DETECTIVE DIVISION

SPECIAL VICTIMS BUREAU

Bureau Order No:	0002
Subject:	GROOMING AND DRESS STANDARDS

Effective Date	Jan. 2023	Last Date Reviewed	Jan. 2023	Last Date Revised	Jan. 2023
-----------------------	-----------	---------------------------	-----------	--------------------------	-----------

PURPOSE

To provide guidelines for grooming and dress standards within Special Victims Bureau, the following policy shall be followed by all bureau personnel.

POLICY

Personnel of the Special Victims Bureau shall present a professional appearance when representing the Department in court, investigative assignments, and other departmental business activities.

Attire during business hours shall always be kept clean and neat. Clothing worn by employees while performing in any capacity, shall be appropriate business attire attendant to their assignment. Members shall keep their persons clean and sanitary. Hair shall be appropriately styled and groomed.

All Special Victims Bureau personnel shall adhere to the following standards:

- Males shall wear a business suit or sports coat and slacks with a conventional shirt and tie.
- Females shall wear a dress, dress suit, skirt and blouse, pantsuit, or blouse and pants appropriate to a businesslike appearance.
- See-through fashions, "active wear" garments or shorts are not appropriate business attire. The fact that an article of clothing is currently in fashion does not mean it is appropriate business attire for members of this bureau.

In the event of a search warrant (or undercover) operation, wherein personnel may be called upon to perform duties which may damage or soil business clothing, appropriate alternative attire, consistent with their role, may be used during the operation. Sworn personnel may wear appropriate casual attire when the detective feels it may assist in rapport building with a victim in a less formal setting (i.e.; slacks, collar shirts, etc.). In this situation, sworn personnel shall have access to business attire in the event that they are called into court or other locations where casual wear is not acceptable.

SAFE TEAM

The SAFE team works with the FBI and U.S. Marshall's Office on a day-to-day basis. Members of the team conduct various undercover operations and stings; they are authorized to wear the appropriate attire for their mission. Individuals assigned to the SAFE team must dress in a fashion set forth by that task force coordinator, given the circumstances of their mission.

COURT APPERANCES

When Special Victims Bureau personnel are called to give testimony in court or for any other formal court proceeding, (e.g., in camera hearings, motions, depositions at non-court locations, etc.) appropriate business attire shall be worn at all times.

Any exception to this order shall be made only with the approval of the bureau commander or lieutenant.

For further clarification, refer to the Manual of Policy and Procedures, Section 3-01/050.80, Grooming and Dress Standards.

DETECTIVE DIVISION

SPECIAL VICTIMS BUREAU

Bureau Order No:	0004
Subject:	VICTIM AND INVESTIGATOR RELATIONSHIP

Effective Date	Jan. 2023	Last Date Reviewed	Jan. 2023	Last Date Revised	Jan. 2023
-----------------------	-----------	---------------------------	-----------	--------------------------	-----------

PURPOSE:

To establish guidelines for personnel concerning the victim/investigator relationship.

POLICY:

Victims and their families are not only traumatized by the act itself, they often feel abandoned within the Criminal Justice System. The detective and the relationship he/she establishes with the victim can significantly impact the victim's emotional survival. From the beginning of the investigation to its conclusion, the Special Victims Bureau detective is tasked with the responsibility for providing the necessary support and understanding to the victim. This will be accomplished by the following:

- The assigned detective shall attempt to contact the victim/family **no later than 24-hours** after receiving the case. The detective shall advise them when the investigation will begin and supply their contact number(s) and e-mail address should they need to contact the detective. If a Team Sergeant assigns a case to a detective when the detective is unavailable for a period of time due to his being on vacation, out of the area on extended training, etc., the Team Sergeant will assume the responsibility to make the above notification. All contacts and attempts will be documented in the Case Journal.
- It is the Team Sergeant's responsibility to ensure their detectives comply with the **24 hour notification** to the victim or family by reviewing the case journal.
- During the first interview, briefly explain the process to the family. Let them know what to expect.
- Interview the victim in person. Any telephone interviews must be previously approved by the team sergeant. This directive will not apply after a rapport has been established and detectives will periodically need to make contact with their victim to get additional information or update them as to the status of their case.
- Advise the victim and family regarding victim's rights and inform them that counseling and entitlements are offered through the Victim-Witness Unit of the District Attorney's Office. Let them know that a criminal filing is not contingent on them receiving survivor benefits. Provide the family with a telephone number to their nearest Victim-Witness office.

- At least once a month, advise the victim/family of the status of all active cases and document your notification in the Case Journal.
- Advise the family of the final disposition of the case and document this in the Case Journal. Your explanation of the results of your investigation is the case closure for many victims and could be critical to the victim's emotional healing process.
- Victims who are contacted at their school will be advised prior to the commencement of the interview that they have the right to have a support person present. Such notification, and of the child's response, will be documented within a detective's first or supplemental report. All additional provisions of 11174.3 PC will be taken into consideration and complied with.
- As per the mandates of 679.04 PC, victims of a sex crime will be advised prior to the commencement of an investigative interview, of their right to have two support persons present. Should the victim indicate any desire to invoke this right, the interview will not commence until those mandates have been met. Such notification and of the child's response will be documented within a detective's first or supplemental report.

PURPOSE:

To provide Special Victims Bureau (SVB) personnel with court liaison guidelines.

POLICY:

SUBPOENAS – ELECTRONIC SYSTEM

The SVB's Court Liaison Coordinator maintains a computer record of all subpoenas received. The Court Liaison Coordinator performs the following functions in the Electronic Subpoena Tracking System:

1. Receives email subpoena notification along with case assigned detective from the District Attorney's Office.
2. Monitors the Electronic Subpoena Tracking System to confirm detectives acknowledges the E-subpoena in the system.
3. Coordinator reviews E-Subpoena system daily and emails detective and their sergeant of any outstanding, unacknowledged subpoenas in the system.
4. Coordinator sends out second notification within 2-3 days of first notification to detective and sergeant if necessary.
5. Coordinator notifies Operations Lieutenant of all outstanding subpoenas older than 30 days.

SUBPOENAS – MAIL

The Special Victims Bureau's Court Liaison Coordinator tracks all mailed subpoenas for witness in a yearly spreadsheet in the FCB Pro. Staff folder under "Subpoena." The coordinator also performs the following functions.

1. Coordinator provides case detective with the original subpoena to be served to victim and/or witnesses. Original subpoena is placed in detective's mail box.
2. Coordinator files copy of subpoena in "Subpoena" folder by month and updates the spreadsheet with detective's name, case number and defendant's name.

The Investigating Officer is responsible to do the following:

1. Contact the District Attorney's Office to determine on-call status for subpoenas that fall on an RDO, and notify their team sergeant of the results.

Note: If on-call status is extended District Attorney will notify Court Liaison Coordinator who emails investigating officer with the updated information.

2. Personnel shall respond to a must appear subpoena or seek permission to be placed on-call through the District Attorney's Office. Deputies placed on-call shall be available to receive telephone calls, maintain a response time of one hour or less. Overtime shall be compensated in accordance with guidelines contained in the Manual of Policy and Procedures, Section 5-07/270.05.

OVERTIME MANAGEMENT

Personnel who receive a subpoena for an appearance on a regular day off shall notify their supervisor, who will attempt to work out an adjustment schedule, if practical and feasible, to avoid an unnecessary expenditure of overtime. Personnel shall attempt to go on-call when possible. Personnel are reminded that when they go

to court they must clock in and out to account for their court hours utilizing Sheriff's facility, District Attorney's Office, etc.

COURTROOM DEMEANOR

Courtroom demeanor, including the quality of testimony given and the professional relationships developed by personnel assigned to the Special Victims Bureau with other professionals, including court officials, the District Attorney's Office, and others, has long been a priority of this bureau. Courtroom demeanor and the manner in which testimony is presented in court is a subject which is taught to investigators during their initial indoctrination training. Departmentally produced video training tapes concerning courtroom testimony are used during ongoing, in-service training. This training is important to instill professionalism during court proceedings.

DRESS CODE

SVB maintains a strict dress code. Personnel appearing in court are required to wear business attire at all times. A deputy shall always be dressed in business attire reflective of a professional law enforcement officer when appearing in court.

MONITORING OF PERFORMANCE

Each supervisor shall personally monitor the court room demeanor and testimony of one detective per quarter, and make specific comments on this performance dimension in the yearly performance evaluation.

Performance audits by SVB supervisors include making contact with judges, court personnel, deputy district attorneys, personnel from the Department of Children's Services, adult rape centers, and other professionals who have routine contact with SVB personnel. Specific comment is made on this performance dimension in the individual employee's yearly performance evaluation. The maintenance of a working collaborative effort between the Sheriff's Department and other professionals during the course of a child abuse investigation is a requirement of this type of investigation and this Bureau. Because of its importance, the maintenance of appropriate professional relationships is consistently monitored by the bureau manager and supervisors.

The monitoring of performance shall be reviewed by the SVB field lieutenant and the results of such reviews should be included in the sergeant's annual performance evaluation.

A chart reflecting the Sheriff's stations, the Court that has jurisdiction over their criminal cases, and the SVB Team who serves the station area is attached to this order for reference.

C. Every attempt shall be made to have the court take custody of the evidence or to make a disposition.

D. Evidence deemed personal property and not needed for court shall be released to the owner expeditiously.

F. Will Call

Personnel who need evidence for an upcoming court appearance and the item(s) are located within Central Property and Evidence (CPE) can have them placed on (Will Call) by submitting the request via the PRELIMS system and request that the item be placed in (Will Call).

Upon CPE receiving this request they will place the item in Will Call for five working days and then return it to its original location.

G. Firearms or cash will not be placed in an open (Will Call) bin, but will be placed aside and retrieved when the detective arrives at CPE.

II. Serology, fiber, or other items (sheets, clothing, etc.) of evidence are processed through the station property custodian.

- D. Obtain and refer to the "Crime Lab Receipt #" when contacting the Crime Lab and documenting the evidence in the supplemental report.
- E. Biological evidence, which has been examined by the Crime Lab, is retained by them. Biological containers or packaging such as bio-hazard envelopes, will be returned to the investigating officer for final disposition. These containers have been bleached or cleaned. They shall be taken to Central Property or a station, where they will be held or disposed of by Central Property or the station. (**NOTE:** Crime Lab policy precludes them from destroying containers.)
- F. Any case where there is at least one item of evidence that is capable of being tested for DNA, shall be noted in the case close cover sheet and logged in a spreadsheet by the SVB Supervising Secretary.

III. Evidence Storage

- A. All evidence must be properly labeled.

C. Within 72 hours of being assigned a case where patrol has seized evidence, take any of the following steps to ensure that the evidence has been recorded or transferred to the Special Victims Bureau:

1. Update PRELIMS personally.
2. Advise the station property custodian to see that all evidence related to your case has been transferred to the responsibility of the Special Victims Bureau.

• **0013 - ON-CALL AND RESPONSE PROCEDURES**

LOS ANGELES COUNTY SHERIFF'S DEPARTMENT

DETECTIVE DIVISION

SPECIAL VICTIMS BUREAU

Bureau Order No:	0013
Subject:	ON-CALL AND RESPONSE PROCEDURES

Effective Date	Jan. 2023	Last Date Reviewed	Jan. 2023	Last Date Revised	Jan. 2023
-----------------------	-----------	---------------------------	-----------	--------------------------	-----------

PURPOSE:

In order to achieve the ultimate goal of having this bureau recognized for the important role it plays in major or serious incidents, every deputy sheriff working a patrol station should view specific types of incidents involving juvenile victims just as important as a homicide, for the purpose of follow-up and the collection and preservation of evidence. So should each of you.

Therefore, the following procedures have been established relative to how the members of this bureau will respond to specific incidents, with the emphasis on an immediate roll-out to certain critical situations.

POLICY:

Investigators shall be available for immediate telephonic contact (via cell phone is adequate) and, if necessary, immediate response (within one hour) to a critical incident during the entire period of the designated on-call responsibility.

Team members (North, South, East, West, Central & Northwest), will share the responsibility for being the "On-Call Incident Evaluator" (OCIE). During other than "normal business hours," this person will be responsible, **from 1700 hours on Friday, until 1700 hours on the following Friday**, for accepting telephone notifications of incidents and/or inquiries for guidance from patrol station personnel. Using the criteria as noted in the "Response Procedures" section of this memorandum, the OCIE will conduct an analysis of the situation and, if deemed appropriate, notify the On-Call Sergeant.

The OCIE does not have the responsibility to respond to a critical incident, only to notify the On-Call Sergeant.

Once notified, the appropriate "On-Call Response Investigator" (OCRI), shall make immediate contact with the involved station personnel and provide them with directives as to what actions to take prior to his/her arrival (crime scene containment, handling of the suspect or victim, etc.). The OCRI shall then notify the On-Call Sergeant regarding their response. The team sergeant may also be notified. The sergeant, together with the investigator, will make a determination whether additional personnel are required. The On-Call Lieutenant shall be notified and approve additional personnel response.

Basically, this policy means that all investigators will have the responsibility of being the "On-Call Incident Evaluator" and/or the "On-Call Responder" about once every ten (10) weeks, absent any unforeseen circumstances, staffing shortages, and/or any scheduling conflicts.

In the event an investigator cannot perform the on-call responsibility (sick, emergency, etc.), an immediate notification shall be made to the on-call supervisor, who will designate a substitute investigator and make notification to Sheriff's Headquarters' Bureau. The same procedure applies to the on-call supervisor who may become unavailable. However, that notification shall be made to the field lieutenant.

Special Victims Bureau (SVB), sworn personnel are on a "flex schedule." Both the On-Call Incident Evaluator and the assigned On-Call Responder shall make every attempt to flex their schedule for the week in anticipation of their On-Call responsibilities. If approved by a Lieutenant, the On-Call Evaluator will receive compensation at the premium overtime rate. The amount of overtime will be figured in 15 minutes increments, allowing for not less than that amount of time for every phone call received/handled during "off-duty" hours.

The OCIE shall submit an activity log each business day by 0900 hours, absent any unforeseen circumstances. The logs shall be retained for two years.

The On-Call Responder will receive compensation at the premium overtime rate when such a response is necessitated by this policy. The rule of minimum four hours of compensation shall apply.

RESPONSE PROCEDURES:

Department personnel have been informed that investigators from this bureau are

on-call and available 24-hours a day, seven days a week, and are prepared to assist them with any incidents which come under the case assignment responsibility of the SVB. Such assistance may include providing information and guidance over the telephone, or may also include the immediate response of an investigator(s) to take over the responsibility of the crime scene and interviewing witnesses and victims.

If personnel from patrol stations provide appropriate and timely notification, investigators from the SVB shall respond immediately to the following types of incidents:

1. When it is reported that a victim has been taken to the hospital (not necessarily hospitalized) with substantial injuries. This could include injuries from being beaten or burned, or injuries (either external or internal) that may have resulted from a sexual assault.
2. When a "significant" felony has occurred (i.e., the rape of a child under the age of 14) and there is a crime scene where there exists the possibility of collecting physical and other sexual assault evidence. In these cases, the investigator(s) should consider using the resources of the Scientific Services Bureau.
3. When, during other than normal business hours, a suspect has been arrested and there exists the likelihood that he/she will bond/bail out prior to the next business day, or there is significant workable information available to apprehend a dangerous suspect. (This makes the assumption that during normal business hours an investigator would respond to such a notification.) In these instances, the on-call investigator may choose to also notify the "case assigned" investigator that one of her/his wanted suspects is in custody.
4. When the station watch commander makes a specific request that we respond.

Depending on the significance and severity of the crime and the magnitude of the investigation, the on-call supervisor may choose to assign more than one investigator to immediately respond to a situation. Such incidents might include a rape and beating where, there is a need for crime scene analysis and information gathering from witnesses and potential suspects at a hospital.

In any of the above response categories, the on-call (or on-duty) supervisor shall give serious consideration to responding with the investigator(s) and overseeing the investigation.

- g. At the closure of each case, send an e-mail to the deputy who wrote the first report and include a copy of the e-mail after it was sent in your notes packaged to be scanned. The e-mail shall include:

1. The disposition of his case

(2) The areas of strength and weaknesses of his report, keeping a mind that the intent is to better train our patrol deputies

(3) Recommended investigative techniques or laws that could assist him in the future.

II. FORCE MANAGEMENT

Expectations in this area are as follows.

- A. That you and all your subordinates will emphasize clearly by word and action, that unreasonable force will not be tolerated and that overreaction to verbal or passive resistance is a form of unreasonable force which the Department will be particularly alert for.

- B. That you will verify that force reviews and the attendant documentation is objective, thorough, and absent any bias or hostility.
- C. That force review documentation is complete, paying special attention to these areas:
 - 1. That memos shall not omit or improperly describe key evidence.
 - 2. That taped statements and the narrative accounts of the tapes in the memos shall be consistent.
 - 3. That there is sufficient photographic documentation of suspect or deputy injuries.
 - 4. That there is sufficient tape-recorded documentation of witness or suspect statements.
- D. That decisions about the justification for use of force are reviewed by the Unit Commander in all cases of force requiring hospital treatment.
- E. That the bureau lieutenant and the respective team sergeants analyze and comment on tactics issues as part of force review procedures.
- F. That each team sergeant personally present recurrent force training briefings to their personnel and appropriately provide explanations about how reverence for life and Department philosophy about force relate to actual police/custody situations.

There are a number of ways to check to make certain these objectives are being accomplished. Among them, for instance, include these:

- 1. The Bureau lieutenant includes a specific reference in evaluation narratives to the sergeant's skill in this endeavor.

2. The Bureau lieutenant and the captain conduct a comprehensive review of all force review packages (i.e., evaluate the entire range of documentation for a given incident, including the video tapes, audio tapes, photographs, medical records, first and supplemental reports, in addition to any memos).
3. Commendations for supervisors who submit excellent, exampleâ€‘setting force review documentation which clearly establishes facts which are supported by conscientious evidence collection.
4. Documented counseling or discipline for supervisors who conduct biased or inadequate force reviews.
5. Establishing a required training briefing, created by the team sergeant or involved deputies, based on tactics issues derived from actual incidents.

The integrity of our force management efforts rests with each of you individually.

III. PUBLIC COMPLAINT PROCESS

A. Our primary expectation in the area of public complaints is identical to the Sheriff's, embodied in Department policy. By adhering to this policy we enhance public trust and simultaneously often gain valuable information about the quality of our service and/or the public's perception of it. Failing to be responsive results in erosion of the public's confidence in our personnel and in us as Department leaders.

B. Many features of the Department's procedure for processing public complaints have been designed, especially to foster openness and responsiveness to complaints. These features form the basis for some of my specific expectations in this area, as follows:

1. That team sergeants and civilian supervisors emphasize to their personnel, the expectation that no one (the public, Department, or other governmental personnel, etc.), shall be discouraged or intimidated from filing complaints.

2. That people with complaints are immediately put in touch with the Bureau lieutenant or team supervisor.
3. That complaints not be selectively accepted and investigated. Supervisors shall refrain from accepting only those complaints with a predetermined outcome that will clear their personnel. Complaints must not be refused simply because of the belief that the complaint is frivolous. All complaints are to be documented on the Service Comment Report and processed as outlined in Department policy and procedural information.
4. Service Comment Reports are to be prepared even in cases where the complaint is quickly resolved after discussion with a supervisor or manager. The form shall be filled out and the results documented.
5. That the Bureau lieutenant verifies the categories of complaints applicable at the top of the service comment report prior to sending the report to the Unit Commander. The category(s) checked should accurately reflect the actual nature of the complaint, not merely what it was initially interpreted as prior to the service review.
6. That the team sergeant will ensure that complainants receive a letter from the Unit Commander acknowledging receipt of the complaint and assuring that the complaint will be investigated.
7. That the Bureau lieutenant will also ensure that complainants receive a letter from the Unit Commander after the service review or administrative investigation is completed, notifying the complainant of the outcome and providing him/her with the appropriate information as to additional recourse if still dissatisfied.
8. That team sergeants utilize conflict resolution techniques as appropriate among the complainant and the involved Department member, making a concerted attempt to satisfy the complainant about our responsiveness and thoroughness, if not about the outcome.
9. That up-to-date placards inviting commendations and complaints and displaying the 800 phone number are displayed in facility areas open to the public.

IV. ADMINISTRATIVE INVESTIGATIONS

A. My expectations in this area are as follows:

1. That the Bureau lieutenants, team sergeants, and civilian supervisors recognize the importance of integrity and quality in administrative investigations, to ensure public trust.
2. That the Bureau lieutenants, team sergeants, and civilian supervisors understand and recognize the demand that administrative investigations are done in a thorough, accurate, and objective manner, absent any bias or hostility on the part of the investigators and reviewers.
3. That investigations must be complete, accurate, and objective, with special attention to the following areas:
 - a. All leads shall be pursued and crucial evidence be presented.
 - b. Investigative summaries shall be accurate and not omit facts.
 - c. Witness interviews shall be tape recorded.
 - d. Tape recordings and the investigative summary shall be consistent.
 - e. Investigative summaries shall point out disputed facts.
 - f. Photographs shall be taken of physical injuries (or the lack of injuries).
 - g. Interview techniques should be consistent with Detective Division standards.
 - h. Interviews shall be conducted in a fair, open, unbiased, and civil manner.
4. That you will only recommend approval to inactivate an administrative investigation when you are certain both that the complainant volitionally withdrew his/her complaint and that there is no reason to believe misconduct occurred.

V. DISCIPLINE

A. My expectations in this area are as follows:

1. That you understand that discipline must be administered for the purpose of:
 - a. Holding employees accountable for conduct and decisions.
 - b. Setting consistent standards about how policy applies dayâ€™toâ€™day situations.
 - c. Maintaining public trust.
 - d. Demonstrating concern for subordinate welfare, including that of the disciplined employee as well as other employees, who are entitled to a work environment where they and their peers are held similarly and accountable.
2. That you understand the distinctions among the four possible dispositions (founded, unfounded, unresolved and exonerated).
3. That you will be accountable for instances in which you select a finding which is not logically supported by the facts.
4. That you submit to the Unit Commander all of the following information for founded administrative investigations.
 - a. Disposition work sheets (or, if none has been prepared, your own analytical assessment of the aggravating and mitigating factors in the incident which may affect the level of discipline).
 - b. Guidelines for discipline.
 - c. The employee's performance history, as indexed in the automated databases and documented in reports, performance evaluations, and the unit performance log.

VI. PERFORMANCE EVALUATIONS

The County Code (Rule 20.02) requires a performance evaluation for each employee at least annually. Over and above any legal requirement, however, is the common sense rationale. If we level with our employees about our expectations and their own work product, and if they receive honest written feedback, they'll do better.

I expect you to view the "performance evaluation" as a process, not as an occasional, onerous task. This process is much more demanding than merely filling out the "Report on Performance Evaluation." It entails making continual judgments and comparisons about an employee's work product, work ethic, and professionalism. It requires open-minded refinements and adjustments as new information becomes available. It requires ongoing, written notations, organizing observations about performance into commendations and discipline, and records of accomplishments, counseling sessions, conferences about career development, etc. Supervisory documentation makes it possible for you to write an evaluation that is uniquely significant, helpful and/or rewarding to the employee.

A. My additional expectations in this area are as follows:

1. That Reports on Performance Evaluation are written and processed on time, so that employees receive meaningful, useful written feedback.
2. That evaluations reflect a commitment to holding people accountable for their actual job performance objectively and accurately.
3. That all appropriate documentation of performance during a rating period is accounted for in the evaluation narrative. In the case of discipline, reference shall be made in the evaluation report for the rating period in which the discipline is imposed.

B. Among the directives for fulfilling these expectations are:

1. The Bureau lieutenant, each team sergeant, and each civilian supervisor shall:

- a. During each evaluation period, conduct three formal counseling sessions with each subordinate, focusing on the major components of the "Report on Performance Evaluation," including specialized skills, goals for improvements, commendable actions, and work ethic associated with the Department's core values and service oriented policing goals.
- b. Document the counseling sessions in the Performance Log.
- c. Ensure that each employee has a page.
- d. Ensure that each employee's page represents the current rating period.
- e. Ensure that no employee's page is blank.
- f. Ensure that entries for substandard performance are being conscientiously documented.
- g. Recognize that your willingness and skill concerning use of the performance log will be part of your evaluation report.

2. Identify employees with frequent or severe performance trends and do the following:

- a. Document all incidents of substandard performance in the Performance Log.
- b. Include in the Performance Log recommendations for the employee to improve his/her performance.
- c. If necessary, based on the severity and level of the substandard performance, prepare documentation for a rating of "Improvement Needed" on the "Report on Performance Evaluation."

Whichever ideas you select, pending more formal Department-wide processes being established, I expect you to develop a system for documenting the performance of your personnel.

VII. INTERNAL CULTURE

The Department's expectations about how we relate to and treat our employees is as follows: We managers and supervisors, both as individuals and as the group which administers, promotes and enforces Department-wide systems which significantly affect employee welfare and motivation (e.g., promotions, job assignments, transfers, discipline, etc.), have special obligations in this area.

A. My primary expectations simply reiterate the Sheriff's expectations, as put forth in his August 24, 1992, letter to each Department member.

1. That all members treat each other, whether sworn or civilian, as they would expect to be treated if the positions were reversed.
2. That all members understand the connection between effective law enforcement and appreciate cultural and gender diversity.
3. That all members receive consideration without regard to race, color, religion, national origin, ancestry, sex, marital status, sexual orientation, or physical disability.
4. That we administer a work atmosphere free from discrimination, hazing, or harassment.
5. That everyone will conduct him or herself professionally in demeanor and personal appearance.
6. That offensive conduct or discriminatory action based on the previously-listed factors result in discipline.
7. That supervisory members take immediate and appropriate corrective action in response to violations of these expectations.
8. That the chain of command shall be respected.

9. That we shall practice core values within our own ranks.

B. We can also outline some additional expectations which augment the preceding ones, as follows:

1. That you strive to foster in your personnel an understanding of the connection between an appreciation for cultural and gender diversity and effective law enforcement.
2. That we demonstrate that the opportunity to come to Special Victims Bureau is genuinely open to all personnel—particularly those who, for whatever reason, in the past have not comprised a representative percentage of those assigned to traditionally coveted units or positions.
3. That we take extra care to evaluate personnel investigations into discrimination, harassment, and hazing allegations, ensuring thoroughness and objectivity.
4. Make a definite, clear, resounding statement about your personal convictions concerning the corrosive, destructive effect of intolerance on our work environment, and professionalism at a staff or team meeting.

VIII. VEHICLE PURSUIT MANAGEMENT

Law enforcement vehicle pursuits involve significant issues of deputy safety, public safety, and risk management. I am particularly concerned that you and all your personnel have a genuine appreciation for the risks involved and a sound sense of judgment about how to evaluate the advisability of engaging in or continuing pursuits within the guidelines of Department policy.

A. My expectations as to pursuits are as follows.

1. That the bureau lieutenant and team sergeants will emphasize the importance of pursuit management within Department policy guidelines to their personnel and will also emphasize to their subordinates that they will be held accountable for pursuits not conducted within guidelines.

2. That all Detective Division personnel operating "unmarked" or "undercover" vehicles shall adhere to the Department's emergency driving policies governing Code 3 responses.
3. That deputies operating "unmarked" or "undercover" vehicles without red lights and siren shall not engage in vehicle pursuits.
4. That only sheriff's vehicles properly equipped with a departmentally approved red light, siren, and operational sheriff's radio (480 hand-held portable or hard wire mount) may be utilized to engage in Code 3 responses or vehicle pursuits, pursuant to departmental guidelines.
5. That to insure legislative compliance, all red lights and sirens utilized on sheriff's vehicles are authorized by Communications and Fleet Management Bureau.
6. That when an arrest is imminent, the tactical planning for making the arrest should evolve around a time that the suspect is not mobile in a vehicle, thus decreasing the possibility of a fleeing suspect.
7. That in situations where an arrest can only be made as a result of a traffic stop, and prior planning is possible, a uniform officer in a marked patrol vehicle is to conduct the intended vehicle stop.
8. That pursuits are properly broadcast on frequencies monitored by Sheriff's Communications Center. That team sergeants are accountable for comprehensive and accurate completion of the pursuit summary form and the CHP 187 form for each and every pursuit. The bureau lieutenant will check to ensure that the pursuits reported to Traffic Services Detail by means of these forms match those logged by Sheriff's Communications Center.

IX. PROBLEM INDICATORS

Our effectiveness, even our professionalism as law enforcement managers and supervisors, rests on our willingness to work hard to anticipate problems and develop plans to prevent them or minimize their adverse

impact. Our failure to try jeopardizes public safety, our level of service, and employee welfare.

Much of the Department's effort in the past few years has been directed toward providing tools for executives, managers, and supervisors to assist in anticipating problems (risk management plans, automated performance tracking, community input, etc.). The general expectation, of course, is that you will use the tools, in combination with other appropriate sources of information, and apply your experience and judgment to the tasks of anticipating potential problems and coming up with well-reasoned responses and solutions.

One particular challenge we all face in accomplishing "problem identification" is deciding what indicators to notice or examine in order to recognize that a given employee or group of employees, or shift or entire unit, merits attention, analysis or action. The task is partly an "art" involving seasoned instincts, but it also has concrete dimensions which are the basis of my specific expectations.

I expect you will be able to inform me, in substantial detail, about certain significant aspects of the operations of the team or unit you oversee. These include:

1. Employee strengths and weaknesses.
2. Unique law enforcement problems or challenges in the area served or the function performed.
3. Identities and performance histories of individual employees who appear to merit special managerial attention.
4. Aspects of the informal organization within your team or unit and their effect on the effectiveness of the bureau.
5. Information and updates on significant or noteworthy cases.
6. Open case status for each investigator.

X. HAZING

Department personnel have operated for years in general agreement that hazing is a "negative" thing and "not to be tolerated." Despite that agreement, instances still occur too frequently in which trainees or newly assigned personnel are "initiated" or "disciplined" by means of unreasonable, unnecessary, oppressive or humiliating expectations/demands by training officers or "tenured" personnel.

Part of the problem apparently is that there is not a sufficiently common understanding of what constitutes hazing in the Sheriff's Department. Furthermore, some practices or expectations which may be reasonable in the hands of seasoned professionals (people guided by wisdom and genuine concern for employee development) can be harmful or dangerous in the hands of shortsighted, insecure, immature people who tend toward abuse of authority.

- A. In order to establish a common understanding about hazing and to strengthen accountability for eradicating the practice, I outline the following expectations:
1. That lieutenants, sergeants and civilian supervisors actively express to your team members and staff your intolerance of hazing.
 2. That lieutenants hold sergeants, and civilian supervisors accountable for providing clear guidelines about the behavior/practices that constitute hazing as explained below.
 3. That sergeants and civilian supervisors are accountable for alertness and assertiveness in: (1) Observing/detecting signs of possible hazing activity, (2) Evaluating questionable activity carefully, (3) Quelling the practices/activities/conduct outlined below, and (4) Holding violators accountable as appropriate.

To clarify what conduct/practices/activities are deemed to constitute hazing, I am providing the following list of examples. The list is not all-inclusive, but contains an illustrative sampling of things which can hamper/erode or play havoc with learning, positive relationships or professionalism.

NOTE: It is acknowledged that some of the items listed are not inherently malevolent. Nevertheless, they are

risky to condone as a practice due to

the potential for abuse. In these cases, that risk of abuse has been determined to outweigh any possible benefit of allowing the practices to continue. Hazing occurs when training officers or established peer groups of tenured personnel engage in the following:

1. Requiring personnel of equal rank or classification to address oneself or others of equal rank as "sir" or "ma'am."
2. Denying trainees the same right as the training officer to eat during the shift or workday.
3. Denying trainees the right to eat in the same location available to the training officer or tenured peers.
4. Prohibiting trainees or new personnel from addressing or conversing with others, absent a specific, valid reason for such a prohibition.
5. Deliberately and unnecessarily placing obstacles in the path of a trainee's accomplishing work tasks, such as "stacking" radio calls, and assigning unreasonable workload, requiring unnecessary physical tasks, etc.
6. Ignoring the presence of a co-worker.
7. Addressing or referring to trainees or new personnel in their presence unprofessionally with terms such as "boot," "fish," "scrum," "FNG," etc.
8. Requiring trainees to ride in the back seat of a car when the front seat is available.
9. Requiring trainees/new personnel to sit at a designated table during briefings, meetings, meals, etc.

10. Enlisting or conspiring with inmates to trick, misguide, or harass a fellow employee in any way.
11. Correcting deficiencies or mistakes made by trainees or new personnel in the presence of others, except where absolutely necessary.
12. Correcting deficiencies or mistakes made by trainees or new personnel in a demeaning, ridiculing manner.
13. Requiring trainees or new personnel: (1) To stand at attention at any time after the date of their graduation from the Sheriff's Academy, except in those instances appropriate for all sworn personnel to stand at attention. (2) To request permission to be recognized or to be excused differently from the manner used by any other courteous professional Deputy Sheriff or civilian.
14. Pressuring or "requiring" trainees or new personnel to host or attend parties, meals, get-togethers, etc., or to perform tasks or consume specific things or amounts at such events.
15. Prohibiting new personnel from wearing/using certain types of Department's approved clothing or equipment.
16. Playing "practical jokes" which result in humiliation or damage to the property or equipment of another.

NOTE: Nothing in this section is meant to preclude legitimate supervisory or training officer communication about performance deficiencies which is meant to assist or inform trainees or new personnel, or which is necessary to hold them accountable for safe, capable, professional law enforcement service, or support.

The Department has developed a policy prohibiting hazing that will be strictly enforced by this bureau. Allegations of hazing shall be investigated in the same manner as allegations of discrimination. The policy pertaining to hazing can be found in the Manual of Policy and Procedures, under Section 3-01/030.73. All Department members shall treat every co-worker, whether sworn or civilian, with respect. Please use the information in this section as a basis for explaining to all personnel what constitutes hazing and as a basis for

holding personnel accountable for its absence.

Subject:	MEDIA RELATIONS AND INTERVIEWS
-----------------	---------------------------------------

Effective Date	Jan. 2023	Last Date Reviewed	Jan. 2023	Last Date Revised	Jan. 2023
-----------------------	-----------	---------------------------	-----------	--------------------------	-----------

PURPOSE:

The purpose is to provide guidelines for personnel assigned to the Special Victims Bureau (SVB), in dealing with the media when information and interviews are sought.

OVERVIEW

All personnel shall adhere to the Policy and Press Manual and Section 3-01/080.00 of the Manual of Policy and Procedures when dealing with the media.

POLICY

It is the policy of the SVB that, *as a general rule*, in cases involving high-media interest, personnel assigned to the Sheriff's Headquarters Bureau, will be contacted. Media requests for information shall not be granted if disclosing the information will jeopardize a case. For other cases and general requests for information, bureau members shall obtain supervisor approval prior to being interviewed or providing information. Supervisors shall consult with the Unit Commander, through channels, to discuss the request prior to approving an interview.

Personnel given authorization to participate in a media interview, shall provide accurate information, and this information shall be based on ethical, professional, and practical considerations.

Before holding a press release or media availability, where the intention is to release a photograph of the suspect, the Unit Commander or Operations Lieutenant SHALL be consulted in the assessment process and approve any release. Personnel shall exercise caution and be guided by our quest for the truth as we seek to exonerate the innocent and prosecute those responsible for criminal conduct. In those cases where the facts are unclear or without corroboration, alternative options to a media release shall be considered as significant impact to a subject's character may result.

Personnel shall avoid giving opinions, speculation, educated guesses, editorial comments or personal views about a case when being interviewed by the media. Personnel shall not be abrupt or terse in giving responses and should avoid saying "no comment." It is better to indicate *that the matter is still under investigation or information is still being obtained, and it would be premature to comment on the matter being discussed*. It is best to avoid any temptation to provide a response that goes beyond the scope of the question. Personnel shall not interpret Department or Bureau policy.

Prior to any interview, it is permissible and good practice to ask the interviewer to go over the questions that are planned. Personnel being taped for a later broadcast can ask the reporter to stop any audio or video equipment and start over (Refer to the attached "Bill of Rights" for the television interviewee for additional guidance.)

Prior to any news release, the concerned Unit Commander, who has jurisdiction of the incident being released, shall be notified. A record of this notification shall be made on the SVB News release form.

Bureau personnel shall refer reporters who request the following types of information to the Sheriff's Information Bureau:

- Interpretation of Department policy
- Comments or information on trends or statistics involving the Department.

LOS ANGELES COUNTY SHERIFF'S DEPARTMENT

DETECTIVE DIVISION

SPECIAL VICTIMS BUREAU

Bureau Order No:	0016
Subject:	SEARCH WARRANT CHECKLIST PROCEDURES

Effective Date	Jan. 2023	Last Date Reviewed	Jan. 2023	Last Date Revised	Jan. 2023
-----------------------	-----------	---------------------------	-----------	--------------------------	-----------

PURPOSE:

The purpose of this bureau order is to provide guidelines for personnel assigned to the Special Victims Bureau (SVB), on the search warrant and Records and Information Bureau (RIB) checklist procedures.

POLICY:

The Manual of Policy and Procedures, Revision dated January 12, 2009, a checklist must be completed whenever a search operation (search warrant, probation, parole search or a search of a fixed location) is anticipated. The two-page Search Warrant Preparation Checklist form (SH-R-461) must be completed and an URN number obtained prior to the service of the warrant. If there is already an URN number issued for the investigation, there is no need to obtain another URN number. However, you must list on the classification line Search Operation / 810, along with all charges on the subsequent supplemental reports. This will ensure the search operation is tracked through LARCIS.

All SVB Sergeants are to ensure that investigators understand how to complete the search warrant checklist forms thoroughly and accurately, by holding team meetings with staff to discuss the procedures and guidelines.

SVB personnel traditionally deal with two types of search warrants. The first being a warrant for records only, i.e., medical and/or school records, telephone bills or utilities statements. The second type of warrant is for the search and seizure of actual evidence of a crime, i.e., clothing, biological evidence, etc. Each of these warrants requires specific notifications and documentation.

Team sergeants and investigators shall ensure the following procedures are followed:

I. SEARCH WARRANT FOR RECORDS ONLY

This covers hospitals, schools, etc., where investigators expect full and complete cooperation.

A. WARRANT PREPARATION

1. The search warrant must be reviewed and approved by the Team Sergeant prior to submitting it to a Judge. The search warrant shall be reviewed by the Field Lieutenant prior to execution of the warrant. After the warrant is granted, complete the two-page check list (Refer to SH-R-461).

No Detective Division Operations Plan is needed if the warrant is being served at a business for records only. If a tactical situation is anticipated, then an Operations Plan is required.

2. Notify the Team Sergeant and submit all documents for review and approval.

After the search warrant and checklist are reviewed and approved, the Team Sergeant will submit all documents to the Field Lieutenant for approval.

NOTE: The Team Sergeant and Field Lieutenant will sign or initial all documents indicating that review and approval has been given prior to service.

3. Call the SVB Field Lieutenant and advise that you will be serving the warrant.
4. Serve the search warrant. No sergeant is required for a Records Only warrant.
5. The Team Sergeant shall sign as the Incident Commander on this type of warrant, and must note on the checklist (upper right-hand corner) indicating whether or not the warrant was served.
6. The Team Sergeant will log the warrant in the SVB warrant file.

NOTE: No audio or videotape required on these warrants.

B. AFTER WARRANT HAS BEEN SERVED (OR NOT SERVED)

1. Submit completed checklist, Operations Plan, first report, property receipt, and copy of search warrant to the Team Sergeant, within fifteen days of serving the warrant. The documents will be submitted in a large manila envelope with a Search Warrant Checklist attached to the face. The Team Sergeant will review and acknowledge that all required documents are contained in the envelope.
2. The Team Sergeant will immediately submit the approved documents to the SVB Field Lieutenant.
3. The Team Sergeant will log the warrant in the SVB warrant file.
4. The Field Lieutenant will maintain these documents in a locked file cabinet for five years after the date of the warrant service.

II. SEARCH WARRANT AT A RESIDENCE OR BUSINESS - (TACTICAL SITUATION)

A. FOLLOW STEPS OUTLINED ABOVE

B. SERVICE OF WARRANT

1. A Sheriff's Department sergeant will be present when the warrant is served. The sergeant will be designated as the Incident Commander. It is preferred that a SVB sergeant be present for this service, but in his absence, another unit's sergeant can be used.
2. Audiotape Knock and Notice.

3. After entry has been made and the location is secured, the Team Sergeant will videotape the location prior to any search. All occupants at the location will be captured on videotape and will be asked to announce their name, DOB, and address. The Team Sergeant will also ask for the property caretaker to identify any large sums of money, high-dollar jewelry, or weapons at the location.
4. During search operation, the Team Sergeant will oversee the search and seizure of property. A scribe will be assigned to document the actions of the search team.

C. AFTER WARRANT HAS BEEN SERVED

1. After completion of the search, the Team Sergeant will videotape the location prior to securing it.
2. The Team sergeant, whenever possible, will have the primary resident walk through the location and ask them on tape if:
 - A. Any property was damaged.
 - B. Any cash or other valuable item had been removed without their knowledge.
 - C. They have any questions or concerns.
3. The investigator must: (1) Leave a copy of the property receipt at the location, (2) Maintain the original receipt in the checklist package, and (3) Provide a copy of the search warrant to the occupants.
4. Secure location prior to leaving.
5. The Incident Commander will complete the appropriate paperwork on the checklist form indicating the warrant was served, noting the date and time. All reports, forms, cassette tapes, and videotapes in the search warrant package will then be submitted to the Team Sergeant.
6. The Team Sergeant will review and approve that all forms are within the packet, and will submit the completed package to the Field Lieutenant. The Field Lieutenant will maintain the package in a locked cabinet for five years from the date of service of the warrant.

ADDITIONAL INFORMATION:

Records and Identification Bureau

12440 East Imperial Hwy., Suite 400-W

Norwalk, California 90650.

Should the handling detective decide not to serve a signed search warrant, the detective must fill out the checklist and indicate that the search warrant was not served. The detective must then submit a search warrant package, just as if the warrant had been served. In this case, there would be no need to use the Stat Code 810 in the subsequent supplemental reports.

LOS ANGELES COUNTY SHERIFF'S DEPARTMENT

DETECTIVE DIVISION

SPECIAL VICTIMS BUREAU

Bureau Order No:	0023
Subject:	CHILD ABUSE CENTRAL INDEX PROCESS

Effective Date	Jan. 2023	Last Date Reviewed	Jan. 2023	Last Date Revised	Jan. 2023
-----------------------	-----------	---------------------------	-----------	--------------------------	-----------

PURPOSE:

The Attorney General administers the Child Abuse Central Index (CACI), which was created by the Legislature in 1965 as a tool for state and local agencies to help protect the health and safety of California's children. Defined in Penal Code (PC) sections 11164 through 11174.31, these statutes are referred to as the Child Abuse and Neglect Reporting Act (CANRA).

Each year, child abuse investigations are reported to the CACI. These reports pertain to investigations that substantiated physical abuse, sexual abuse, mental/emotional abuse, and/or severe neglect of a child. The reports are submitted by **county child welfare services and probation departments.**

The information in the CACI is available to aid law enforcement investigations, prosecutions, and to provide notification of new child abuse investigation reports involving the same suspects and/or victims. Information is also provided to designated social welfare agencies to help screen applicants for licensing or employment in child care facilities and foster homes, and to aid in background checks for other possible child placements, and adoptions. Dissemination of CACI information is restricted and controlled by statute.

Information on file in the Child Abuse Central Index includes:

- Names and personal descriptors of the suspects and victims listed on reports;
- Reporting agency that investigated the incident;
- The name and/or number assigned to the case by the investigating agency; and
- Type(s) of abuse investigated.

Policy:

Effective January 1, 2012, Chapter 468, Statutes of 2011, amends PC sections 11165.12, 11169, and 11170 of the Child Abuse and Neglect Reporting Act. The new law directs the Department of Justice (DOJ) to receive and enter into the Child Abuse Central Index **only substantiated reports of child abuse or severe neglect submitted by a child welfare agency or a county probation department. Police and sheriff departments are no longer required to submit reports of known or suspected child abuse or severe neglect to the DOJ via the Child Abuse or Severe Neglect Indexing Form (BCIA 8583).** The new law also directs the DOJ to remove all inconclusive reports from the CACI and all names of suspects 100 years of age or older.

Pursuant to 11169 (d) of the California PC, subject to subdivision (e), any person who is listed on the CACI has the **right to a hearing** before the agency that requested his or her inclusion in the CACI to challenge his or her listing on the CACI. The hearing shall satisfy due process requirements. It is the intent of the Legislature that the hearing provided for by this subdivision shall not be construed to be inconsistent with hearing proceedings available to persons who have been listed on the CACI prior to the enactment of the act that added this subdivision.

PC 11169, subdivision (e) states, a hearing requested pursuant to subdivision (d) shall be denied when a court of competent jurisdiction has determined that suspected child abuse or neglect has occurred, or when the allegation of child abuse or neglect resulting in the referral to the CACI is pending before the court. A person who is listed on the CACI and has been denied a hearing pursuant to this subdivision has a right to a hearing pursuant to subdivision (d) only if the court's jurisdiction has terminated, the court has not made a finding concerning whether the suspected child abuse or neglect was substantiated, and a hearing has not previously been provided to the listed person pursuant to subdivision (d).

Review Process:

Person(s) who have been suspected of child abuse and whose names have been placed into CACI, have a right to a hearing to remove their names. When an individual makes a request to have their name removed from the CACI, the following shall occur:

- The Special Victims Bureau (SVB) Operations Lieutenant shall conduct a complete and thorough review of all materials of the case within **45 days** following receipt of the written request.
- The SVB Operations Lieutenant shall submit the file with his/her findings and recommendations to the Unit Commander for approval. After a complete and thorough review of the file and if the Unit Commander concurs with the findings and recommendations of the Operations Lieutenant, he/she

will approve the case file. A letter as to the findings will be sent to the concerned individual. The letter shall be issued to the individual no later than **five (5)** days following the review by the Unit Commander.

The final conclusion letter will state that all reports, documents, and/or evidence have been reviewed (including documents submitted by the individual) and will include the result and reason(s) for the decision. The reason for the decision rendered must support the Unit Commander's evaluation of the facts and evidence contained in the documentation.

The letter informs the concerned individual of the decision based on the materials and/or documents wed. SVB will notify the CA DOJ of any changes in classification in the amended (BCIA 8583) report.

Dear:

The Los Angeles County Sheriff's Department (LASD), Special Victims Bureau, recently completed an investigation of suspected child abuse in which you were named as a suspect in the case. Pursuant to California Penal Code (PC) section 11169(b), you are hereby notified that this information has been reported to the California Department of Justice (CA DOJ), and your name is being placed on the Child Abuse Central Index (CACI).

The CACI contains information from investigative reports of suspected child abuse submitted by child protective agencies. This information is accessed only by authorized personnel of a law enforcement agency, probation department, county welfare agency, and district attorney's office when conducting investigations of suspected child abuse. Court investigators and licensing agency personnel also access the CACI when screening individuals for child placement, licensing, or employment positions having care or custody of children.

The records in CACI are not subject to Public Records Act and therefore are not released to any other person or entity. The LASD is responsible for the accuracy, completeness, and retention of this report pursuant to

California law.

If you believe that the classification should be "Unfounded" as defined in PC section 11165.12(a): "*a report which is determined by the investigator who conducted the investigation to be false, to be inherently improbable, to involve an accidental injury, or not to constitute child abuse or neglect, as defined in section 11165.6*", and desire a review of the case, a copy of all connected reports (which are redacted to maintain confidentiality as required by law) will be provided to you. Please provide the operations lieutenant with any materials and/or documents that you feel are needed and should be included for our review of your case.

Please address your request to Lieutenant John Adams, CACI Review, LASD, SVB, 11515 S. Colima Road, D106, Whittier, California 90604-2800. Lieutenant Adams may be reached at (562) 946-8232.

Dear Parents:

The Los Angeles County Sheriff's Department (LASD), Special Victims Bureau, recently completed an investigation of suspected child abuse in which your son/daughter, [full name], was named as a subject in the case. Pursuant to California Penal Code section 11169(b), your son/daughter must be notified that this information has been reported to the California Department of Justice (CA DOC), and that his/her name is being placed on the Child Abuse Central Index (CACI).

California law requires law enforcement agencies to notify the individual, regardless of age, of their name being placed on the CACI. Although law enforcement agencies have this legal requirement, under these circumstances however, I feel that it is best that you, as the parent, make this notification to your son/daughter. As difficult as this task may be, he/she has a legal right to know that his/her name is being placed on the CACI. Therefore, please inform your son/daughter of the contents of this letter.

The CACI contains information from investigative reports of suspected child abuse submitted by child protective agencies. This information is accessed only by authorized personnel of a law enforcement agency, probation department, county welfare agency, and district attorney's office when conducting investigations of suspected child abuse. Court investigators and licensing agency personnel also access the CACI when screening individuals for child placement, licensing, or employment positions having care or custody of children. Dear

The Los Angeles County Sheriff's Department (LASD), Special Victims Bureau (SVB), received your [your client's] request for our agency to review your [your client's] case for the purpose of removing your [your client's] name from the California Department of Justice (CA DOJ); Child Abuse Central Index (CACI).

California Penal Code section 11165.12, defines three classifications, as listed below. Law enforcement agencies must determine which classification best represents the facts of a case of an individual who was investigated for being suspected of or has committed an act of child abuse or severe neglect. The decision to place an individual on the CACI is guided by the parameters established by the CA DOJ. That decision is separate and independent of any charges filed against an individual, or the case being rejected. Also, the outcome of a court trial is not a factor in that decision.

Lieutenant John Adams has reviewed the case file and any documentation {reports, evidence, and/or material) that you [your client] may have submitted to our agency for consideration. He has submitted his findings and recommendations to me. I have reviewed your (your client's) case and concluded that the below marked classification best represents the findings of the case.

0 Unfounded: "means a report that is determined by the investigator who conducted the Investigation to be false, to be inherently improbable, to involve an accidental injury, or not to constitute child abuse or neglect, as defined in Section 11165.6."

0 Substantiated: "means a report that is determined by the investigator

who conducted the investigation to constitute child abuse or neglect, as

defined in Section 11165.6, based upon evidence that makes it more likely than not that child abuse or neglect, as defined, occurred."

0 Inconclusive: "means a report that is determined by the investigator who conducted the investigation not to be unfounded, but the findings are inconclusive and there is insufficient evidence to determine whether child abuse or neglect, as defined in Section 11165:6, has occurred."

The decision to keep your [you client's] name on the CACI with the classification of "substantiated/inconclusive" was based on the victim's statements, investigative findings of this case, and any

additional evidence that you [your client] may have provided for this review.

If your [your client] would like to discuss the case further, please [have your client] contact Lieutenant John Adams at (562) 946-8232, to schedule a hearing. He will provide you [your client] with the details as to its format.

Dear:

The Los Angeles County Sheriff's Department (LASD), Special Victims Bureau, recently completed an investigation of suspected child abuse in which you were named as a suspect in the case. Pursuant to California Penal Code (PC) section 11169(b), you are hereby notified that this information has been reported to the California Department of Justice (CA DOJ), and your name is being placed on the Child Abuse Central Index (CACI).

The CACI contains information from investigative reports of suspected child abuse submitted by child protective agencies. This information is accessed only by authorized personnel of a law enforcement agency, probation department, county welfare agency, and district attorney's office when conducting investigations of suspected child abuse. Court investigators and licensing agency personnel also access the CACI when screening individuals for child placement, licensing, or employment positions having care or custody of children.

The records in CACI are not subject to Public Records Act and therefore are not released to any other person or entity. The LASD is responsible for the accuracy, completeness, and retention of this report pursuant to

California law.

If you believe that the classification should be "Unfounded" as defined in PC section 11165.12(a): "*a report which is determined by the investigator who conducted the investigation to be false, to be inherently improbable, to involve an accidental injury, or not to constitute child abuse or neglect, as defined in section 11165.6*", and desire a review of the case, a copy of all connected reports (which are redacted to maintain confidentiality as required by law) will be provided to you. Please provide the operations lieutenant with any materials and/or documents that you feel are needed and should be included for our review of your case.

Please address your request to Lieutenant John Adams, CACI Review, LASD, SVB, 11515 S. Colima Road, D106, Whittier, California 90604-2800. Lieutenant Adams may be reached at (562) 946-8232.

To the Parents or legal guardian of XXXXXXXXXX Address

Dear Parents:

The Los Angeles County Sheriff's Department (LASD), Special Victims Bureau, recently completed an investigation of suspected child abuse in which your son/daughter, [full name], was named as a subject in the case. Pursuant to California Penal Code section 11169(b), your son/daughter must be notified that this information has been reported to the California Department of Justice (CA DOC), and that his/her name is being placed on the Child Abuse Central Index (CACI).

California law requires law enforcement agencies to notify the individual, regardless of age, of their name being placed on the CACI. Although law enforcement agencies have this legal requirement, under these circumstances however, I feel that it is best that you, as the parent, make this notification to your son/daughter. As difficult as this task may be, he/she has a legal right to know that his/her name is being placed on the CACI. Therefore, please inform your son/daughter of the contents of this letter.

The CACI contains information from investigative reports of suspected child abuse submitted by child protective agencies. This information is accessed only by authorized personnel of a law enforcement agency, probation department, county welfare agency, and district attorney's office when conducting investigations of suspected child abuse. Court investigators and licensing agency personnel also access the CACI when screening individuals for child placement, licensing, or employment positions having care or custody of children. The records in CACI are not subject to Public Records Act and therefore are not released to any other person or entity. The LASD is responsible for the accuracy, completeness, and retention of this report pursuant to California law.

If you or your son/daughter believe that the classification should be "Unfounded" as defined in Penal Code section 11165.12(a): *"a report which is determined by the investigator who conducted the investigation to be false, to be inherently improbable, to involve an accidental injury, or not to constitute child abuse or neglect, as defined in section 11165.6"* and desire a review of the case, a copy of all connected reports (which are redacted to maintain confidentiality as required by law) will be provided to you or your son/daughter. Please provide the operations lieutenant with any materials and/or documents that you or your son/daughter feels are

needed and should be included for our review of the case.

Please address your request to Lieutenant John Adams, CACI Review, LASD, SVB, 11515 S. Colima Road, D106, Whittier, California 90604-2800. Lieutenant Adams may be reached at (562) 946-8232

Dear

The Los Angeles County Sheriff's Department (LASD), Special Victims Bureau (SVB), received your [your client's] request for our agency to review your [your client's] case for the purpose of removing your [your client's] name from the California Department of Justice (CA DOJ); Child Abuse Central Index (CACI).

California Penal Code section 11165.12, defines three classifications, as listed below. Law enforcement agencies must determine which classification best represents the facts of a case of an individual who was investigated for being suspected of or has committed an act of child abuse or severe neglect. The decision to place an individual on the CACI is guided by the parameters established by the CA DOJ. That decision is separate and independent of any charges filed against an individual, or the case being rejected. Also, the outcome of a court trial is not a factor in that decision.

Lieutenant John Adams has reviewed the case file and any documentation {reports, evidence, and/or material) that you [your client] may have submitted to our agency for consideration. He has submitted his findings and recommendations to me. I have reviewed your (your client's) case and concluded that the below marked classification best represents the findings of the case.

0 Unfounded: "means a report that is determined by the investigator who conducted the Investigation to be false, to be inherently improbable, to involve an accidental injury, or not to constitute child abuse or neglect, as defined in Section 11165.6."

0 Substantiated: "means a report that is determined by the investigator

who conducted the investigation to constitute child abuse or neglect, as

defined in Section 11165.6, based upon evidence that makes it more likely than not that child abuse or neglect, as defined, occurred."

0 Inconclusive: "means a report that is determined by the investigator who conducted the investigation not to be unfounded, but the findings are inconclusive and there is insufficient evidence to determine whether child abuse or neglect, as defined in Section 11165:6, has occurred."

The decision to keep your [you client's] name on the CACI with the classification of "substantiated/inconclusive" was based on the victim's statements, investigative findings of this case, and any

additional evidence that you [your client] may have provided for this review.

If your [your client] would like to discuss the case further, please [have your client] contact Lieutenant John Adams at (562) 946-8232, to schedule a hearing. He will provide you [your client] with the details as to its format.

Sincerely,

SPECIAL VICTIMS BUREAU

Bureau Order No:	0026
Subject:	NOTIFICATION OF SIGNIFICANT INCIDENTS TO SHERIFF'S STATIONS OR BUREAUS

Effective Date	Jan. 2023	Last Date Reviewed	Jan. 2023	Last Date Revised	Jan. 2023
-----------------------	-----------	---------------------------	-----------	--------------------------	-----------

PURPOSE:

To ensure the proper notification of Special Victims Bureau (SVB) significant incident cases to Sheriff's Stations and Bureaus with high-profile media attention.

BACKGROUND:

SVB personnel are routinely tasked with sensitive and sometimes high-profile cases that often attract the attention of social media or other news outlets. SVB personnel handle these cases with the utmost priority, including media interviews regarding the case and at times requesting the public's assistance on a particular case. However, during the investigation some media outlets are not familiar with the Department's case assignment structure and routinely contact the local Sheriff's Station or Bureau having jurisdiction seeking answers to their questions.

SCOPE OF POLICY:

SVB Team Sergeants shall be responsible to make and ensure proper notifications have been made to the local Sheriff's Station or Bureau (County Services Bureau, College Bureau, Transit Services Bureau, etc.) when a significant incident from SVB will attract media attention.

ACCOUNTABILITY:

Team Sergeants shall ensure that a **Significant Incident Notification Memorandum** is created for the SVB Captain's review on all cases that are of a significant nature. A **Watch Commander Log** entry shall also be made in the SVB web-based portal. These types of cases may include but are not limited to:

Suspect or victim is a public figure:
Foster Care / DCFS facility or facility caretaker involved in case
Arrest – named suspect or victim is an employee of any governmental agency
Suspect or victim is a relative of an employee of any governmental agency
Newsworthy incident
Contact with departmental member or other law enforcement agency of controversial or noteworthy nature
Assist Homicide Bureau
Roll-Out:
Suspected Shaken Baby
Child Abandonment / Kidnaping / Attempt murder

Special Victims Bureau - Unit Orders

Multiple suspect rape / Gang rape
MYSpace.com
Other Internet related crimes (FACE Book, etc.):
290 Sex Registrant
Other (Explain):

If a significant incident warrants notification to a Sheriff's Station or Bureau Unit Commander, the Team Sergeant will consult with the SVB Field Lieutenant and ensure that an email or verbal notification is made to the Station or Bureau Operations Staff or Watch Commander. A notation shall be made on the Significant Incident Notification Memorandum identifying the personnel who were notified.

It is important to follow this procedure on **press releases** that are made through SVB to ensure that the Sheriff's Stations or Bureaus are aware of the press release in their jurisdiction and can direct inquiries by the media to the appropriate personnel at SVB.

As we are aware, Station and Bureau Unit Commanders have a responsibility to keep their own Division command staff informed as well as keeping their respective contract cities or governing entities informed of cases that are being handled by the Sheriff's Department, including SVB. Team Sergeants should keep this in mind and provide Station and Bureau Unit Commanders with periodic updates, so they can keep city and county officials informed at their discretion.

It should be noted that not all cases will warrant verbal or email notification to a Sheriff's Station or Bureau. Significant incidents shall be reviewed on a "case-by-case" basis and a final determination shall be made by the SVB Field Lieutenant.

TRAINING:

The SVB Field Lieutenant shall ensure that all Team Sergeants under his or her supervision are appropriately

trained.
