Unit Orders are promulgated to provide unit personnel with a clear understanding of the expected actions and behavior deemed necessary for the proper function of the unit. Any conflict that may arise between these orders and Departmental Orders, Directives, Procedures, etc., shall be resolved in favor of Departmental dictates.

Each Unit Order will indicate a Unit Order number, subject, title, and date initiated. Unit Orders' numbers are broken down into two parts: General Category and Subject Heading.

For example:

Unit Order 10/01

"10" General Category (in this case, Administrative Procedures)

"01" Subject Heading (in this case, "Unit Orders" as indicated in the Table of Contents)

The purpose of the order will be stated unless obvious in the reading.

Unit Orders will be maintained on the unit's shared file under "Admin" in the folder "Unit Orders." Two hard

copies will be available for staff to read. One will be located in the Unit Commander's office and the other will be in the Conference Room. In addition, each new Unit Order will be distributed as follows: Unit Commander, all supervisors, bulletin boards, and briefing during staff meetings.

Collateral duties will be shifted periodically and specific staff assignments will be indicated in a staff meeting.

The Unit Commander will sign his name in the space provided on the overtime slip labeled “supervisor pre-approving o.t. and briefing.” The approving supervisor shall review all overtime slips to ensure accuracy.

Minimum Staffing

In an attempt to avoid all unnecessary overtime, each supervisor needs to be cognizant of staffing levels for their sections. The minimum staffing levels for acceptable service should act as a general guideline for each supervisor to assess their manpower requirements. Staffing levels should be evaluated by the Unit Commander based upon level of service to be maintained, anticipated workload, and the manpower available. The Unit Commander shall have discretion to approve overtime for additional personnel to provide required services in the accomplishment of Department objectives. Additionally, the Unit Commander may allow staffing levels to fall below minimum by allowing personnel time off if he deems it appropriate.

Where appropriate the supervisors shall use staff from other sections for planned vacancies to minimize the use of overtime.

• • 40/02 Telephone Courtesy and Demeanor

Subject: Telephone Courtesy and Demeanor

Establishing and maintaining good public relations shall be a primary concern of all Department members handling telephone calls. Proper telephone demeanor is a must.

Telephone courtesy consists not so much in what a person says, but how he says it. It is possible to be merely civil without being courteous. Courtesy, as it applies to law enforcement, is the essence of, and the key to, good public relations. It is an integral and vital tool in obtaining, for the law enforcement profession, the acceptance and respect of the public which are so essential.

With the majority of people, their telephone call to the Sheriff's Department may be their first official contact with law enforcement. The tone of voice they hear can make or break a public relations program.

Telephone contacts warrant special consideration since the person calling, cannot see you, your smile, or facial expression.

There are five basic qualities to a good telephone voice. They are:

1. Alertness - You should give the impression you are wide awake, and interested in the person calling.
2. Pleasantness - Build a pleasant Departmental image with a pleasant voice.
3. Naturalness - Use simple, straightforward language. Avoid repetition of mechanical word or phrases; particularly, avoid slang terms.
4. Distinctness - Speak clearly and distinctly. Talk directly into the transmitter.
5. Expressiveness - A well-modulated voice is carried best over the telephone. Use a normal tone of voice and talk at a moderate rate. Vary the tone of your voice - it will add meaning to what you say.

With the foregoing in mind, the following procedures will be adhered to:

1. Answer the telephone as promptly as possible (Central Supply and Logistics, this is **your name**, can I help you)
2. Use the caller's name
3. Treat every call as an important one

4. Be tactful when it is necessary to refuse a request
5. Apologize for errors or delays
6. Take time to be helpful
7. Say “please”, “thank you”, and “you’re welcome”
8. When finished, hang up gently

If you must put a person on “hold”, explain the reason, then get back to him as soon as possible. If you answer the call and the caller asks for a specific detail or someone by name, state, “Just a moment, I’ll ring.” or “I’ll page.” If you are unable to contact the person/detail requested, get back to the caller as soon as possible and offer to take a message. Don’t automatically advise people they will have to call back, as they may be returning a call at our request.

Personnel not assigned to the Logistics area, but in the Logistics area, shall assist in answering the telephones when the Logistics personnel are busy with other calls and related Department business. This is to ensure that there are no undue delays in answering calls.

Personnel being paged regarding an incoming telephone call shall make every effort to answer the call as promptly as possible.

If you answer every call as if you were on the other end, you will no doubt satisfy the Department regulations regarding telephone courtesy and at the same time win friends for the Sheriff’s Department.

Courtesy and responsiveness are an absolute “must” when dealing with our clientele over the telephone. Conveying the right amount of sincerity goes a long way toward boosting our image.
