• 01-02 Court Liaison Plan / e-Subpoena System

LOS ANGELES COUNTY SHERIFF'S DEPARTMENT
DETECTIVE DIVISION
FRAUD & CYBER CRIMES BUREAU

Bureau Order Number: 01-02

Subject: COURT LIAISON PLAN / E-SUBPOENA SYSTEM

Effective Date:	May 1, 2001	Last Date Revised	October 20, 2020
Date Reviewed:	October 20, 2020	Next Review Date:	October 20, 2021

PURPOSE

The purpose of this order is to outline the policies regarding subpoenas and court appearances by Bureau personnel.

Subpoenas

The Fraud & Cyber Crimes Bureau's subpoena process is as follows:

All subpoenas issued by the District Attorney will be distributed to and acknowledged by employees via the Sheriff's Data Network (SDN) mail system in accordance with Field Operations Directive 10-02 and appropriate Manual of Policy and Procedures sections.

Upon receiving an e-Subpoena, employees shall immediately open and acknowledge receipt of the electronic subpoena by clicking the appropriate ACKNOWLEDGE hyperlink.

Subpoenas not issued by the DA's office (i.e., Public Defender, another Judicial Agency, or Administrative Office) shall continue to be served via personal service of a paper original.

Personnel shall respond to a must appear subpoena or seek permission to be placed on call through the District Attorney's Office. Deputies placed on call shall be available to receive telephone calls and maintain a response time of one hour or less.

Courtroom Demeanor

Courtroom demeanor, including the quality of testimony given and the professional relationships developed with court officials, the District Attorney's Office, and others, has long been a priority of this Bureau. Courtroom demeanor, and the manner in which testimony is presented in court, are a subject which is taught to investigators during their initial indoctrination training.

COURT LIASON PLAN

Departmentally produced video training tapes concerning courtroom testimony are used to impart

this instruction. It is necessary to maintain courtroom demeanor discipline as part of our professional appearance and standards.

Dress Code

Personnel appearing in court are required to wear appropriate business attire or a Class A uniform, per Manual of Policy and Procedures section, 3-01/050.80, Grooming and Dress Standards and 3-01/050.95, Court

Cases.

Monitoring / Auditing of Performance

Fraud & Cyber Crimes Bureau personnel will be trained as to the Department's court appearance policy as outlined in Section 5-07/250.00, Criminal Subpoena and Court Appearances.

Periodically, each Bureau sergeant will monitor the courtroom testimony of at least one of his or her investigators. This monitoring shall be documented in a memorandum to the Team Lieutenant. Lieutenants shall ensure that the results of these reviews are included in the investigator's evaluation.

Court Overtime Management

All personnel shall adhere to the Department's goal of reducing court overtime to that which is essential to the successful prosecution of the criminal case. Personnel shall attempt to be placed on call when possible.

As a general rule, due to the flexible scheduling in place at the Fraud & Cyber Crimes Bureau, it is unlikely that any overtime will be generated as a result of court appearances.

However, if overtime should be incurred, a copy of the **court time stamped subpoena** must be attached to the overtime slip.

• 01-05 Overtime Usage and Tracking

LOS ANGELES COUNTY SHERIFF'S DEPARTMENT

DETECTIVE DIVISION

FRAUD & CYBER CRIMES BUREAU

Bureau Order Number: 01-05

Subject: OVERTIME USAGE AND TRACKING

Effective Date:	May 1, 2001	Last Date Revised	October 16, 2020
Date Reviewed:	October 20, 2020	Next Review Date:	October 20, 2021

PURPOSE

The purpose of this order is to provide guidance for the usage of overtime and the managerial responsibilities for tracking overtime expenditures incurred by Bureau personnel. These guidelines are intended to ensure the Bureau's strict compliance with Department regulations and assure the judicious use of overtime.

GUIDELINES

Bureau personnel shall not work overtime when their job can be performed during regular work hours. Investigators, and most first-line supervisors assigned to Fraud & Cyber Crimes Bureau, work a Flex 40 schedule, a 9-80 schedule or a 4-10 schedule. Each schedule shall be assigned to better manage their regular work hours and adjust their schedule to meet the needs of their investigations while keeping paid overtime at a minimum.

Approval for paid overtime shall be received from the team lieutenant prior to the overtime being worked. When an investigator or unit supervisor determines a need for overtime, the prior approval of the team lieutenant must be obtained. In the absence of the team lieutenant, the approval will be authorized by the Operations Lieutenant. The approving supervisor's name and the anticipated number of pre-approved overtime hours shall be noted on the overtime slip.

All operations which require the use of overtime will be carefully evaluated in terms of cost-effectiveness.

OVERTIME USAGE AND TRACKING

CALL-BACK OVERTIME

Bureau personnel who are called-back to work **after completing** their 40-hour work week will be compensated according to their applicable MOU.

However, the authorization to return back to work shall be approved by the team lieutenant or the team sergeant. Bureau personnel shall receive four hours of compensation for any call-back. This minimum applies whether or not the employee actually works a full four hours.

TRACKING OF OVERTIME USAGE

Various procedures will be utilized to measure the Bureau's effectiveness in managing overtime expenditures. They are prepared by the Bureau Operations timekeeping coordinator. They include:

- Weekly overtime report - This report reflects paid non-reimbursed and saved overtime worked by all Bureau personnel on a weekly basis. It is prepared for Detective Division headquarters for distribution to the executives.
 - Monthly overtime report - This report reflects both paid and saved overtime worked by all Bureau personnel for the month. This report reflects the current month's overtime, the year to date overtime, and compares these to the prior year's overtime.

• **01-09 Notifications**

LOS ANGELES COUNTY SHERIFF'S DEPARTMENT

DETECTIVE DIVISION

FRAUD & CYBER CRIMES BUREAU

Bureau Order Number: 01-09

Subject: NOTIFICATIONS

Effective Date:	May 1, 2001	Last Date Revised	October 20, 2020
Date Reviewed:	October 20, 2020	Next Review Date:	October 20, 2021

PURPOSE

The purpose of this order is to outline the procedures for making notifications for both routine and unusual or possible high profile events. The Units within Fraud & Cyber Crimes Bureau (FCCB), each of which have unique and diverse responsibilities, generate a myriad of complex investigations. Many of the activities of the personnel within the units require timely notifications to FCCB Operations in order to ensure a smooth working environment. Additionally, there are a number of notifications that have mandated time frames for completion and submission of the documentation. FCCB Operations is directly responsible for ensuring that the mandated time frames are met.

GUIDELINES

Because of the need for immediate communications, the reporting of unusual circumstances must be consistent throughout the Bureau. Therefore, the following events shall immediately be reported to FCCB Operations:

- Any media request or any investigation that might generate media interest.
- All Civil Claims, Claims for Damaged Property, Use of Force, Traffic Collisions, IOD's, or other risk management issues.

Ideally, e-mail communication provides the best process to document the events and provides the ability to forward the indicated documentation up the chain of command. However, when in the field, phone notifications are encouraged. If you are not sure if an incident should be reported or not, to error on the side of notification is recommended,

FILING SYNOPSIS

The intent of this part of the order is to highlight not only the accomplishments of our personnel and the complex financial cases we investigate, but also to communicate these significant investigations to the specific commands from which these cases were generated.

To that end, a Filing Synopsis should be written to capture those cases of significant interest. This brief synopsis should include cases of media interest, high dollar losses or unique financial crimes.

The intent of this synopsis is not to regenerate the entire investigation, but rather to provide a very brief note to station commanders, or designated personnel for cases that they or their contract cities would have an interest.

- **01-11 Work Schedules**

LOS ANGELES COUNTY SHERIFF'S DEPARTMENT

DETECTIVE DIVISION

FRAUD & CYBER CRIMES BUREAU

Bureau Order Number: 01-11

Subject: WORK SCHEDULES

Effective Date:	May 1, 2001	Last Date Revised	October 20, 2020
Date Reviewed:	October 20, 2020	Next Review Date:	October 20, 2021

PURPOSE

The purpose of this order is to clarify already established policy and procedures regarding work schedules. This order is not all-inclusive. It shall be the responsibility of all investigators and supervisors to be knowledgeable of all applicable Department rules and regulations regarding timekeeping.

GENERAL GUIDELINES

The purpose of allowing Fraud & Cyber Crimes Bureau personnel to work flex or modified work schedules are for the betterment of service to the citizens of Los Angeles County and/or the

Department.

All personnel shall, whether they are on a modified schedule or not, have a general work pattern of Monday through Friday during regular business hours.

Note: For example, if an investigator is on a flex schedule, his regular work pattern may be a 4/1 0 with Fridays off. Caseload requirements may force that employee to adjust his hours on any given week, but if no adjustments, they would work the 4/1 0 pattern.

All personnel shall be assigned a general work pattern by their direct supervisor. Any changes to this work pattern shall be pre-approved by their direct supervisor, or the team lieutenant if the direct supervisor is unavailable, unless an emergency prevents this. If a change in schedule is unavoidable due to an emergency, the employee shall notify their direct supervisor as soon as possible.

There are numerous timekeeping and Policy and Procedures Manual sections that deal with this issue. Here are a few Timekeeping policies that are applicable (this list is not all inclusive):

TK-01/003.55 Overtime and Adjusting Schedules

Employees who work flex schedules, including positions where starting and ending times vary due to requirements and commitments associated with the position shall not adjust their schedules for the purpose of working an overtime assignment. Schedule adjustments may be made to meet the needs of the Department, and if, doing so, the opportunity presents itself to work an overtime assignment, the employee may be permitted to do so with the approval of the employee's Unit Commander or Designee.

TK-01/003.60 Changing Work Schedules

Every schedule has an assigned code, which is called a Work Pattern. A work pattern is determined by considering all aspects of an assigned schedule, such as the shift, the number of working days per week, number of hours worked per day, and the days of the week identified as regular days off (RDO).

The scheduling unit and/or supervision may adjust an employee's work schedule to meet the needs of the Department.

MPP-3-02/290.05 General Guidelines

County employees shall not work overtime while using vacation time or during the same shift they elected to take off, except on two specific circumstances:

1. Pre-approved special projects
2. Court time

Note: Court time referred to above is a subpoenaed court appearance, not Department court overtime.

Date Reviewed:	October 20, 2020	Next Review Date:	October 20, 2021

PURPOSE

It is intended to ensure uniform case management procedures in accordance with established Department standards.

BACKGROUND

In an effort to improve Fraud & Cyber Crime Bureau's case management procedures, C.L.E.A.T.S. was implemented January 1, 2009. C.L.E.A.T.S. has given investigators the ability to better manage their individual cases, supervisors the ability to better manage the Bureau caseload, and provides managers with multi-layered information to better evaluate Bureau effectiveness and efficiency.

This case management system further provides improved case management information for a unit commander, and allows managers, supervisors and the individual detectives to better manage their responsibilities. C.L.E.A.T.S. was also designed as an adjunct to LARCIS. This database was able to fill a niche where LARCIS fell short.

SCOPE OF ORDER

This policy is directed to all Fraud & Cyber Crimes Bureau personnel, specifically those involved with the input, assignment, investigation, documentation, processing, review, approval and filing of Bureau casework.

ACCOUNTABILITY

Proper reporting procedures shall be followed. All personnel involved will be held directly accountable for the concise, accurate and complete reporting and review required in the case management process.

TRAINING

The Bureau Commander will ensure that all personnel have been thoroughly briefed on this order. Special attention will be given to newly assigned personnel to ensure they are properly trained and familiar with all aspects of this order and the C.L.E.A.T.S. system functions.

ORDER

Any investigative information received or developed regarding the case shall be documented in the database case file utilizing the investigators case journal contained in the C.L.E.A.T.S program. The electronic case journal was designed to replace "Red Books" and investigator logs and to document the current disposition or status of each case. This feature also allows the team supervisor to monitor and review each case too further ensure appropriate investigative procedures are being followed per this Bureau Order.

C. Automated Reports and Statistical Information

The C.L.E.A.T.S. system was designed to reduce redundancy in certain data entry tasks performed daily by Fraud & Cyber Crime Bureau investigators. For this reason, a number of forms, reports and statistical information were automated. For the sake of consistency, these automated forms and statistical modules shall be utilized to document and update case information and inactivate or close cases.

Some team cases may be self-generated and involve the use of informants. With prior approval from the Bureau Commander, said teams may use C.L.E.A.T.S. for statistical purposes only. It shall be incumbent upon all investigators to have their case work, case logs, personal logs and statistical information current and up to date prior to the 1st day of every month.

Failure to provide this information will cause the monthly Bureau reports to reflect inaccurate statistical information.

Supervisors shall routinely review all C.L.E.A.T.S. generated logs and reports. Upon verifying the

information contained within these logs and/or reports to be accurate and complete, an immediate supervisor shall sign with the name, employee number and date his/her approval.
