Crime or Incident PRIORITY ACTION AND STATISTICAL CODES	
## Station Detective See Volume 5, Chapter 9.	d to or.

- children living at the location, and indicate all children who were present during the incident;
- Contact the Department of Children and Family Services (DCFS) and initiate a suspected child abuse report (SCAR) if the child is a witness, a victim, or is potentially at risk. The SCAR number provided is to be noted in the report;
- Offer an Emergency Protective Order (EPO) to the victim and document the results (if the victim refuses the EPO, the deputy has the discretion to obtain an EPO on the victim's behalf without the victim's consent if the deputy believes the victim is still in danger); and
- Document that a Family Abuse Intervention Resource (FAIR) brochure, Report Information brochure, and the Victim Information and Notification Everyday (VINE) brochure was given to the victim at the scene.

Listed below are guidelines to be followed when assigning a statistical code to cases of Domestic Violence:

<u>050</u> If a dangerous or deadly weapon is used or there are serious injuries (broken ones, internal injuries, or injuries requiring stitches) to the victim which could have been caused by a personal weapon (such as hands, fists, or feet).

<u>146</u> If a personal weapon (such as hands, fists, or feet) is used and there are no visible or minor injuries to the victim.

<u>175</u> If the Domestic Violence is criminal in nature, but no weapon was used and there are no physical injuries to the victim (e.g., stalking, violation of court order, or vandalism).

449 Noncriminal Domestic Violence is when there may have been arguing, etc., but there is no evidence of physical force. Therefore, the elements required to classify that a crime occurred do not exist.

<u>708</u> Suspicious Circumstances, Possible Domestic Violence is to be used when the victim claims domestic violence occurred, but there are no visible elements or evidence sufficient to classify the incident as a crime.
