5-08/100.30 - Prohibitive Uses

Department personnel shall not use facial recognition for the following:

- To actively surveil members of the public through any camera or video device unless the person(s) are under an active criminal investigation or the surveillance is in response to an imminent threat of life;
- On live stream video unless there is an imminent threat to life or at risk individuals;
- In connection with portable recorders; and/or
- For predictive analysis.
