3-05-010 Security Alarm System

Effective Date: 09-04-97

Revision Date: 10-31-16

Review Date: 10-31-18

PURPOSE OF ORDER:

The purpose of this order is to establish guidelines for the operation and maintenance of the facility's security alarm system which is based on a Taut Wire Intrusion Detection System, integrated with cameras and a Computerized Control Center.

SCOPE OF ORDER:

This order applies to all personnel assigned to, and working at Pitchess Detention Center (PDC) South Facility.

ORDER:

THEORY OF OPERATION

There are 24 cameras located around the fence line at PDC South Facility, which work in conjunction with the taut wire (barbed wire) system. The taut wire provides both a physical barrier and intrusion sensing system. The fence is divided into 16 zones (sectors) with multiple horizontal taut wires, each connected to a sensor. The sensors and the sensors' interwiring are assembled within the sensor post, which is installed halfway between two anchor posts. Each sensor post has a cover concealing a micro-switch, which is activated upon removal of the cover. The anchor post secures the ends and carries the tension loads of the taut wire. The anchor posts have breakaway tabs to prevent climbing over the posts without activating the alarm.

A multi-conductor cable, which hangs freely along the system's posts, links all the sensor posts to the control unit. Each conductor is connected to a designated zone and the interconnections are carried out in the sensor post.

An attempted intrusion, tampering with the system, cut or deflection of the taut wire will immediately triggers the alarm at the control unit.

Review Date: 10-27-18

PURPOSE OF ORDER:

The purpose of this order is to establish standard procedures for the proper use and security of the facility compound gates.

SCOPE OF ORDER:

This order shall apply to all personnel assigned to, and working at Pitchess Detention Center (PDC) South Facility.

ORDER:

PDC South Facility is comprised of twenty two (22) barracks, separated into seven (7) compounds by security fences and gates. The interior security gates and fences serve to separate housed inmates into manageable groups, in order to isolate problems should a disturbance occur within the facility.

The gates between compounds are commonly known as “slam” gates. These gates are designed to close and lock upon being pushed closed. The only means of opening the gates, once closed, are with the appropriate key.

All interior compound gates shall be kept in the closed and locked position at all times when not being traversed by inmates or staff. Once traversed, the gate(s) shall be immediately secured by the personnel allowing for access through it. Additionally, at no time, will personnel advise or allow inmates to open, close or hold the gates.

During times, such as the evening inmate meal, the compound gates will need to be left open for an extended period of time. During that time, designated personnel shall remain close enough to the gate to be able to immediately close the gate. This will prevent the inmates from gaining control of the gate(s) and/or to isolate a problem. Personnel should be positioned no further than 10 feet away from the open gate in order to ensure the gate can be secured immediately.

Gates shall never be locked or secured in an open position, in such a manner as to prevent the gate from being immediately shut and locked.

PURPOSE OF ORDER:

The purpose of this order is to establish guidelines and procedures for the distribution and collection of various work tools used by inmates at Pitchess Detention Center (PDC) South Facility.

SCOPE OF ORDER:

This order applies to all personnel assigned to, and working at PDC South Facility who supervise inmate work crews that utilize various culinary, gardening, and hand tools.

ORDER:

A major concern at PDC South facility is the distribution and control of tools accessible to inmates. One method to minimize the threat of tapering or the loss of tools is to inventory all tools, followed by a stringent checkout and return procedure, and completed by a thorough search of the inmates to whom tools are issued.

Culinary tools are secured in a locked cabinet located in the PDC ranch kitchen/officer's dining room (ODR) security office and the PDC South Facility kitchen/inmate dining room (IDR) security office. All tools are placed on a shadow board, with the exception of knives. Knives at the PDC ranch ODR are locked in designated slots. All culinary tools are individually marked for identification and their location inside the cabinet is similarly marked.

At the start and end of each shift, ODR and IDR security personnel shall inventory each tool and log the inventory in the security office log book. ODR and IDR security personnel shall account for the kitchen key blocks at the beginning and end of each shift. At the beginning of the shift, the PDC South Facility main control desk (David) personnel shall account for all kitchen keys.

Gardening tools are secured in a cargo container and placed on racks marked for the designated tool. The tools are individually marked for identification and signs above the racks indicate the placement of shovels, hoes, rakes, and pickaxes. Gardening tools shall be issued to "inside worker" inmates by the PDC South Facility maintenance officer and recorded on a checkout sheet which is located on a board inside the container.

Hand tools for maintenance and building shall be secured inside a cargo container and placed on shadow boards. The tools will be individually marked for identification and their location on the shadow board similarly marked. Hand tools shall be issued to "inside worker" inmates by the PDC South Facility maintenance officer and recorded on a checkout sheet located on a board inside the container.

Facilities Services Bureau (FSB) maintenance workers shall keep their tools in locked containers located in the secured, fenced-in area between Barrack 30 and Barrack 31. All tools shall be accounted for, and documented on an inventory list located in the locked containers. Any tools needed for maintenance are to be checked out and checked back in, and documented on a paper log located in the locked containers.

Any non-PDC FSB maintenance workers or independent contracted repair workers entering PDC South Facility shall be responsible for maintaining a list of tools they bring into the facility. This list shall contain a documentation of all their tool inventory and be in their possession while they are inside security. Once maintenance or repair work is completed, the FSB maintenance worker or independent contracted repair worker shall be responsible for accounting for their own tools and insuring none are left behind or unsecured. PDC South David personnel allowing entry to any maintenance workers or contracted repair workers shall ensure they have a current tool inventory list in their possession at that time. Upon completion of their task, maintenance workers shall check in with South David personnel to verify all tools are accounted for.

PDC South Facility personnel working in any area where maintenance or repair work was performed, shall conduct a visual check of the area and immediately notify the watch sergeant if any missing or unsecured tools are recovered after maintenance or repair work is completed.

Tools that are removed for repair or replacement shall be documented on their respective inventory lists. The watch sergeant shall be notified immediately if a tool is missing or unaccounted for.

Any and all tools needed by an inmate work crew shall be issued by the deputy or custody assistant (CA) who supervise the work crew and the issuance of all tools shall be recorded on a checkout sheet. Once the inmates have completed their work, all tools shall be accounted for, inspected, checked in and secured.

DOCKING UPLOADING THE SCANNERS SCANS

Currently, there are two ways to synchronize (dock) the scanners. The first method is to use the docking cradles located in the IPA, Eddie Compound Trailer or the Report Writing room.

The iPod will be synchronized, and the scans will upload when the user walks into a Wi-Fi "hotspot" (an area where there is a strong Wi-Fi signal).

The second method to synchronize the scanner by standing near a WIFI antenna positioned on the roof of the South Clinic. To verify the scanner iPod is synchronizing, the Title 15 deputy shall:

 - No pending uploads is denoted by green text followed by a zero (Pending Uploads: 0)
 - Pending uploads is denoted by red text followed by some number (Pending Uploads: 20)
- If the user is in an area with a Wi-Fi signal and the pending uploads do not clear, reboot the iPod using the following steps:
 - Depress the power button (right hand side on top) and home button (bottom, middle on front) simultaneously until the device shuts off
 - Wait several seconds up to a minute and turn device back on using the power button
 - Check the "Title 15 Checks" section to verify if pending scans cleared
 - If scans did not clear, or only partially cleared, repeat the reboot process

A complete tutorial on how to dock the scanners is located on the South Facility Intranet page, under the Procedures link.

PROBLEMS WITH SCANNER IPOD

If a Title 15 scanner an iPod is not in use due to equipment/network failure, department members from the respective area the Title 15 deputy from the compound experiencing the problem shall:

- Attempt to troubleshoot using the reboot steps listed above
- Immediately notify a sergeant if the problem is not fixed using reboot steps

- Borrow a neighboring compound's iPod to complete the safety checks
- Submit a request through the Title 15 Support Website via the intranet, Custody Information Portal or by using the following web address: <http://4-web-apps01/Title15//ReportProblem.aspx>
- Return iPod to operations and exchange for an alternate iPod, if available

If there are no available scanners, department members shall still conduct security checks and properly record them in the UDAL. If the Title 15 scanner is unavailable for more than a 24 hour period, notification shall be made to the watch commander and entered into the facility log. If a Title 15 scanner an iPod becomes

PURPOSE OF ORDER:

The purposed of this order is to establish guidelines and procedures for security at the Pitchess Detention

Center (PDC) laundry facility.

-

SCOPE OF ORDER:

This order applies to all personnel assigned to, and working at the PDC laundry facility.

-

ORDER:

The overall operation and staffing of the PDC laundry facility is under the command and control of PDC South. All other South Facility unit orders and policies apply to personnel assigned to the laundry facility.

STAFFING

The laundry facility is staffed by both custody assistants (CA) and deputies. Personnel are assigned to the laundry facility by the PDC South scheduling office.

In the event there is insufficient staffing at the laundry facility due to sick call-ins or scheduled time off, personnel from the line at PDC South Facility may be temporarily assigned to work there.

GENERAL FACILITY SECURITY

All personnel assigned to the laundry facility are responsible for the security and operation of the facility. Each employee assigned to the laundry facility shall familiarize themselves with the laundry facility unit orders, duty statements and emergency procedures.

South Facility personnel assigned to work at the laundry facility are responsible for supervising and monitoring the inmates assigned to work at the laundry facility. Personnel shall, at all times, know the location and status of each inmate assigned to their work location. Personnel will update and shall keep an accurate roster of the inmates assigned to their work location.

All incidents involving violations of "roaming" and "out of bounds," which takes place outside the walls of the laundry operation (e.g., rear dock, front dock, roadways, etc.), shall be reported to a supervisor. The supervisor will decide whether discipline is warranted.

All inmate movement between work stations, within the laundry facility and between facilities, will be coordinated through the laundry facility's main control.

VEHICLE SECURITY

Numerous county and non-Sheriff's Department vendor vehicles enter and exit the laundry facility on a daily basis. As a means to prevent the possible escape of inmates, the following procedures shall be followed:

Main Laundry

- When a non-Sheriff's Department vendor arrives at the front gate of the laundry facility, the security gate person shall alert the laundry dock security personnel and laundry senior deputy (or another on-duty supervisor) that there is a vendor vehicle preparing to come through the gate
 - The supervisor will ensure there are two security personnel on the dock to receive the vehicle before it arrives at the dock, and the supervisor will inform the security gate person to allow the vehicle to enter
- There shall be at least two security personnel (deputy or CA) on the front dock if there is any vehicle being loaded or unloaded, or if there are any inmates present on the dock
 - If there is a non-Sheriff's Department vendor vehicle at the front dock, at least one (1) security person shall remain with the vehicle at all times until it is secured and driven out of the facility
 - The other security person shall monitor the general front dock activity to ensure no inmates enter the vehicle, or assist the driver
 - Inmates shall not assist non-Sheriff's Department vendors with the loading or unloading of their vehicles, nor shall inmates converse or have any other contact with non-Sheriff's Department drivers/passengers
 - If there is a need for the inmate to speak with anyone from a non-Sheriff's Department vendor, the inmate shall receive permission from security personnel, and security personnel shall be present
- All trucks and cargo containers shall be inspected by the laundry security staff prior to leaving the laundry facility
 - The trucks and containers shall be inspected for inmates and contraband at the front loading dock
- Once the truck has cleared inspection, a padlock and a **green** cargo truck seal shall be placed on the latch locking mechanism by security personnel
 - An intact green seal indicates the truck is clear to leave the facility
- Prior to letting a truck leave the facility, the security gate personnel shall inspect the cargo seal and ensure it has not been tampered with or removed
 - The truck and container shall not be allowed to proceed until the truck and container are re-inspected by laundry security personnel
- Trucks and containers, which are not fully loaded and are left at the front dock between inmate work shifts, shall be inspected and sealed with a red cargo truck seal
- When the subsequent shift arrives at the laundry facility and a new inmate crew is ready to resume loading the containers, the red seal may be removed
- When not being actively loaded, all truck cargo containers shall be secured with a padlock

Laundry Warehouse

- The warehouse security person shall remain with all delivery vehicles that are at the dock for less than two hours
- For large deliveries or pick-ups, the security person should remain with the vehicle as much as possible to ensure the inmates only assist the warehouse workers in the loading/unloading of the vehicles, and that there is no contact between the vehicle's occupants and the inmates
- A count of all the inmates shall be completed prior to any vehicle leaving the warehouse
 - This count shall be recorded

- This count can be in concert with the standard hourly counts, but the purpose of this count is to ensure all inmates are accounted for prior to any vehicle leaving the facility
- Since there is a relatively small number of inmates assigned to the warehouse, this should not delay the warehouse operations
- If at any time there is a discrepancy with the count at the warehouse or laundry facility's main control, the laundry's front gate security person and a supervisor shall be immediately notified and no vehicles shall be allowed to leave the facility
 - If the count discrepancy is not quickly resolved, the South Facility watch commander shall be immediately notified and advised of a possible escaped inmate, and that escape procedures should be put into effect
 - The laundry supervisor shall ensure that any/all vehicles which recently left the facility shall be recalled back
 - These vehicles, and those still present at the laundry facility and warehouse, shall be unloaded and searched inside and outside upon their arrival
 - The use of a vehicle search mirror shall be utilized to assist in the outside searching of these vehicles
- Deviations from this directive shall only occur with the concurrence of the laundry supervisors

SECURITY AND SAFETY CHECKS

All personnel are responsible for conducting safety and security checks of their assigned work locations throughout their shifts. If safety or security hazards are identified, personnel shall take appropriate action to ensure the security and safety of other employees and inmates. All identified safety and security issues shall immediately be reported to the supervising line deputy (senior), or sergeant. All issues will be corrected before inmates will be allowed to return to work.

The supervising line deputy will conduct a security inspection during each shift. The supervising line deputy will complete a Perimeter and Facility Security Check form and document their observations at the completion of the inspection.

Video audits will be conducted by the sergeant or supervising line deputy. One audit of a random work station will be completed each shift and recorded on the Video Audit Log.

CHEMICAL DELIVERY AND SAFETY PROCEDURES

When a chemical delivery arrives personnel shall block the roadway adjacent to the fire hydrant and pedestrian gate with cones and advise the PDC main gate operator to direct all incoming vehicles to the roadway on the south side of the laundry.

Chemicals will be received by at least one member of the management team (laundry manager, assistant laundry manager, laundry supervisor III, sergeant, or senior deputy), and one WSD employee. Personnel shall inspect the delivery truck packing slip and attached delivery documents to verify that the chemicals are delivered are chemicals used by laundry services. If unsure of the chemical being delivered, contact the chemical company.

Personnel will circle and initial next to the name of the chemical and/or product name on the delivery

paperwork.

Prior to pumping, personnel will check the chemical lines for cracks or leaks.

Also prior to pumping, personnel will take a "stick" reading on the chemical tank to ascertain the current amount of chemical in the tank, and to ensure that the delivered load will not exceed the chemical tank capacity (Check tank capacity plaque).

Personnel shall ensure the truck driver connects the hose securely to the correct chemical valve by comparing the bill of lading to the chemical plaque mounted above the valve.

GREEN:		SOUR/SOFTENER		2200 gallon capacity
RED:		ALKALI		2200 gallon capacity
BLUE:		DETERGENT		2200 gallon capacity
YELLOW:		HYDROGEN PEROXIDE		2000 gallon capacity

Personnel shall instruct the truck operator to start pumping the chemical once both groups agree the delivery hose is properly connected and connected to the correct valve.

Personnel shall go into the chemical room and monitor the tank to make sure that the chemical is pumping freely, and to monitor that the tank being filled does not overflow.

Any oddities, such as leaks, fumes, or damage to the containers, are to be reported immediately to WSD personnel.

Personnel shall take a second stick reading on the tank to ascertain the new tank level. This measurement will be used to determine how many gallons of chemical were actually delivered. Personnel shall ensure the gallons on the paperwork match the gallons on what was actually delivered, note any discrepancies on the bill of lading, and sign it. Personnel shall remain with the truck driver until the delivery is completed, and then secure the chemical delivery room door.

INMATE MEALS

Inmate meal breaks, on each shift, shall last forty five (45) minutes. The inmate meals shall be brought to the laundry facility from the ranch kitchen. All meal breaks shall be taken on the front loading dock and supervised by a minimum of four (4) security personnel and a supervisor.

AM Shift Meal: 1030 hrs – 1115 hrs

PM Shift Meal: 1700 hrs – 1745 hrs

Inmates shall not be allowed to take food to their work stations. Personnel shall ensure all food is consumed in the meal break area.

SICK/PILL CALL

- Laundry personnel transporting sick/pill call inmates to South Facility shall advise the South Facility clinic deputy that the laundry inmates are en route to the clinic
- The clinic deputy shall clear the hallway of South Facility inmates
- Laundry personnel shall scan the laundry inmates with a metal detector wand and perform a cursory search to ensure they are not taking any contraband into South Facility
- The laundry inmates shall be transported from the laundry to South Facility gate #2
- Laundry personnel shall take the inmates into South Facility and stage them in the sally port
 - They shall ensure there are no South Facility inmates in the hallway
- The laundry inmates shall be taken into the hallway.
- The clinic deputy shall ensure the laundry inmates are processed upon their arrival
- Laundry personnel shall not leave the laundry inmates unsupervised for ANY reason while inside the South Facility
- Laundry personnel shall not go into the desk area, use the restroom, use the phone, etc.
- After receiving their pill/sick call, the laundry inmates shall be transported back to the laundry facility.
- South David shall be notified of any inmates who will remain at South Facility and not be transported back to the laundry facility.

FACILITY MAINTENANCE AND CLEANING

Security personnel are responsible for maintaining a clean and functional work station. Personnel shall identify any cleaning or maintenance issues in their assigned work stations and take the appropriate corrective actions to remedy the issues.

Maintenance requests shall be coordinated through the laundry main control and documented in the Laundry Facility Log.

PURPOSE OF ORDER:

The purpose of this order is to establish guidelines for personnel responses to an unauthorized drone operating on the Pitchess Detention Center (PDC) property, within proximity to PDC South Facility or any PDC ranch area where inmates have access.

!

SCOPE OF ORDER:

This order applies to all personnel assigned to, and working at PDC South Facility and PDC ranch.

!

ORDER:

A "drone incursion" is defined as the presence of an unidentified, foreign, remotely controlled drone, within visible proximity of the PDC ranch.

Documented uses of emerging drone technology shows that drones can be criminally utilized in a variety of ways that affect the security of jail facilities.

Possible criminal activities that can be accomplished using drones may include but not be limited to the following:[REDACTED TEXT]

[REDACTED TEXT]

In the event of a drone incursion, the following procedures shall be followed:

- Personnel initially spotting the drone shall immediately notify South Facility main control (David), noting its description, contraband contents (if visible), and direction of flight (every effort needs to be made to keep the drone in sight for updated position reporting).
- Video record (or assign someone to video record) the drone while still in flight, and upon recovery.
- South David personnel shall direct an immediate full lockdown of the facility
 - Time permitting, all inmates shall be locked down indoors [REDACTED TEXT]
- South David shall notify the following Sheriff's Department (or other) units in the immediate area that could be affected, or that may be available to assist:[REDACTED TEXT]
- The watch commander shall respond to an appropriate location to assume operational command of the incident.
- The watch commander will direct South David personnel to relay the type of defensive measures that shall be employed and where resources are to be deployed.[REDACTED TEXT]

- The ERT should be divided into two (2) equally equipped squads and positioned as a secondary, inner-perimeter defense within the facility (one squad can be positioned to defend the upper compounds, and the second can be staged to defend the lower compounds).
- The watch commander shall direct involved personnel to either continue to monitor the drone, or attempt to disable and intercept it.
- The closest available Adam unit will respond and position himself in the best location to monitor the drone in flight, and respond to the drone if it lands.
 - He shall continue to relay, over the radio, his position and his available resources.
- One of the remaining Adam units shall immediately conduct a systematic search for the drone's operator—which could be over a half-mile radius (in most cases the operator will be close enough to maintain sight of the drone).
- If the drone operator is located, the Adam unit shall notify South David of the operator's location, request assistance, and detain the suspect pending a criminal investigation (this may occur while the drone is still airborne).
- Personnel shall continually monitor the drone until it lands.
- If there is any appearance or indication of an attached explosive device, personnel shall:[REDACTED TEXT]
- Once a drone is on the ground, and deemed safe, personnel shall immediately take control of it and prevent it from resuming flight.[REDACTED TEXT]
- Personnel shall preserve and secure the landing site as a crime scene making sure to note any debris and contraband that may have scattered in the case of a hard landing or faulty attachment.
- Personnel shall photograph the drone in its original state, with any contraband still attached, prior to handling.
 - All physical, video and photographic evidence shall be booked into the Property Evidence Laboratory Information Management System (PRELIMS) database (consider booking all physical evidence "hold for prints").
- After a drone incursion, the watch commander and/or watch sergeant shall ensure all documentation and subsequent reports are completed including:
 - Chief's memorandum
 - Operations Incident Log
 - Incident Report (SH-R-49)
 - Proper handling and booking of evidence
- The watch commander shall also ensure all applicable department notifications are made, including:

PURPOSE OF ORDER:

The purpose of this order is to establish restrictions on the recreational use of commercially available drones on the Pitchess Detention Center (PDC) ranch property.

SCOPE OF ORDER:

This order applies to all employees, civilians and contractors who are authorized to enter PDC ranch property.

ORDER:

The PDC ranch is [REDACTED TEXT] home to four secure jail facilities and many other Custody Division units. Due to growing security threats to jails and custody facilities from emerging technologies, and actual reported cases of contraband smuggling, the recreational use of drones or remotely piloted unmanned aerial vehicles is strictly prohibited anywhere on PDC property.

When an unexpected, unauthorized drone is seen hovering near a PDC jail facility, security

personnel shall immediately initiate a facility lockdown and drone incursion response pursuant to South Facility unit order 3-05-200, Drone Incursions.

If tactical training with a drone is planned for official County business where an exception to this policy is required, prior permission must be obtained in writing from the PDC ranch field crew lieutenant. An email shall be sent to [REDACTED TEXT] (PDC ALL UNITS, ALL PERSONNEL) notifying personnel of the drone usage. Notification must also be made the day of the event with the on-duty PDC South watch commander.
