the incident (e.g., "watch commander is on scene").
- Any opinions or unprofessional comments shall not be made while recording. All narrative should be factual information only.
- Once recording has begun, it shall not be paused or stopped until the entire incident has been brought to completion.
- If a battery has to be changed, the video operator shall re-introduce his name, rank, and employee number, time and state the reason for the interruption in recording.
- Because the dynamics of an incident are constantly changing, the video operator should periodically pan around the entire area of the incident. Documentation should show as much of the incident surroundings as possible, including personnel who were present. Additionally, the video operator should attempt to record conversations between inmates and staff.

POST-INCIDENT

A debriefing should be held as soon as possible after the incident. The video should be reviewed by the Incident Commander and available supervisory personnel for training value, use of equipment and tactical considerations.

A disc will be forwarded to the Training Sergeant for further evaluation. The Training Sergeant will be responsible for maintaining the discs and a log listing all of the discs available for in-service training.

PURPOSE OF ORDER:

The purpose of this order is to outline the responsibilities of custody personnel in establish procedures for preliminary investigations and crime scene containments, and to give a working definition of the terms “crime scene” and “crime scene containment.”

-

SCOPE OF ORDER:

This order applies to all personnel assigned to, and working at Pitchess Detention Center (PDC) South Facility.

-

ORDER:

Custody personnel responding to any incident, shall assume the responsibility for preliminary investigation.

Officer safety should shall not be compromised when determining how an incident will be handled.

The initial responding personnel shall be responsible for determining, protecting and preserving the crime scene until relieved by the proper authority such as special investigations, arson or homicide detectives. A Major Incident Log (SH-CR-620) shall be initiated and maintained until all Department personnel have left the scene and the containment is discontinued. This log can also be useful in establishing a chain-of-evidence.

Preserving a crime scene is to restrict access to anyone not having an official reason for entering the area of the crime scene.

A large crime scene can always be reduced, but evidence destroyed outside a protected area crime scene, which was too small, can never be recovered.

Responding personnel should assess the incident/crime to ensure it is safe to enter. A safe path of approach shall be made for assisting personnel (e.g., supervisors, paramedics or medical staff, etc.) entering the crime scene or event perimeter. Person(s) injured Injured persons should be triaged accordingly. Every person entering the scene of the incident/crime shall be documented on the Major Incident Log.

It is imperative for the initial responding personnel to quickly determine if possible suspects(s) are present. If they are suspects are present, the responding personnel must coordinate the actions

necessary to locate, contain, detain or arrest them. Initial responding personnel also need to quickly identify and interview witnesses related to the crime.

There is a danger that responding personnel may not identify a type of response as having a need for scene protection. For example, the scene of a homicide is an obvious crime scene which must be protected and preserved, but, the certainty for establishing crime scene management in the homicide is not found in the average response to a man-down call in a dorm or barrack. There is, however, the possibility that the man-down call could turn into a homicide investigation even if the inmate were to die of apparent natural causes. The deputy responding to any incident should always be cognizant of the "worst case scenario" and not be satisfied with what is presented as the "obvious" in any incident.

During a response, personnel could fail to identify a crime scene. For example, personnel may respond to an unconscious inmate and consider it a simple "man down" scene rather than a crime scene. There is the possibility that an apparent "man down" turns out to be a homicide even if the inmate died of seemingly natural causes later. Responding personnel shall be cognizant of the "worst case scenario" in any incident.

A preliminary investigation may involve photographs of the entire scene, a sketch of the scene and a collection of evidence. The preliminary investigation may also lead to the establishment of a secondary crime scene (homicide scene preservation).

There are several references for crime scene management and preservation: Section 5-09/470.00 of the Manual of Policy and Procedures; LASD Newsletter #80 and #94, "Crime Scene Secondary Perimeter Containment"; and Field Operations Directive 93-7, "Handling of Crime Scene Involving a Person Dead and an Unruly or Hostile Crowd."
